Notice

It has been known that Carly's dox is on one or more websites. **We are not involved with any of this.** Any dox listing this document doesn't belong to the document author (Marblyn) and the editors.

We also DO NOT participate in swatting. Carly was swatted several times, and **we are COMPLETELY UNINVOLVED.**

To the police reading this document (if a police report is made); this is real information we're giving out. **Scroll down to Chapter 2 for serious evidence.**

List of Carly's [Aliases](#) are moved down to below the document because Carly tells people that the document just shows a list of aliases and nothing else. **We want you to actually read the document.**

Police Report Updates

We have made police reports on Carly. Here are the updates below.

1/11/2023

An FBI tip has been made on Carly. If you are reading this and are from the FBI, please give appropriate punishment to Carly. I called her grandmother once and she refused to give proper punishment, so I had no choice but to file a report.

1/20/2023

Carly still uses the internet to do all of the below (aka, all of the chapters). I have submitted a Cybertip report on Carly. Let's hope they respond quicker.

6/12/2024

It's been a year, and Carly is dating Uyko privately. I have called the police department.

So far, when I contacted them, they kept transferring numbers. I gave up on that day because I felt kind of uncomfortable, as I didn't want to be completely public, and wanted to be anonymous calling them.

(Update: I gave up.)

8/20/2024

Another FBI tip has been made on Carly (well more like two because I forgot to provide the document on the first one). This time I couldn't get a copy of the report because it doesn't provide one.

If there's nothing for up to 10 days then I'm going to call her city's police department again.

If you are a relative of Carly, please do take action on her. She has damaged my mental health and others mental health with her manipulative actions. You should scroll and read Chapter 2 and up.

Who is 608?

608 is a well-known member in the Gummibär community, as a controversial person. She's also in the old Roblox community, a community full of worse people, and a dangerous community to stay in.

She's also a (former?) voice actor of a well-known object show, RTTMOT. And also a known Whirled (Club) user.

Statement against 608

worldcash's statement

As a person, I've always tried to shy away from this type of "expose" thing, as I feel it's always caused unnecessary drama, but this is something I cannot ignore.

608 has continuously manipulated others for her own gain, and although she has explained to me and others before that she doesn't have other people to talk to other than OTGC and has issues with mental health, that does not excuse her behavior whatsoever.

An example of this was her manipulation of gameguy in order to stay in a relationship with him, due to her “fear of being kicked from OTGC”, as she said in DMs with me when I confronted her.

Perhaps 608 is right in her defense in which she says she is not a pedophile, and perhaps she really isn’t interested in 13 year olds, but regardless, she is a groomer, and that is a fact. She manipulated gameguy, a 13 year old, to stay in a relationship with her because of her own goals.

This was the last straw for me, and I cannot facilitate her constant manipulation anymore.

Another argument she made is that it’s not illegal because she is 17 and they were both minors. No. This is a 3.5 year age gap, 608. 13 year olds are not as developed as 17 year olds. Regardless of legality, you should not be doing this.

She also attempted to ask me how I know she is 17. I know you’re 17, 608. You said it before. Evidence is provided in the evidence section.

She also did the same to a person named “Marble”, and convinced gameguy to help her in manipulating him to think she still loves him, despite her disinterest in him. She did this because of Marble’s continuous attempts to force ownership of OTGC to be transferred himself, causing her to lose interest in him.

Regardless of her reasoning for this, this is wrong. She should have told him directly that she was not interested in him. She made it look like gameguy was the one making the arguments by telling gameguy to say the things she wanted to say to him.

The only reason she ended up telling him was because I gave her a time limit to do so (a week) after hearing many people in OTGC seem distraught about it, including gameguy.

Marble ended up finding out beforehand though, and thus ended up not liking OTGC due to that, despite attempts at trying to reconcile with him in a GC. He still did not know gameguy was told to do what he did by 608 until months later.

Marble did many bad actions towards 608/OTGC. I cannot deny that. However, luckily, lately he has listened to my advice to cease the actions that he was doing. He does not defend some of his actions, although other actions he did, like creating documents/videos on her, are completely understandable.

Marble's statement

Ever since me and Carly broke up (in August), she's been doing much more horrible things online, manipulating people into attacking me. I've tried so many ways to avoid her and her friends, they just wouldn't leave me alone, so i had to take actions into my own hands and create chapter one and three. She has easily dodged Chapter 1, but I had to make sure everyone knew about Chapter 2. She has done too many things to the point 2 more chapters (3 and 4) were added as she manipulated a 12 year old girl and tried to get Croissant to back her up, using shitty statements that could probably be not worth it anymore.

So yeah, please, stop being fed with bullshit.

“The Document is FAKE!!”

No. It's not fake. Carly has attempted to get away with her actions for quite a while now. She has easily dodged the first chapter, but there are many more than Chapter 1. Please read the entire document before immediately jumping to conclusions.

Flowerz' statement

I first spoke to Carly in July 2024, at the time I was staff at BitView, and this was when she was saying Bittoco spied on its users on Twitter/X. At first she seemed fine, at this point I hadn't heard about what she had done, I explained we cannot see our user's messages and that Jan was the only person who could view IPs. After I found out what she had done we got into many arguments, and she then claimed that I only DMed her to “advertise Bittoco”. Later in a group chat, she leaked that I was questioning if I was trans. She also leaked many screenshots from this group chat to Twitter.

Carly is a very dangerous person, she has manipulated people, and she is also a known groomer/pedophile. She often leaks her DMs and group chat messages to Twitter, so I advise you don't share anything important with her, ever, I also recommend you don't speak to her at all but, I can't stop you at the end of the day.

A sum up of why I don't like Carly:

Kylarz is 15 as of typing this, how old she was at the time I don't know, meanwhile Carly is 18 as of typing this.

P.S. Uyko admitted publicly that she was dating Carly when Uyko was 15 and Carly was turning 19 in a month: <https://files.catbox.moe/t4qon1.webp>

She's currently gaslighting people to side with her. Everyone in her revivals are on her side. Go to Chapter 6 for more info.

? Frequently Asked Questions

Frequently Asked Questions

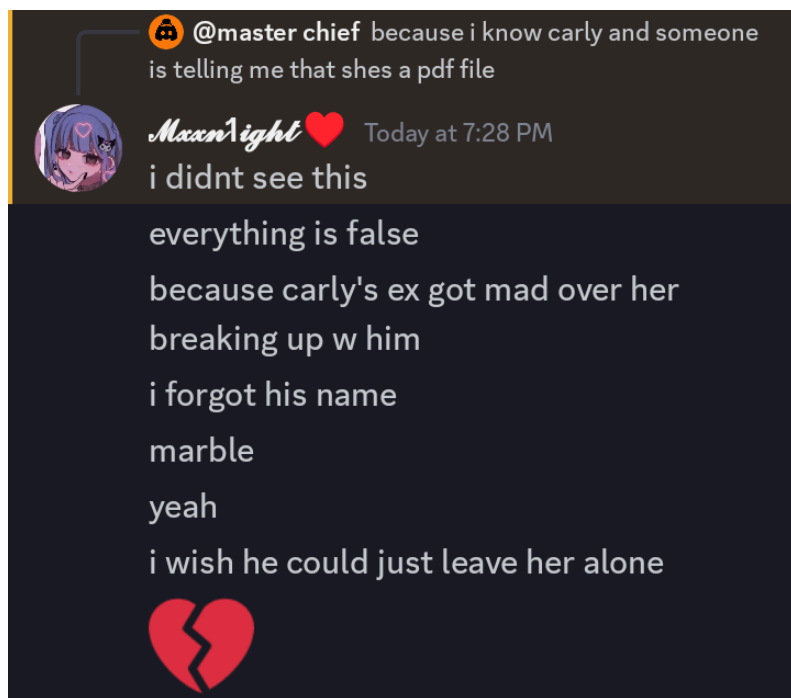

When you question Carly about the document or [the video](#), she has her point of proof of both the document and the video being fake. Well in this section of the document, we will disprove anything Carly has used to try defending herself.

[Carly's AutoMod list](#)

Is this all because Marblyn got mad over Carly breaking up with him?

No. Infact, Carly attacked Marblyn after the breakup, because she apologized and wanted to be friends. Marblyn had refused to forgive Carly for the harsh breakup, and after that, Carly had attacked Marblyn afterwards. [Some of this is explained in Chapter 1.](#)

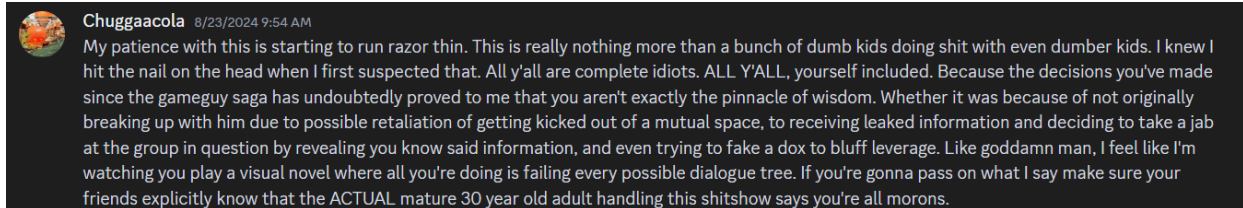

Example Screenshot

From one of Carly's victims, Blair.

Chuggaacola's Message

Carly is mostly known to send the message Chuggaacola sent when someone asks how the document and the video is fake and untrue. The message is below.

Chuggaacola (who also goes by Admiral) was contacted by me in a (second) attempt to get Carly banned off of a website called Whirled Club. He refused to remove her from the site, despite me even showing evidence besides Carly grooming people. This would then lead to me talking about it in the video ([timestamp](#))

This was in response to Carly and Uyko's relationship (because Uyko was born in 2008), and how the gameguy stuff happened when she was a minor. Despite this, Carly is still in a relationship with 1985guyz, kathua, and Blair, who are all born in 2009-2010. I'm not contacting Admiral about this again because **he's not going to remove this malicious predator off of his site**. But let me just tell you this,

Use your own judgment.

When reading the document and watching the video, we do not recommend even ASKING Carly about proof of everything being fake. Let me ask you this, **why would I waste two years making this document? Why would I waste my time making an entire 31 minute video?** Nothing on here is faked. We regularly check to make sure evidence in this document is reliable and if false/out of context evidence on here (intentionally or unintentionally) is added on here, we would usually remove it.

Chapter 1: Start of the Drama

Chapter 1: Start of the drama

Please read Chapter 2 first, this one isn't relevant anymore.

Note that Carly has easily dodged this chapter. I recommend reading the other chapters, since they include more and serious information. Carly successfully manipulated her friends in this chapter being fake. No, it's not fake.

So that being said, read this chapter if you want. The rest of the chapters contain more and serious information.

Alot of people assumed I made this document because she broke up with me. She broke up with me in the most harsh way possible. Again, the rest of the chapters include more urgent information unlike this one.

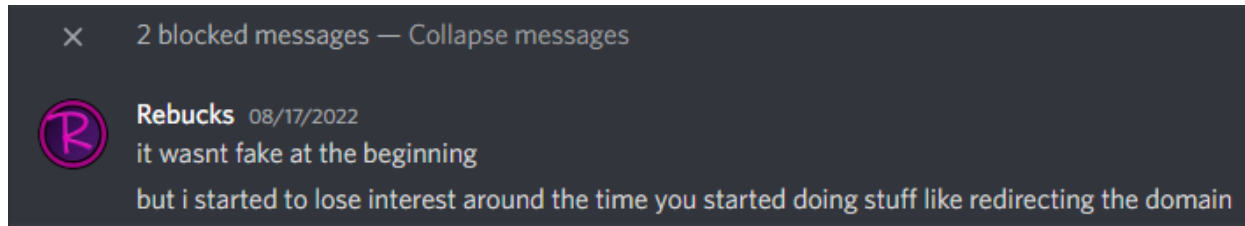

Relationship Issues

Info

Carly randomly started saying things like "Marble is hot" in Revolution Hill, and OffTopicGC a few times. I didn't think she would like me, this was like 3 or 2 months after i was added to OTGC. I was good friends with Carly and everyone else.

In May, i was removed from OTGC for constantly flirting with Carly in the group chat, and for attempting to get gameguy removed several times for power abuse.

In july, i started wrecking the OTGC domain because nexa and gameguy kept trying to communicate with me when i constantly asked them to stop, she said "you're hurting me by doing this". Moments after, she started ghosting my DMs because she was trying to "stay quiet about this".

What caused me to break up you may ask?

So... On August 16th, 2022, GBA and Carly decided to tell me that gameguy, yakova, and nexa was threatening Carly with her house address. But guess what? It was all faked. Days after the drama ended, yakova made some “wiki page” on me, saying that i was being ignorant.

Worldcash makes a groupchat with Carly, Neek, and a few others, to look at the drama in a sort of retrospect, and admit their wrongdoings. Eventually, Neek just entirely leaves like an arrogant asshole, and Neek officially broke up with Carly. An attempt at trying to get Neek to actually be normal and just apologize was just ended abruptly, **not by leaving, but ignorance**. In order to get rid of the old reputation of the website at the time, a planned new website is planned on being made.

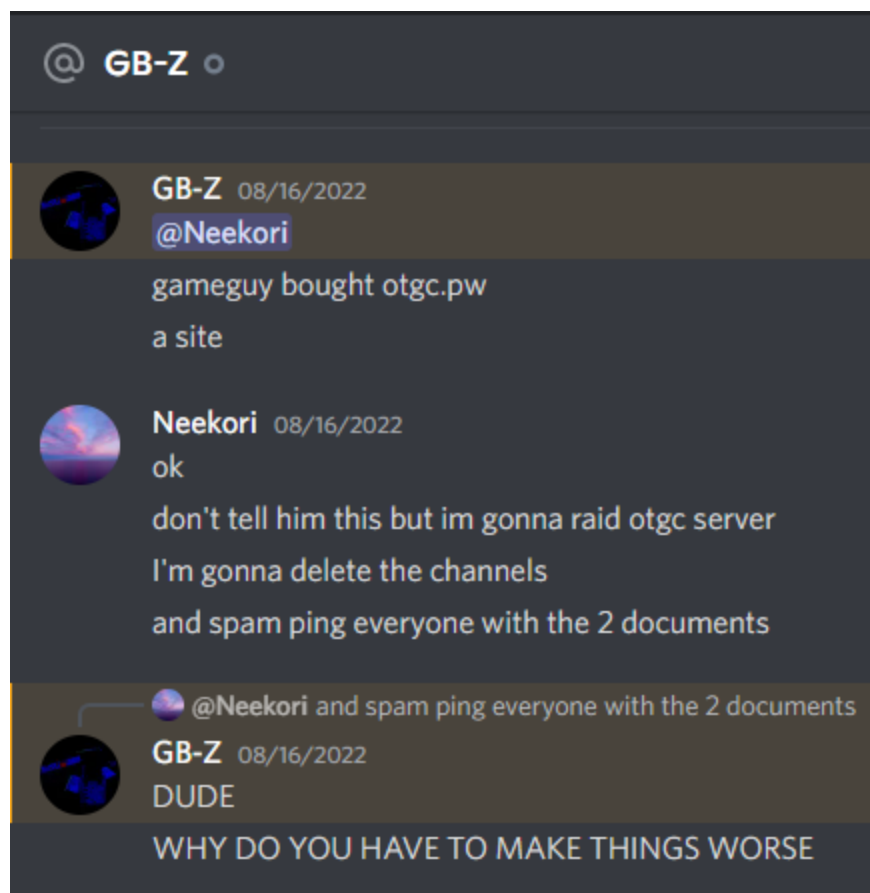

Drama

“Address Threatening”

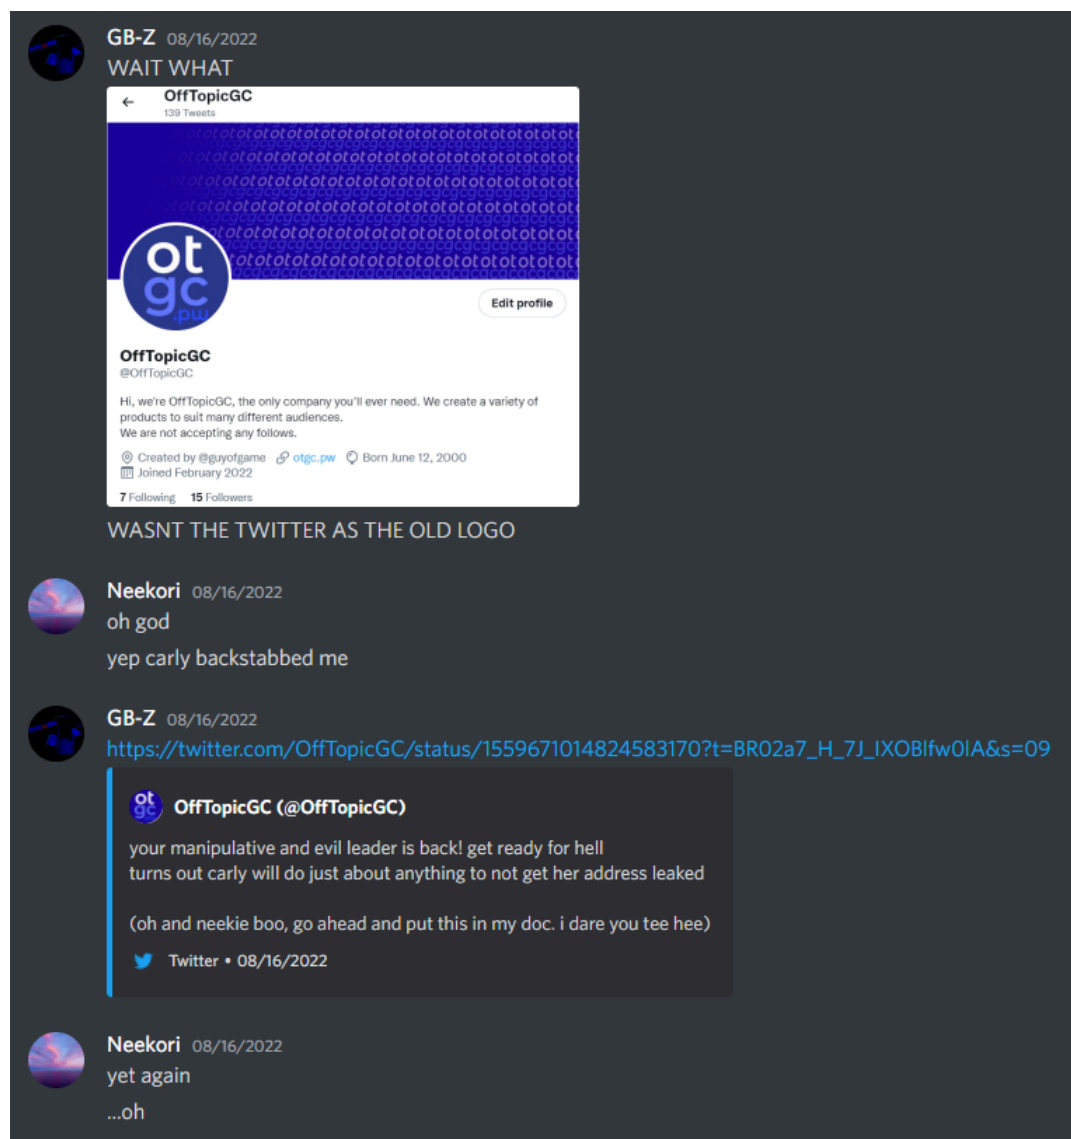

Oh boy. Here we go.

Remember when I said that Carly and GBA lied to me about the “address threatening”? Lemme recap over the drama.

It started when gameguy bought otgc.pw (because i own offtopicgc.pw)

Then moments after, Carly yet again backstabbed me when i trusted her.

Both Frostskeri and gameguy being a bitch (cockadooldo is gameguy):

Oh and what do you know:

Moments later, i was added to a group chat where Frostskeri and Carly tried to be honest with me that the drama was fake. I was so heartbroken that Carly did this to me. She had no right to do this to me.
(i changed my username to “,,,,,,,” because i was really upset about the drama)

After i've seen these messages, i was really upset, and i finally decided to breakup with Carly for doing this to me.

Relephonus decided to invite Carly to the Entity Overflow group chat after i removed her, and she tried her best to apologize to me:

it wasnt fake at the beginning **she was probably cheating on me for gameguy**

but i started to lose interest around the time you started doing stuff like redirecting the domain

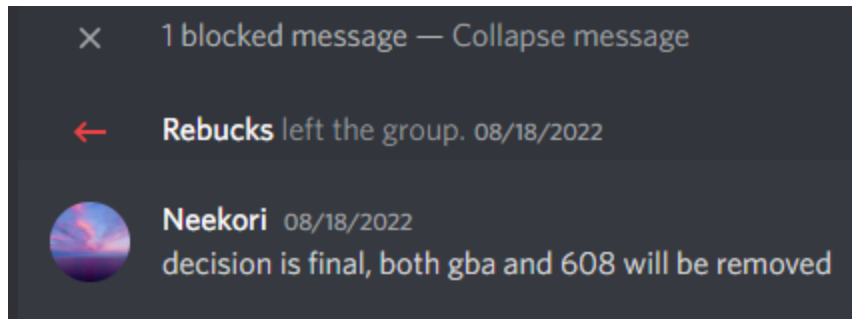

Neekori 08/17/2022

i redirected the domain because gameguy kept evading my blocks on youtube and twitter when i legit informed in the document that i was gonna do it if everyone in otgc kept communicating in my youtube and twitter

A day after, i decided to fire both Carly, GBA, and Alonso from Entity Overflow for what they've done to me (alonso was removed for a different reason, not for the backstabbing)

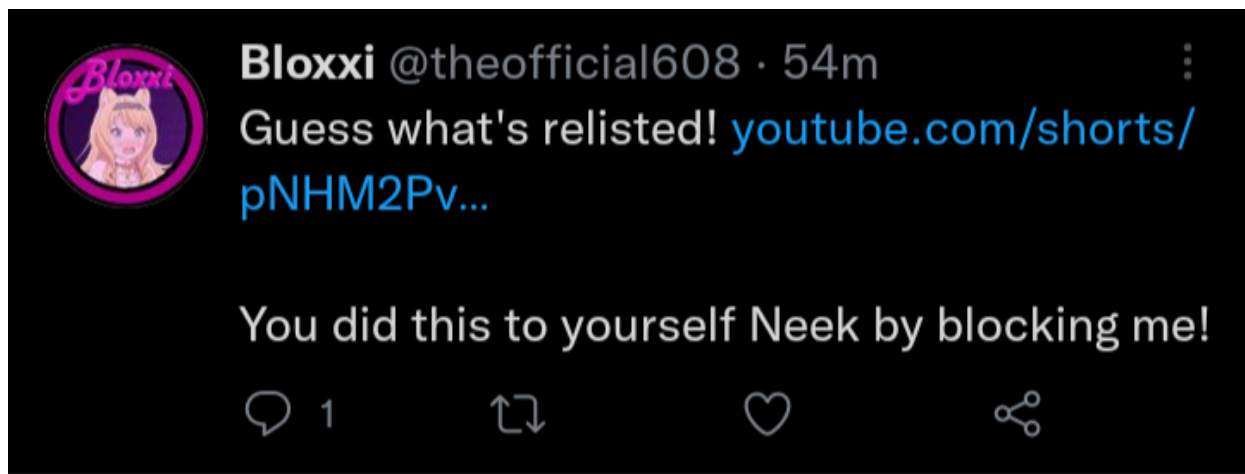

That's where the drama ends. But that's not it though.

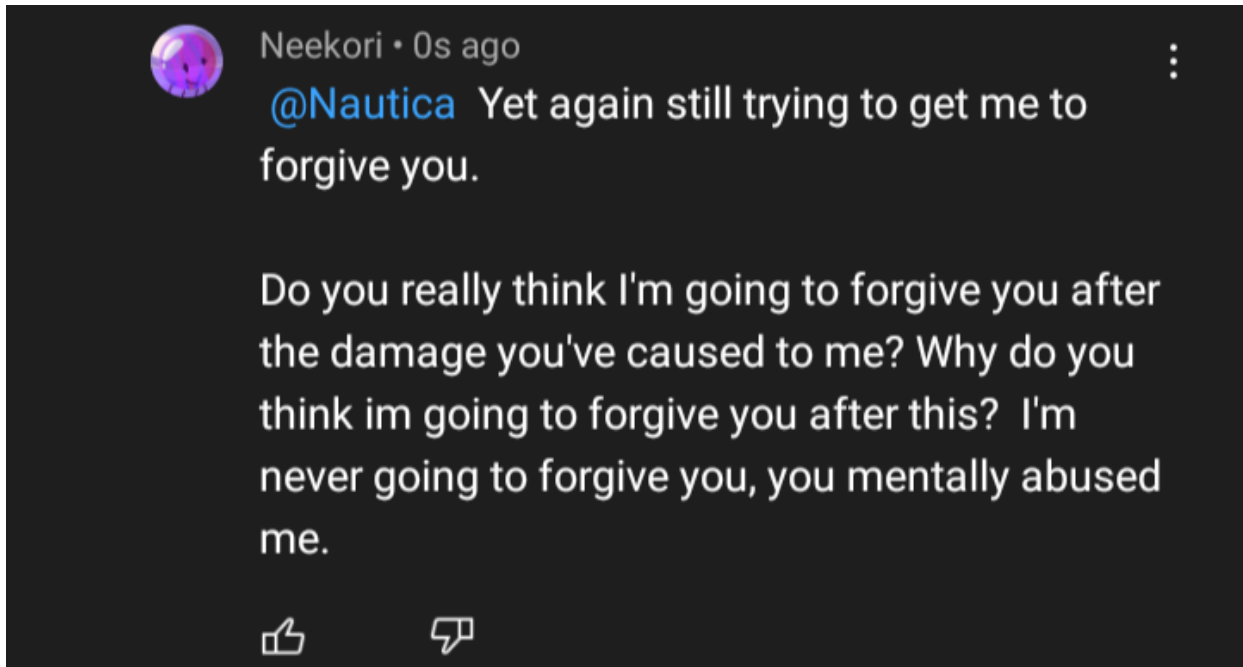

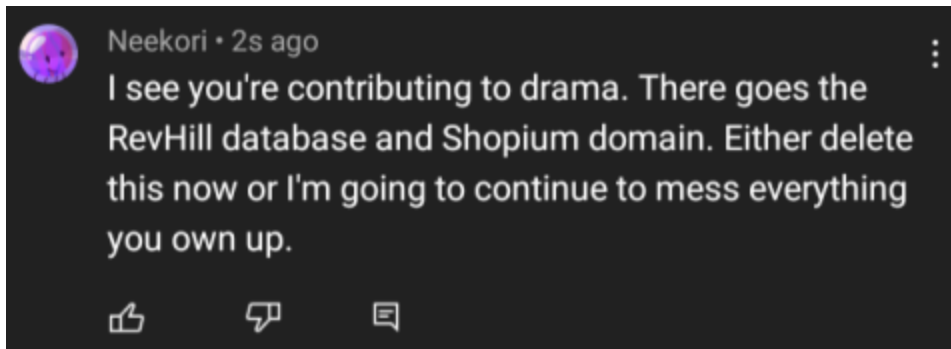

“PLEASE FORGIVE ME!!!”

Carly just won't leave me the fuck alone after the address threatening drama. She has attempted to forgive me too many times, but she KNOWS that im not forgiving her for what she's done to me. Infact, i'm not forgiving anyone. I only forgave GBA because he never hated me. He considered me as a really good friend, and i barely gotten into any drama with him.

She started off by re-listing a video i asked her to take down (because the old roblox community wouldn't leave me alone about the video, i see literally nothing bad about it)

We had an entire argument on her shitty alt on Twitter about this. I don't have the tweets anymore because i pruned my tweets (because of some stupid drama i got into), but i'll give you guys an update if i have them again.

After a little argument in the comments section of the video, Carly privated the video. Knowing her, she's gonna do something else in the future. This drama isn't done yet.

After gameguy and Carly broke up

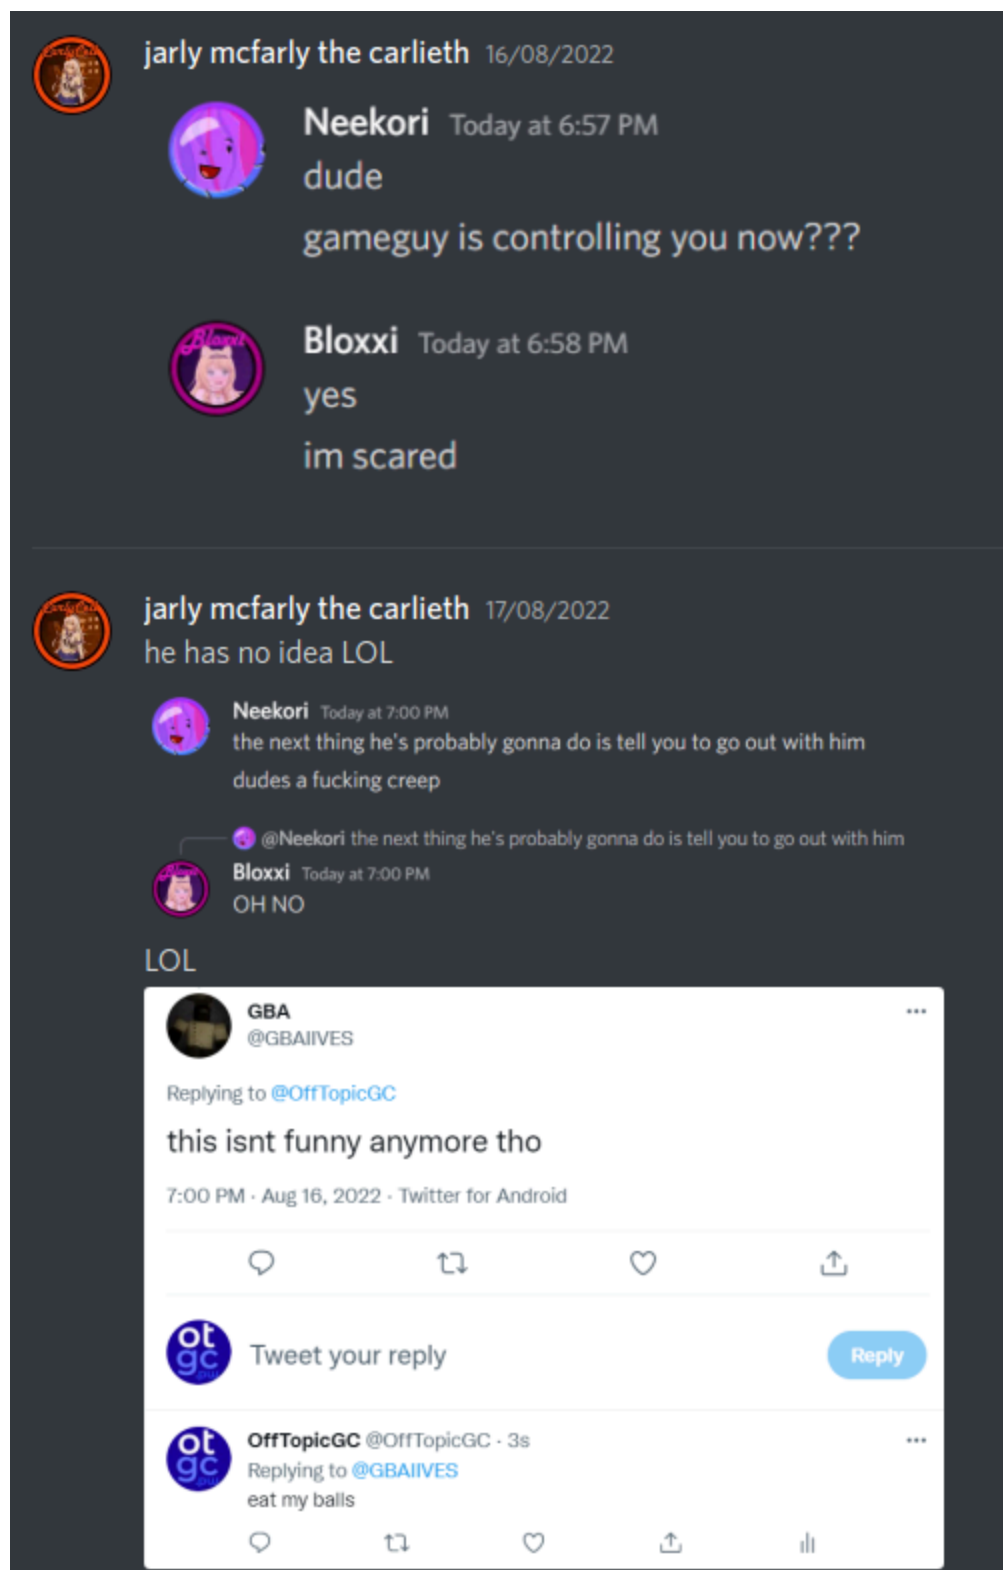

A statement from gameguy:

Hi guys, gameguy here to write about how Carly made me protect her honor by taking blame for multiple things like tricking bekzii and croissant into thinking that I was the one to own the OffTopicGC discord account, she had me fake multiple screenshots of her accusing me of owning the account all while i was blissfully unaware of what i was doing, the OffTopicGC account was previously used for (if i remember what she said correctly) pretending to be a doxxer called diparonasui. Obviously this may NOT be all

correct but is all that i can recall due to it being rather a long time ago. She also was able to PERFECTLY impersonate me on the otgc twitter. Right here.

This was ALSO carly, no input from me to do this because i was asleep when these messages were sent

Chapter 2: Pedophilia & Grooming

Chapter 2: Pedophilia & Grooming

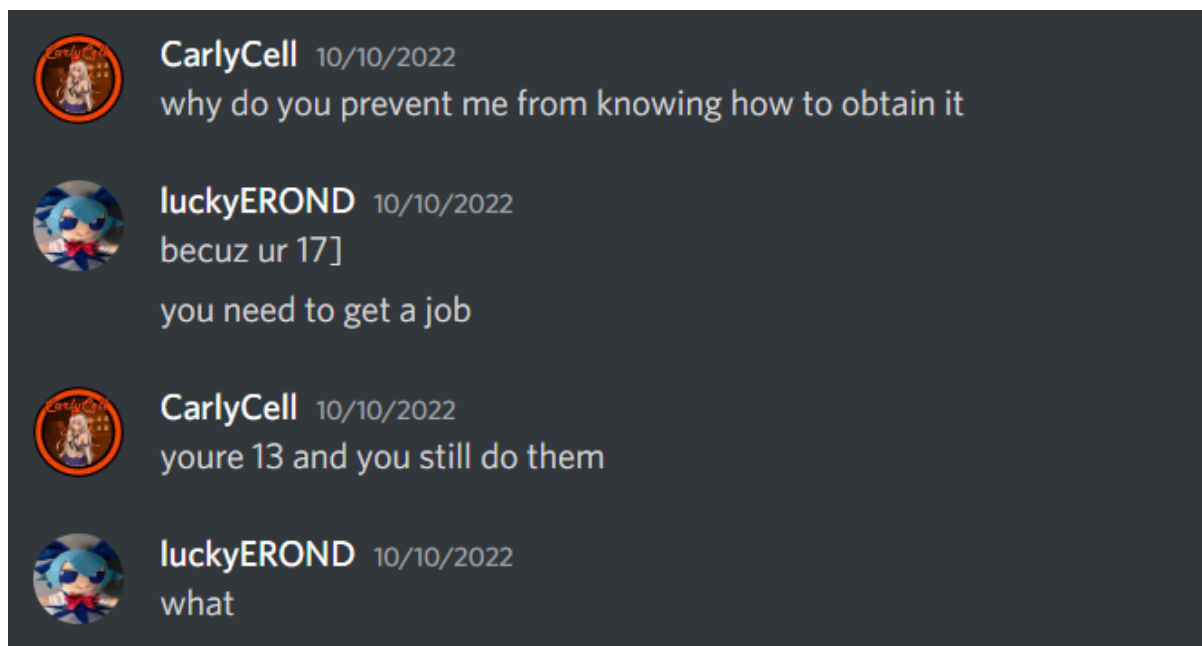

Carly has had a history of grooming children, starting when she was 17 years old. She is an adult, and is still grooming people.

Victims in this chapter

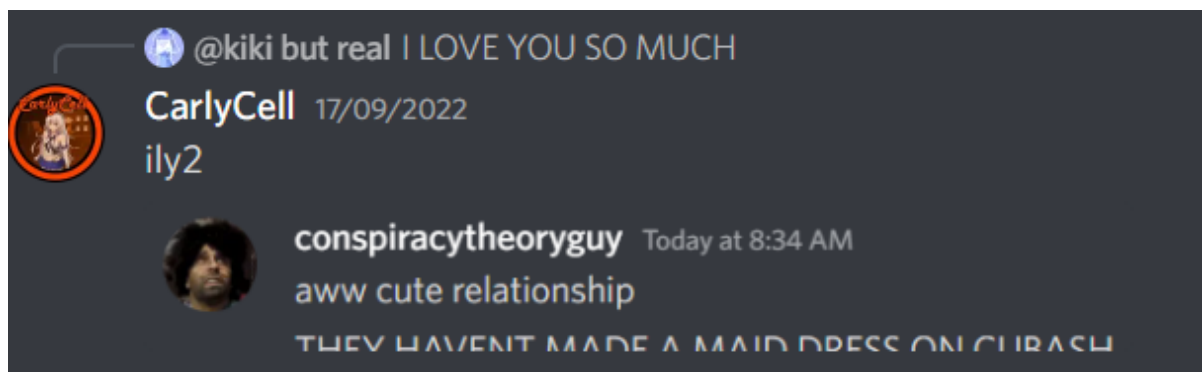

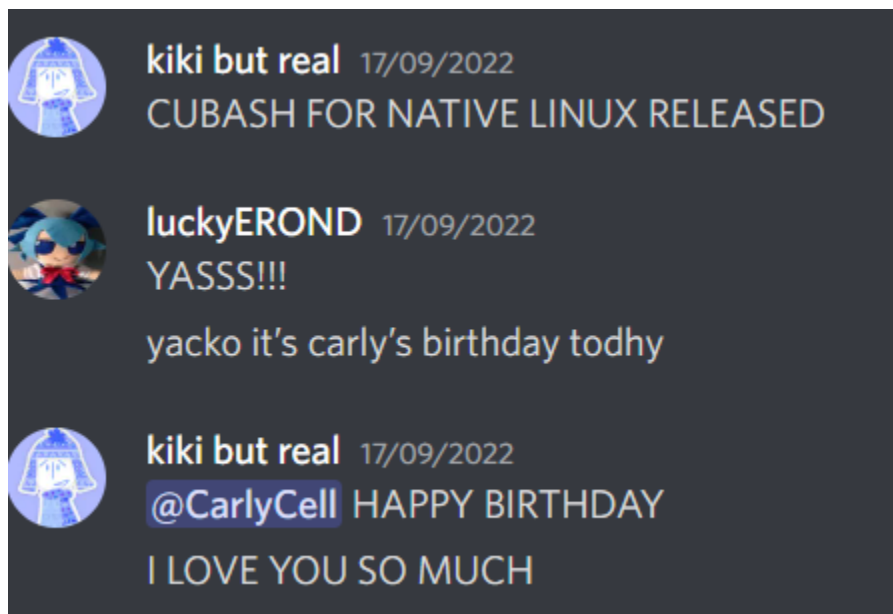

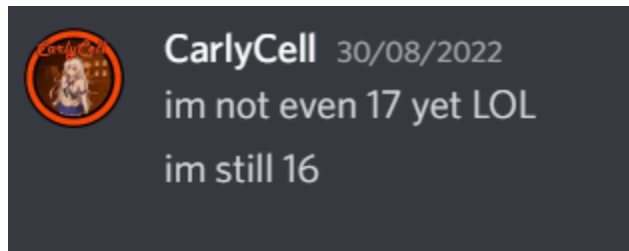

- [gameguy](#) (13)
- [Uyko/rec01n](#) (14-15)
- [Alonso](#) (15)
- [Vershion/verzhine](#) (14)
- [1985guyz/kartuh](#) (14)

Proof of her age

As of September 17, 2023, she is now eighteen years old, and is still a pedophile. Information below.

She did not deny “becuz ur 17]”. This was one day before the breakup. (The breakup happened on 11/10/2022.)

Above is proof that she turned 17 on 17/09/2022.

Victim 1: gameguy (13)

The point in which she knew gameguy's age

luckyEROND 17/08/2022
you **wouldnt** break up with me if i was 13 ?

jarly mcfarly the carlieth 17/08/2022

jarly mcfarly the carlieth 17/08/2022

luckyEROND 17/08/2022
so im assuming you can guess my age now

jarly mcfarly the carlieth 17/08/2022
yea
i think 13

luckyEROND 17/08/2022

She said “i wouldn’t”. This one is obvious. She was 16 during this exchange. However, they continued dating until 11/10/2022. She turned 17 within that timeframe, and yet still continued to date him. According to 608 when I confronted her, she did not like him anymore after he admitted this.

Whether you wish to believe her is up to you, but either way you look at it, it is either that she is a pedophile if she did like him, or that she is a groomer if she did not like him, due to the fact she kept dating him regardless and manipulated him into staying in the relationship.

The Breakup

jarly mcfarly the carlieth 11/10/2022
dont talk about it publicly
this should be a private conversation

luckyEROND 11/10/2022

luckyEROND 11/10/2022
yeah happily!

jarly mcfarly the carlieth 11/10/2022
yay
ok now we just need to get zauce back

Above is the breakup with gameguy that I mentioned before. It happened on 11/10/2022, almost a month after she turned 17.

Gameguy note:

“almost a month after she turned 17” i planned to break up on her birthday but that seemed really cruel so uh yeah

The Confrontation

The dating was known very well in OTGC. Some people thought it was a joke, others did not. However, no one at the time realized that gameguy was 13. Most of them thought he was 15/17, except 608, who knew that he was 13 on 17/8/2022.

Then gameguy told me his age, and Official B confirmed it as a witness to his birth certificate. As a person, I should have done something about it at this point, as I knew 608 was 17, but I stayed silent. I didn't want to cause drama.

On the day of 12/10/2022, 1 day after the breakup, gameguy talked to Marble about it. Marble was obviously disgusted, as he thought gameguy was 15 beforehand. Seeing him disgusted made me wake up to the issue at hand, realizing that allowing 608 to get away with this is not an option. 608 does not show any actions that display remorse. She did not tell gameguy in any way “I'm sorry for dating you” (Update: She said it after this document was released, read “Response to 608's Response” for more information).

I decided it was time to confront 608 about this. Or well, Marble did, after hearing my reluctance to talk about it publicly. Marble told us he had a GC with her in it still in his DM history, and thus invited me and gameguy to it.

608 did not talk in that GC at all. Instead, she jumped straight into my DMs, asking me what she did. This is the DM history taken from that talk.

Message @CarlyCell

This is the confrontation in full. I grew very angry and tired of the things she was saying.

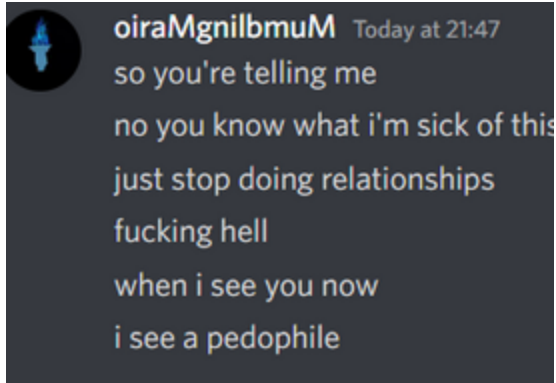

She was using gameguy for other things beforehand, those things I barely knew anything about until now. Even after this conversation, she did not use the opportunity the GC gave her to apologise to gameguy. She did not talk in that GC whatsoever.

Statement regarding the use of the word “pedophile”

People have criticised my use of the word “pedophile” to describe her in this confrontation due to her age being 17, so I will make a statement about it.

For context, here are the times I have used this wording to describe her.

This was my personal opinion of her at the time. I knew that a 17 year old is not as developed as a 13 year old, and that a 17 year old is almost a grown adult, compared to a 13 year old, who is someone who has just become a teenager and has not reached puberty, so I was disappointed and angry. I saw her as a pedophile because of this.

As a 17 year old, she should have known better. Of course, legally, she is in fact not a pedophile due to her age, but that does not excuse her behaviour whatsoever. She is still a groomer, regardless of how you look at it.

Whether you wish to believe she is a pedophile or not is up to whether or not you wish to take into account the legal implication of pedophile, or the dictionary definition of pedophile.

paedophilia

/ˌpiːdə(ʊ)ˈfɪliə/

noun

noun: **pedophilia**

sexual feelings directed towards children.

The dictionary definition.

pedophilia

n. an obsession with children as sex objects. Overt acts, including taking sexually explicit photographs, molesting children and exposing one's genitalia to children, are all crimes. The problem with these crimes is that pedophilia is also treated as a mental illness, and the pedophile is often released only to repeat the crimes or escalate the activity to the level of murder.

The definition on law.com. (<https://dictionary.law.com/Default.aspx?selected=1486>)

End of statement.

608's behavior regarding the evidence

There are many cases of which 608 is outright lying to people in order to convince them that she is not a groomer. She hides evidence, puts evidence out of context, etc.

What people think of her actions is up to them. Showing them the full evidence is required to get their true opinion on the matter, and to properly defend yourself.

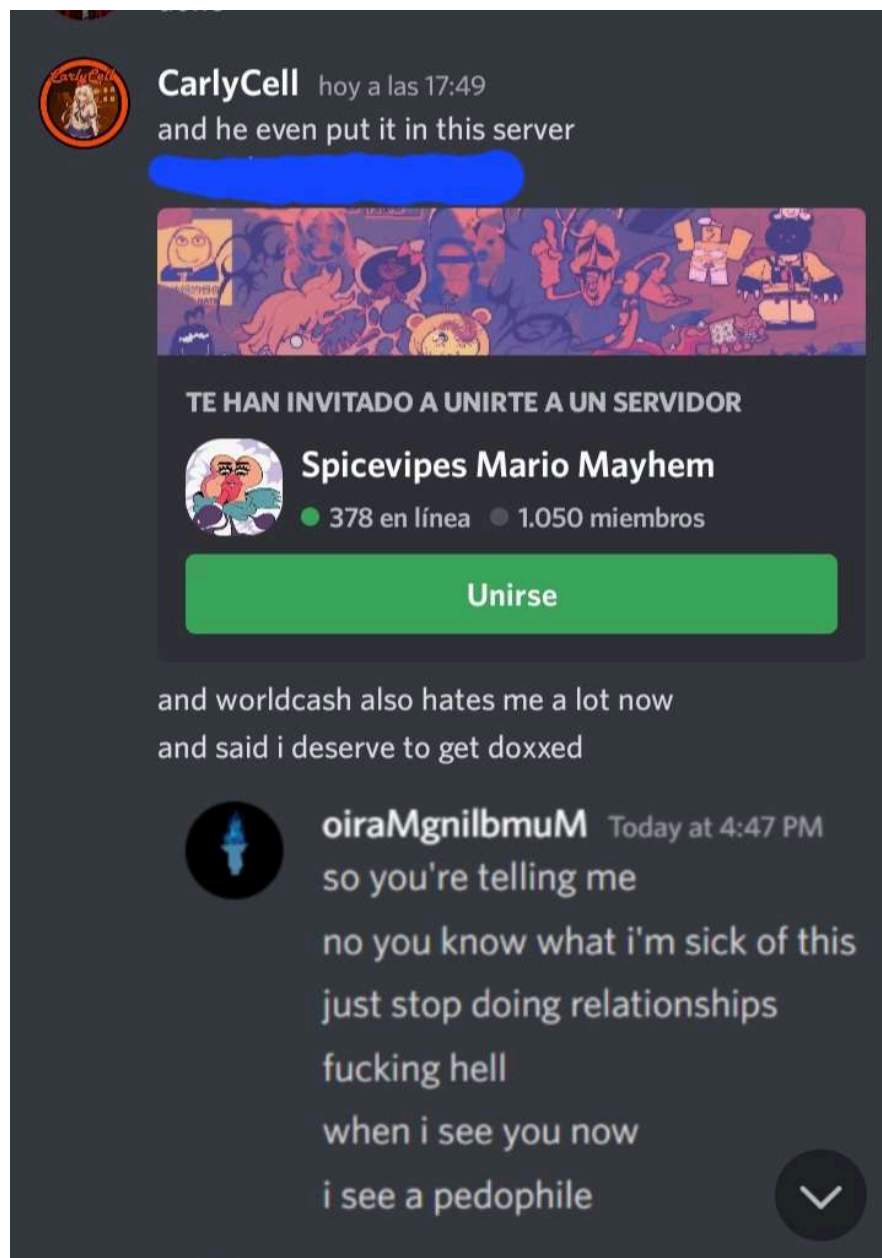

She knows what she's doing.

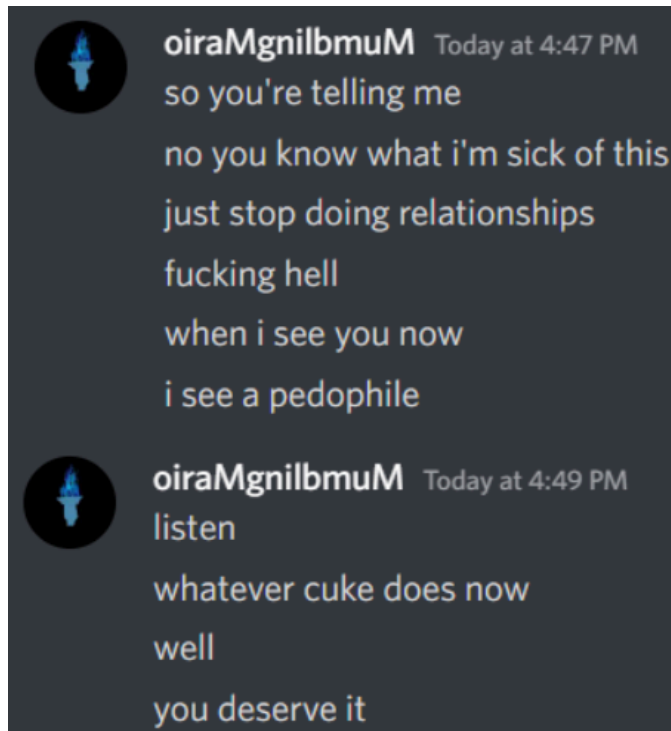

None of your points deny the fact you dated gameguy while 17 and knowing his age for a whole month. I do listen to your arguments, as seen throughout this document, however none of what you said disproves that key fact. Staying silent on this is not an option, as you have demonstrated that you are good at manipulating those around you. If this was kept silent/private, you would simply get away with it.

I understand that there is the possibility that you are not a pedophile (Update: Check “Evidence against 608’s Counter Argument” for more information), but there is no doubt in my mind that you are a groomer, as you manipulated gameguy.

Another activity that 608 seems to do is manipulating people into thinking I want her doxxed. This is one of the reasons I’m making this document in the first place. In order to set things straight, and to avoid the deliberate confusion that she is giving to everyone. I was hoping leaving it to Marble’s response would do, but I now realize I need to compile all of the evidence in order to explain things more efficiently.

Full image that wafkee got sent.

She told this to wafkee. I do not hate 608, I am only disappointed. I am disgusted in her actions. As you saw in the confrontation DMs, I do not wish for her to get doxxed. I said the opposite of that, and 608 took it out of context on purpose.

This image is two out of context images spliced together, by the way.

Accidental False Evidence

There is a piece of false evidence which got out of hand from people who I showed the evidence to, which is another reason why I wanted to make this document.

As you can see, this was a joke post. Sadly, it was accidentally sent once in public by Marble, but it was immediately deleted after I told Marble it was false information.

I don't believe anyone saw it other than 608, and I don't believe anyone saved it either. All you need to know is that if you see that screenshot, it's out of context.

What 608 had Gameguy to do

Evidence against 608's counter argument

This was after she knew his age. She could have declined, but she consented to it. If she truly was disinterested in gameguy after he told her his age, she would have declined.

I disagree with what Official B requested their permission to do, but as he is 15 I cannot call it pedophilia. Official B did not know his age at the time.

Gameguy note: This may sound like a shitty excuse but I wasn't in the right mind back then, I have changed for the better.

608's official removal from OTGC

608 has recently been removed from OTGC. It happened on 14/10/2022. Here is the conversation that happened on that day.

 **CarlyCell** Yesterday at 23:28
im not stressed because of otgc itself
im stressed over *this*

More below

School is gay lmao

Ever since the original drama with neek began I've been stressed out at school. All i could think about was whatever neek was doing or worrying about what he had planned. Even today in school I was tired and worried about these people I've talked to and known for a year turning against me and calling me a pedo.

I can barely even maintain good grades because all I can do is worry about this drama.

I just want it over

I want it to go back to how it was right before the neek drama started. All of us being friends, working on projects together, and nobody hates each other.

Now I can't hear the house phone ring without panicking thinking it's neek here to harass me.

She said in her document that she could “barely maintain good grades” because all she can do is worry about this. However, she clearly seems to contradict this by saying she does in fact focus on school and has at least a 70 in each class right now.

I don't think that's barely maintaining good grades, 608. You have at least a 70 in each of your classes, and you focus on school according to yourself. If you were barely maintaining good grades, you'd be at the 60 mark, and if all you could think about was this, you would not be able to focus on school.

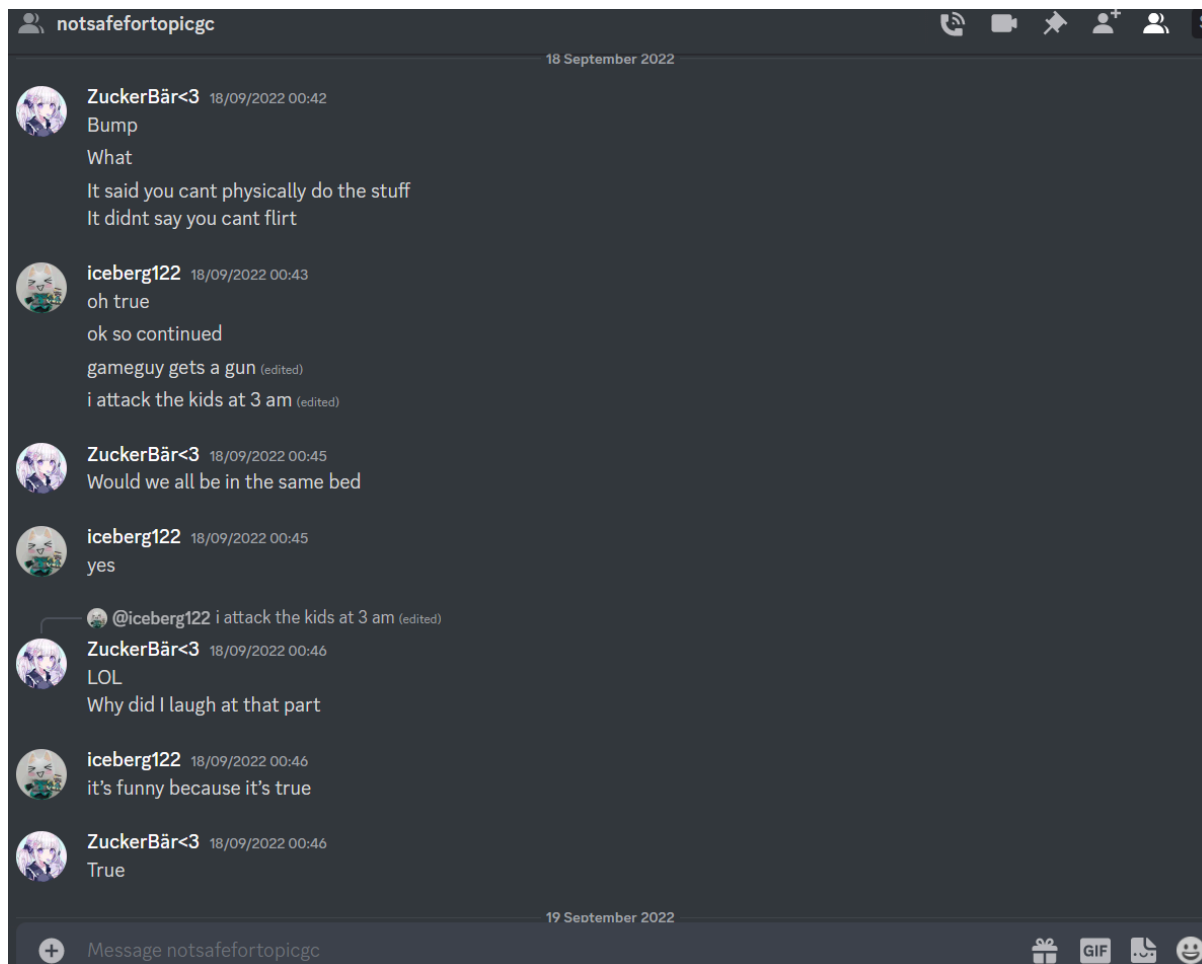

Which answer is it, 608? I don't get it.

Sources

1. gameguy - Information about what 608 told him to do, gameguy & 608 DM screenshots
2. wafkee - Information about the misinformation 608 is spreading
3. 608/Carly - Her counter argument, telling me that Marble accidentally sent misinformation
4. OTGC Chat Logs - Proof that she is 17

Sexual Activity with gameguy

Finally, after a while we have screenshots of Carly getting too close to gameguy.

gameguy (13) (MIOFAN in the photo) since edited his messages, but as you can see, 608 (17) (Nepgear in the photo) is seen messaging gameguy “Would we all be in the same bed”.

I won’t say what was originally said before gameguy edited the messages, since he wanted it to be private, but it was something sexual.

Context

You may notice the top part of the above image:

“It said you can’t physically do the stuff”

“It didn’t say you can’t flirt”

There's a reason she said this. That reason is below.

Below is an excerpt from OTGC. It was happening at the same time as the above image.

In common law jurisdictions, statutory rape is nonforcible sexual activity in which one of the individuals is below the age of consent (the age required to legally consent to the behavior). gameguy edited these messages from sexual messages to normal messages in the above image due to his embarrassment about what he said. The point is what 608 said, so please focus on that. People's reactions to what he said should give you an indicator of what he said anyway.

Another thing that proves that gameguy said something other than the edited messages was the fact gameguy did not go to sleep at this time. Some people stay awake on Discord, yes, but 608 would say something like "good night" instead of "Why did I laugh at this part" if he really said that.

This is the wrong gc for this

Highlight below.

In between the messages directly above this piece of text, they moved from OTGC to “notsafefortopicgc” (OTGC NSFW GC) to talk.

With this context, we can understand clearly what she meant by the below quote from before.

“It said you can’t physically do the stuff”

“It didn’t say you can’t flirt”

(Message ID:

<https://discord.com/channels/@me/1010259682457301023/1020842498400194621>)

She meant that in the Wikipedia article Temporalist sent, it didn’t say anything about not being able to flirt with gameguy, and due to it all being related to only physical stuff, she was fine.

However, this isn’t true. Flirting sexually with a 13 year old as a 17 year old is illegal. According to various sources, 608 lives in South Carolina, and in that state’s law, it is clearly emphasised that 13 year olds cannot be sexual with 17 year olds.

The reason is because the age of consent is 16, and Romeo and Juliet laws go to at least 14 in South Carolina.

Due to gameguy being 13 at the time, that means that when 608 turned 17, she was illegally dating him.

Sources for South Carolina law that I took from:

<https://www.criminaldefenselawyer.com/resources/south-carolina-statutory-rape-laws.htm>

Third-Degree Criminal Sexual Conduct With a Minor

Third-degree penalties apply when a defendant who is 14 years old or older commits or attempts to commit lewd acts on a minor younger than 16 years. A lewd act includes sexual contact meant to arouse or gratify the parties' sexual desires. This felony is punishable by up to 15 years in prison.

When the parties are close in age—the victim is 14 or older and the defendant is 18 or younger—the penalties in this section don't apply. (More on "Romeo and Juliet" laws below.)

Close-in-Age Exceptions for Teens ("Romeo & Juliet" Law)

Named after Shakespeare's young lovers, "Romeo and Juliet" exceptions are intended to prevent serious criminal charges against teenagers who engage in consensual sex with others close to their own age. In South Carolina, consensual sex between a minor who is 14 or older and a defendant who is 18 years old or younger is not considered a crime. For example, a 15-year-old who engages in consensual sex with a 17-year-old cannot be charged with statutory rape.

<https://gbslawfirm.com/does-sc-have-a-romeo-law/>

What is the Age of Consent in SC?

The age of consent in SC is 16.

Although SC law does not say, "you can have sex with someone once they turn 16," it is a crime to have sex with a child younger than 16 years old; therefore, the age of consent is 16.

But – *if you are 18 or younger*, and your boyfriend or girlfriend is 14 or older, the age of consent is technically 14 because of SC's Romeo law.

This means that 608's dating of gameguy, for at least one month, was illegal in her state.

Victim 2: Uyko/rec01n (14-15)

As this part is being written, Carly is **eighteen** years old, about to turn **nineteen** in the coming months.

Carly has seemed to not learn her lesson on being a complete creep to people twice her age. If you have seen the beginning of the document, it has been in the making since September 2022, and is **STILL** being updated to this day.

Update from kcielz (mangloid): Uyko after the whole situation and in-between the situation and the current one, Uyko was dating kit (sadert). During the time, he found out that Carly was grooming her **YET AGAIN** and decided to break up with Uyko. And at that time, Uyko said "I'd rather date an 18 year old than be with someone who doesn't like carly". This just shows that it's serious and Carly will attack anyone that attempts to say that she is grooming Uyko. As of now, me and kit are dating.

Carly hasn't learned anything at all.

Confessing to soliciting photos from the minor

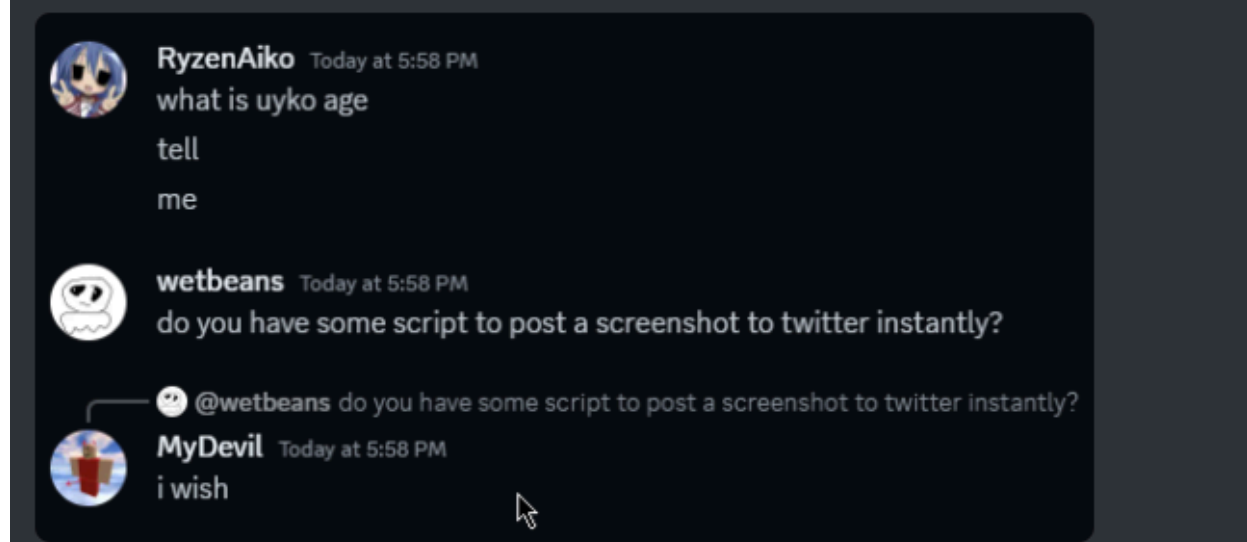

Carly's friends realize she's dating a minor

Carly in these screenshots are seen to be silencing her friends whenever they mention anything about the age difference between her (18) and Uyko (14).

- her girlfriend (uyko/rec01n) is 14, which is not the age of consent or adult age
- she has been "replacing" her old friends with new ones (gameguy has become 1985guyz)
- she still wont answer

- every time we say that shes dating a minor she gets her friends to kick us out of the group chat
- shes now trying to manipulate me and saying im "needy"

Carly lying about Uyko's age

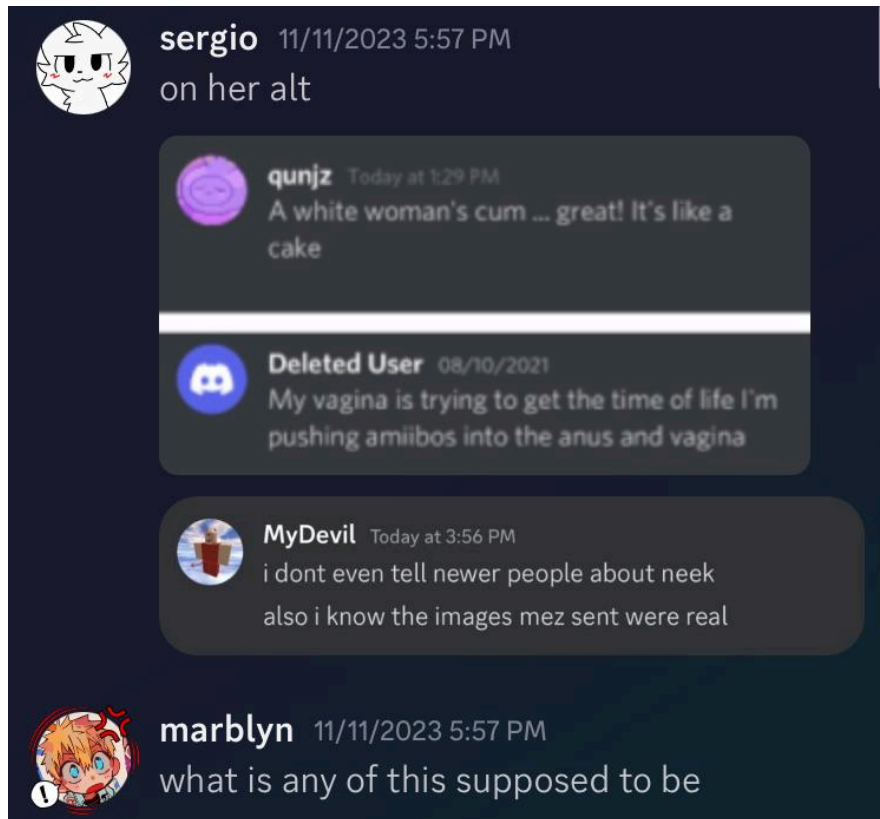

Back when GBA and Mezstra told me that Carly was dating Uyko, I asked Sergio to send something to Carly but we ended up using Sergio as a bridge to talk to eachother.

- Neek
 - Username: @marblyn (Note: This account may be abandoned)
 - User ID: 464195127410425867
 - Notable Things
 - Was once one of the highest threats. Doxxes, leaks stuff, etc.
 - Defends pedophilia and other illegal activities if his friends are the ones doing it.
 - Has groomed a kid himself
 - Changes his alias a lot, hates when you call him CUKESIM because he did lots of bad stuff under that alias and thinks everyone can just forget them
 - Knowingly secretly dated a pedophile, only turned against them when they realized Neek was a manipulator, to which he made a doc about them.

You either stop telling people about me, move on, or I'll begin reporting servers owned by you, Carly.

I've grown fucking tired of you and the ORC constantly involving me in stupid shit. I've moved on from you months ago, and perhaps you should too. You're eighteen now, and you're calling ME a groomer when you were misinformed by Mezstra when he was on your side, while you are dating a FOURTEEN YEAR OLD.

YOU'RE FUCKING **EIGHTEEN.** GET A FUCKING LIFE. GET A FUCKING JOB. PLEASE. LEAVE ME ALONE. I DON'T FUCKING WANT ANY OF YOUR BULLSHIT ANYMORE, AND I DON'T WANT ANYTHING WITH THE ORC ANYMORE. FUCK OFF.

I questioned Uyko's age and Carly said she is 16 instead of 14, and Uyko was 14 at the time.

1. shes 16 and this has already been proven
2. why isnt anyone saying anything about it? because it was debunked by not only me, but other orc members too
3. i never even joined kapish, i was in tadah only
4. and why has nobody disputed the gameguy shabang? because it provided significant proof for everything and they finally realized
5. also, i thought we werent going to look at each other's twitters anymore, but clearly you broke that

marblyn 11/11/2023 6:39 PM

i don't believe the 16 year old part, why do you think im retarded?

- every time we say that shes dating a mino
- shes now trying to manipulate me and say

MyDevil Today at 6:00 PM
17 and 18 is bad now too
and 18 and 16
and 18 and 15
wow

kitproj Today at 6:00 PM
uyko is not 17 (edited)

MyDevil Today at 6:00 PM
read the entire message major dumbass

kitproj Today at 6:00 PM
uyko is not 16
uyko is not fucking 15
UYKO IS 14

MyDevil Today at 6:01 PM
uyko will be 15
soon

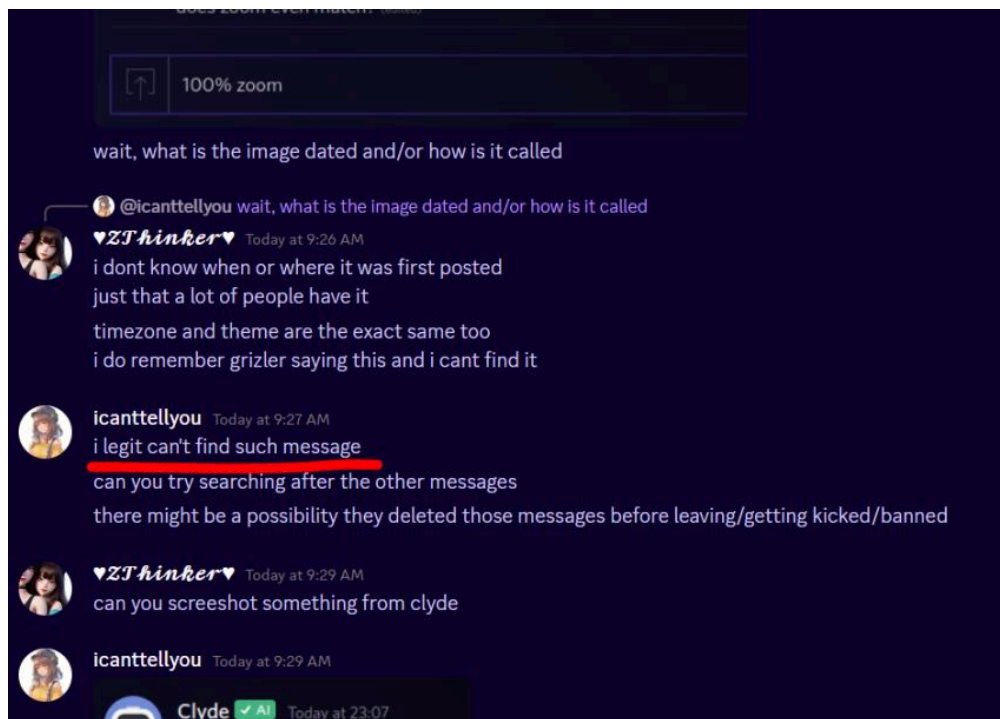

all of the screenshots of you about uyko/
reco1n are in the document, fyi.

1. the person who made the 14 screenshot literally owned up to making it as a joke and sending it without context in a server called squarebracket, dedicated to stealing my video site

icanttellyou Today at 9:40 AM
ah i sent it to kylarz
fuck
there was no context

2. notice how the only parts that say uyko is "14" are solid black (faked) meanwhile in the gc export and everywhere else ive never said such
3. uyko herself said shes 16
4. expit confessed to faking the "im gonna send feet pics to uyko" thing and revealed that crystallized was impersonating me, let me find the image
5. the "i want to spoil uyko" literally makes no sense, its a fucking word with no nsfw connotation

6. the "gc context" is only there to make the document look longer, as it provides no useful information

Responding to everything she said (the second list of things she stated)

1. I highly doubt that. You probably manipulated the person who sent the screenshot or is still lying.
2. Yeah “solid black” probably means it was deleted. You deleted messages.
3. No she didn’t.
4. I’m guessing “expit” is fin. I was told that you hired someone to get fin’s dox too, so you DEFINITELY forced fin to say that.
5. You know what you meant by that.
6. ??????

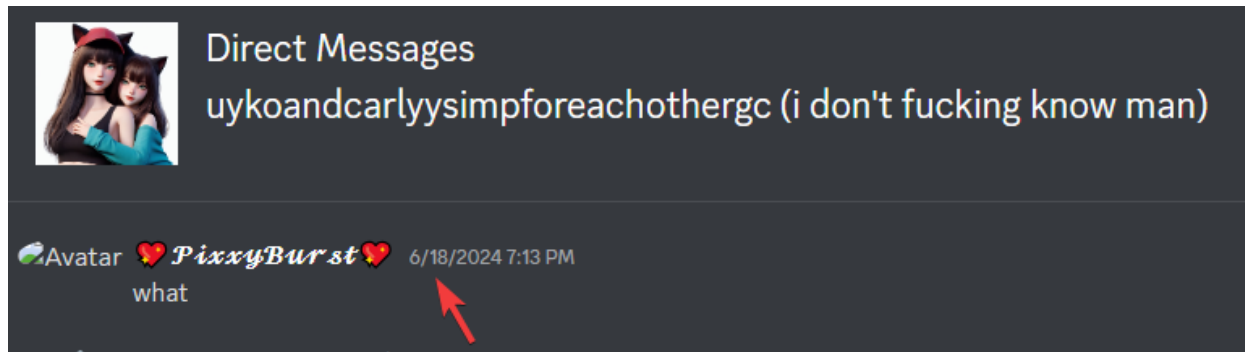

6/12/2024: She is dating Uyko again.

Update: She isn’t anymore.

I am losing my patience at this point. Despite this document being updated since September 2022, Carly has not learned her lesson. She is a pedophile.

Screenshots below were sent to me. These are also exported group chats. also exported group chats.

Proof they are in a relationship again.

Carly Admits

On August 16, 2024, Carly admitted on screen recording to flowerz that she was dating “Nulvarz”, which is an alternate username of Uyko. The video can be watched here:

<https://flowerz.lol/608.mp4>

Victim 3: Alonso (15) (1/14/2023)

Note that this subsection was from over a year ago. It was included in this document but Alonso told me to remove it as he didn’t want to be involved with this document. He has recently asked me to bring it back.

On 1/14/2023, Alonso decided to ask Carly out, even though he’s 14 years old, and Carly is 17. She legit **accepted** the relationship, literally fell for it.

Alonso Today at 3:35 PM

it is very important

i've

i don't how to say this but....

i think i have feelings for you..

i hope this doesn't turn you away from me.. i've been thinking about us being together for so long.... i just can't help it.

Nepgear Today at 4:42 PM

yes

Alonso Today at 4:45 PM

do you feel the same connection as i do to you?

Nepgear Today at 4:45 PM

yes

Alonso Today at 4:45 PM

are you sure?

i don't want to be backstabbed (edited)

so i just wanna know :(

Nepgear Today at 4:46 PM

i saw what you deleted

Alonso Today at 4:46 PM

i decided to word it better tho

Nepgear Today at 4:46 PM

oh

Alonso Today at 4:46 PM

cuz i actually do have feelings for you

Alonso Today at 4:46 PM

i decided to word it better tho

Nepgear Today at 4:46 PM

oh

Alonso Today at 4:46 PM

cuz i actually do have feelings for you
but i don't want anything bad to happen :(

Nepgear Today at 4:46 PM

im sure

Alonso Today at 4:47 PM

oh really?

4:47 PM

you are sure of yourself?

Nepgear Today at 4:47 PM

yes

This proves that Carly would legit date anyone so she could take advantage of people who are interested in her and such, including people that are much younger than her, and whenever something bad happens, she will try to escape her way out of it, and manipulate her friends to carry her reputation and convince everyone that she isn't a bad person.

Carly, if you're reading this, you can't escape now. You just got trapped, and there's no going back. I'm going to file a cybertip report on you and additionally call the police if I catch you attempting to manipulate people to carry your reputation again.

During that, BLU and worldcash was very concerned, and was afraid of Alonso being groomed, so while Alonso was on an Anydesk with BLU, while Alonso was offline, BLU

went on Alonso's Anydesk and tried to tell Carly that the relationship is over, just to be sure he wasn't trying to get groomed purposefully so evidence isn't collected.

Alonso Today at 6:02 PM
that message didn't even go through
blu disabled all my inputs from anydesk

Neek  Today at 6:02 PM
what

Alonso Today at 6:02 PM
so i had to restart my laptop
but the message NEVER WENT THRU

Neek  Today at 6:03 PM
what message
wait
so when he told carly its over
the message didn't go through?

Alonso Today at 6:03 PM
i immediately suspended my pc
but when i woke it
it wasn't responding

Neek  Today at 6:03 PM
oh

Alonso Today at 6:03 PM
blu had disabled my mouse, keyboard and wacom tablet inputs

Neek  Today at 6:04 PM
oh

Alonso Today at 6:04 PM
so i had to hold the power button, and shut off my computer

On 1/16/2023, Alonso realized that the entire plan was a horrible idea, and confronted me in voice chat that I (Neek) was encouraging him to bait date her just to prove to the world Carly is a liar. I do apologize for this. All i was trying to do was just trying to convince everyone that Carly is a horrible person.

Victim 4: 1985guyz/kartuh (14)

This section is currently a draft as the relationship had just started. I have been contacted by multiple people in a group chat with Carly about her starting a relationship with kartuh, a 14 year old girl.

All I have is this screenshot. I was asked to not share anymore screenshots from that group chat to make sure nothing gets traced back to anyone.

Kartuh is also following Carly's private Twitter account, despite the bio stating you must be 18+ to get access.

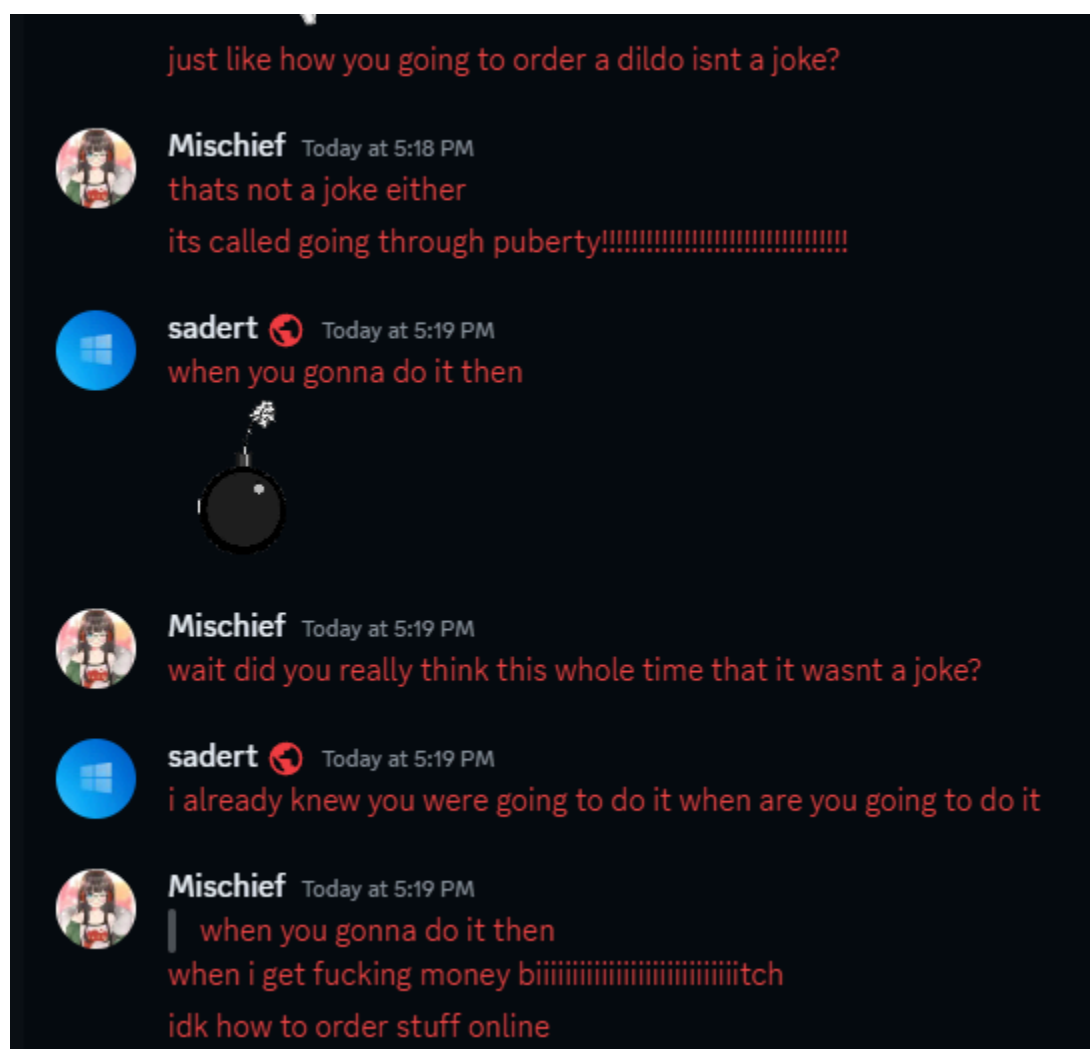

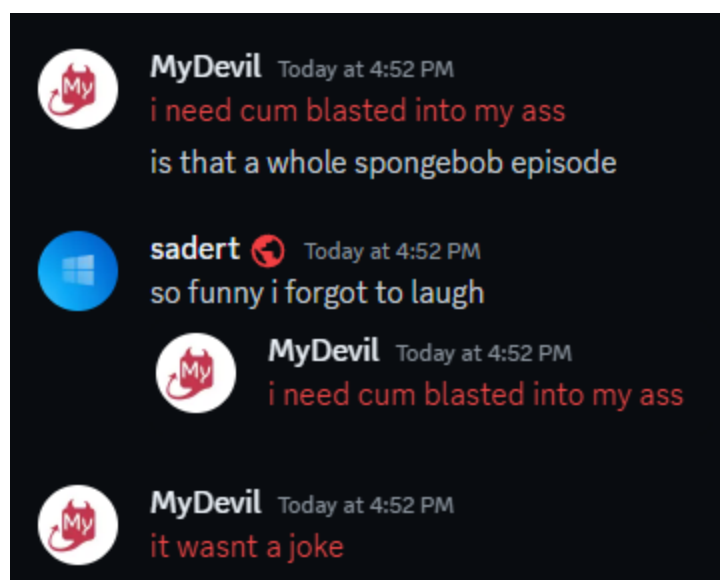

Other sexual comments around minors

As I'm writing this, Carly is about to be eighteen on September 17. EIGHTEEN. And she's still a pedophile.

Recently I was told that she was in a group chat, with people 13-14, and with a nine year old in there. She was talking about how horny she was, and wanted to buy dildos online. Remember, she is OLDER than these guys. So if she were to do this while she's 18, it's even MORE a problem. But now that I know about this, she's probably gonna try to stop doing that.

Below in these screenshots, she talks about how she wants cum blasted in her ass, and then she says it isn't a joke in the second screenshot. These are all red because she deleted the message right after but someone in the GC has message loggers.

After she found out I knew about the messages, she proceeded to prune all of her messages from there. Nice move, Carly. You're too late. **After this, she tried to say everyone in the group that were adults, which isn't true.**

Here are the rest of the screenshots.

Carly refuses to say the minor is a minor.

If you were to question Carly the victim's ages, as stated at the beginning of the document, she's going to either give fake ages or dodge the question. Examples are below, some screenshots are shown again in Chapter 11.

Carly refusing to cease the poly ring

On 8/19/2024, Mezstra created a group chat with Catzlol, basically so catzlol can threaten Carly to make her stop doing what she's doing.

I then came in to tell her to disband the ENTIRE poly ring, but she could stay with Cassidy because she's an adult (update: she's not). However, if you think that she actually disbanded the poly ring then you are wrong. She is still in the poly ring PRIVATELY, and she can easily lie about it too.

The conversation

As stated, I have tried talking to Carly myself and I tried getting her to disband the entire poly ring. Here's the conversation.

Carly pretends that she is not in the poly ring anymore (she is).

More pedophilia

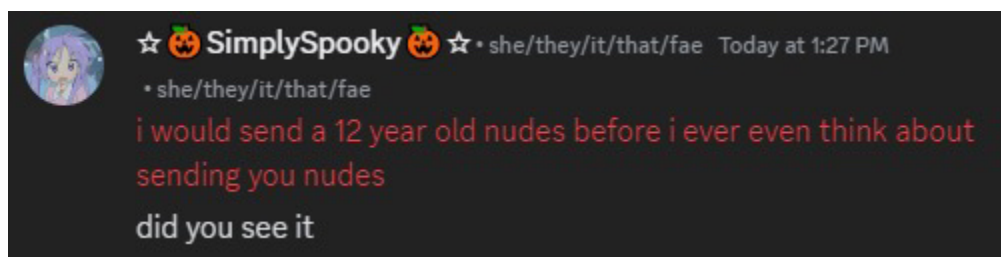

Screenshots are from Uyko's DMs with Carly.

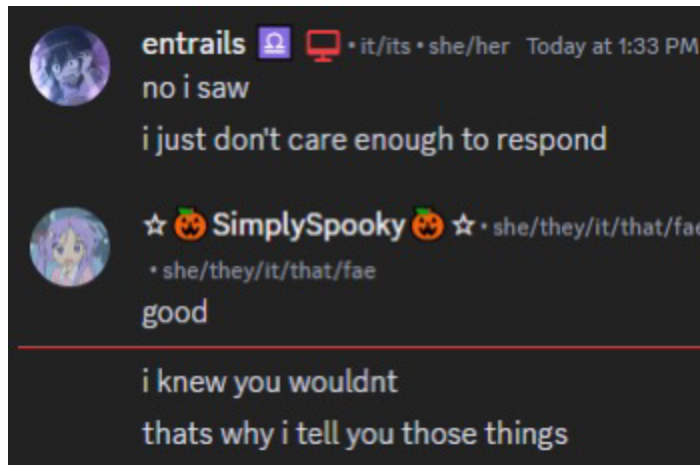

Masturbating to loli (drawn cp)

A screenshot that I was not allowed to bring up until now, shows Carly jerking to loli for exactly 11 minutes. This screenshot was provided by Uyko. Carly had also responded to this screenshot, and also suicide baited.[\[1\]](#)

Talking about sending nudes to a TWELVE YEAR OLD (that doesn't exist)

Current Victim: Jackson (AGE UNKNOWN)

It's clear that Carly has manipulated Jackson's feelings and perception of her in a subtle yet powerful way. There is a distinct emotional undertone that makes the dynamic between them feel off. I am completely confident in my understanding of the situation, not because of anything tangible, but because of the overwhelming emotional atmosphere and behavioral patterns I have observed. Jackson continues to support Carly unconditionally, without question or hesitation, even when it contradicts logic. Carly has clearly orchestrated moments or interactions that reinforce their

emotional closeness, making it difficult for Jackson to maintain any objective perspective. Her influence seems to work through emotion rather than reason, making Jackson feel as though they share a deep, unique connection. As a result, Jackson is unable or unwilling to recognize the toxic aspects of their relationship. He cannot bring himself to criticize Carly or put any distance between them, no matter how justified it may be. This level of attachment suggests that Carly's hold on Jackson reaches beyond ordinary friendship, entering a space that is emotionally manipulative and deeply complicated. The lack of physical proof does not weaken this conclusion, the emotional feel of it all is more than enough.

Supporting Diggie2007

It is also important to point out that Carly supports Diggie, a known predator from the Baldi community whose behavior we have been actively trying to expose and bring accountability to. His actions have raised serious concerns over time and have been widely recognized as predatory by multiple people across different communities. The main indication of Carly's support is the fact that, despite all this, Diggie is still not banned from her server. While that may seem minor on the surface, it sends a clear message. In a space where many others have been banned for far less, her decision to allow Diggie to remain shows a conscious choice to tolerate, or at the very least ignore, his behavior. This silence speaks volumes, especially given how vocal she and her friends have been in policing others.

Do not support Diggie or Carly. They are horrible people who got away with it. These people are secretly controlling the Baldi community.

Chapter 2.1: Victims speak out

Chapter 2.1: Victims speak out

On this subchapter, this will be going over the victims' responses. This was originally the chapter to expose Cassidy (because we thought she was an adult), but it was later on purged because it was later on proven that she was not an adult

We will be going over all of the victims of Carly that have spoken out (including those in the poly ring). I have some of pasted their responses in this document because I don't want Carly snatching their email address to try doing things with it.

Statement (9/6/2024)

Before reading,

Please know that **Cassidy is NOT an adult**. Chapter 2.1 was *originally* removed because of that (because it was for exposing Cassidy because we thought she was an adult). No, I did not lie about her age just for "evidence", she lied about hers for a reason I'm not going to disclose (no, it's not to date Carly). She hid Uyko's age so it's a big possibility she also kept Cassidy's real age hidden instead of breaking up.

I have recently spoken to two of the people in the poly ring weeks after Uyko refused to let me add one of them. From what I have gathered, the poly ring was led by Carly and Uyko. Uyko would introduce minors into the poly ring to be groomed by Carly and while Cassidy was posing as a 19 year old.

On 9/5/2024, I DMed Cassidy after being told by an anonymous source that she's not 19. I DMed her on an alt because I would've known she would unfriend/block my main account. She stayed with the alt account and we talked. From the looks of how Cassidy was talking with me, it seemed like she wasn't mentally well, and neither is Uyko as she is also a fan of "[tcoqal](#)". Everything made sense to me after that. It's now known that Carly would date minors that are clearly mentally unwell. After talking with Cassidy for a bit, she has blocked Carly and an hour later, also told Vershion to do the same, which is telling me that Carly and Uyko were covering Versh's eyes from the document, making sure she stays being groomed.

After talking to both Cassidy and Vershion, Cassidy stayed with Carly because of how she has had trouble making friends, inside and outside of the internet. Vershion stayed because Uyko refused to provide the document to her. Uyko, being a minor obsessed with Carly, an adult, wanted to put more minors at risk. Despite me trying to get Uyko

to have Versh add me, she refused to, and this is why. She was hiding Carly's tracks this entire time.

I will not disclose what exactly happened in the poly ring as of right now for privacy reasons. I will let the minors disclose that themselves.

Chapter 3: Child Manipulation

Chapter 3: Child Manipulation

I have officially lost the screenshots of Carly's **twelve year old friend** due to Carly manipulating her into spying on a group chat. Remember that she manipulated a CHILD, so i'm just gonna send a few screenshots.

Her IRL friend

This is a short chapter, mainly because most information on this one has been moved to Chapter 5.

I will be calling her IRL friend "y", and her sister "x", because I do not want their names involved, and they do not want their names involved.

Carly first of all made a huge mistake, inviting her OTGC friends to Y's server which is just a fan server of one of Carly's shitty auto tuned songs. She has given me alot of backstory on Carly's life outside of the internet, and her family, but I was told to not share it.

If you're in the GBC, you may remember a statement where Carly admits that she abused her grandparents. She did not do this according to y. According to Y, Carly yells at her nana frequently, which isn't verbal abuse, it's just disrespectful to elders. But from what I've heard, I think she has a pretty good reason for doing this.

As of 12/7/2022, Y's Father has pulled her away from Carly, mainly because she's 12, and Carly is 17. That's kinda off, don't ya think? Her dad only allows her near Carly if someone is with Y, because of the whole grooming stuff. You should not manipulate children bozohead.

Below is a screenshot admitting to worldcash that she manipulated Y.

I do know that atleast 1 person is planning on doing it

oiraMgnilbmuM Today at 22:58

EMPRESS Today at 23:04

oiraMgnilbmuM Today at 23:04

i already have lol (edited)

it's pretty obvious

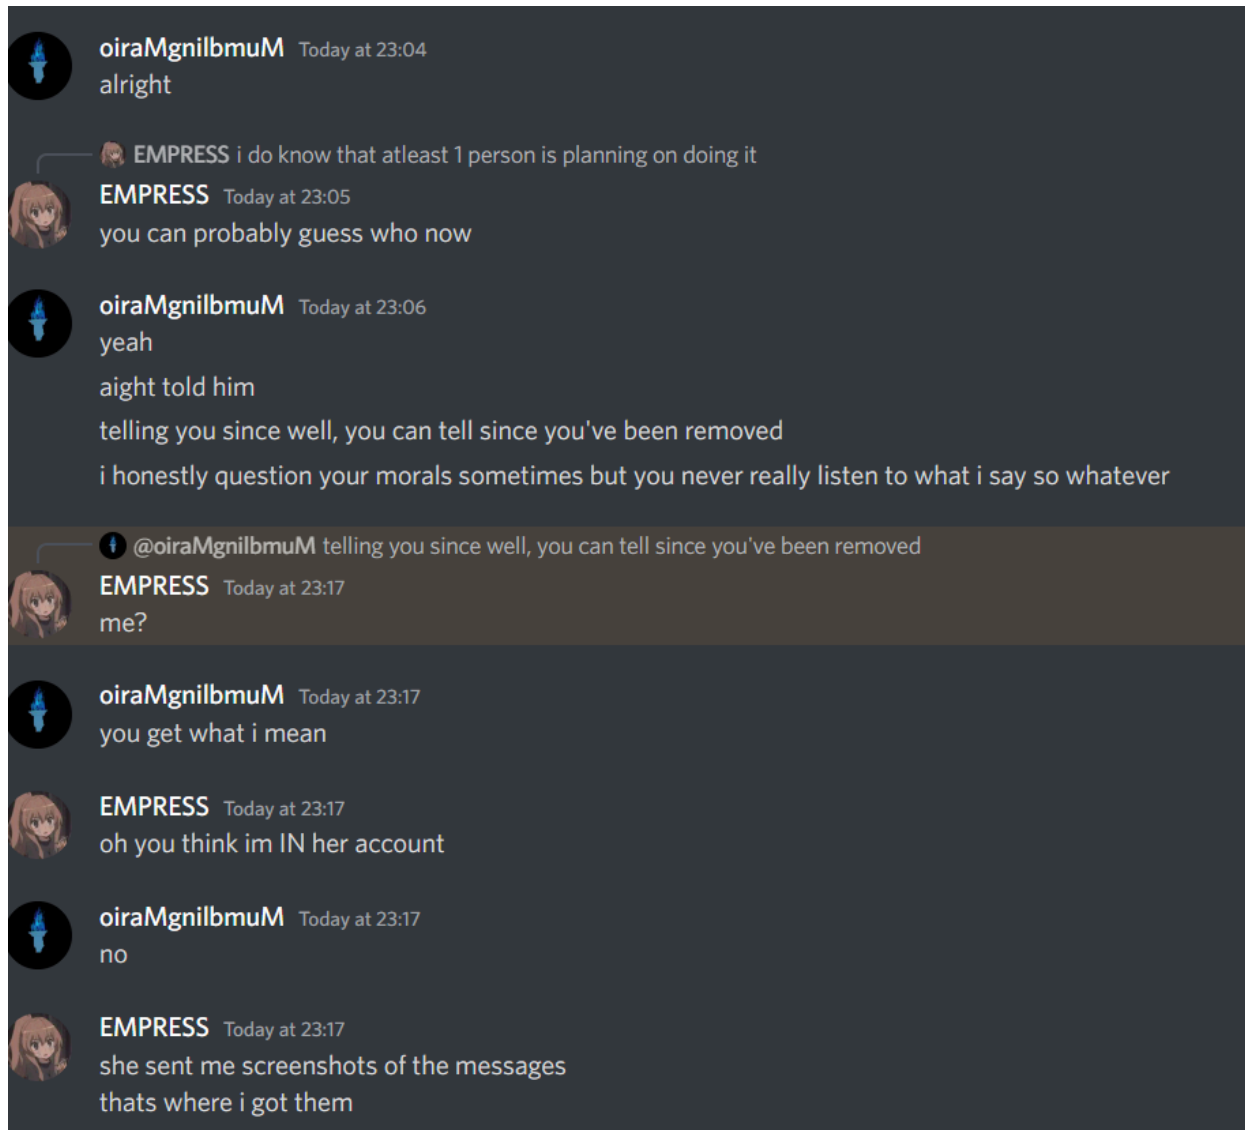

EMPRESS Today at 23:04

ill give you a little hint tho and say im not bald

oiraMgnilbmuM Today at 23:04

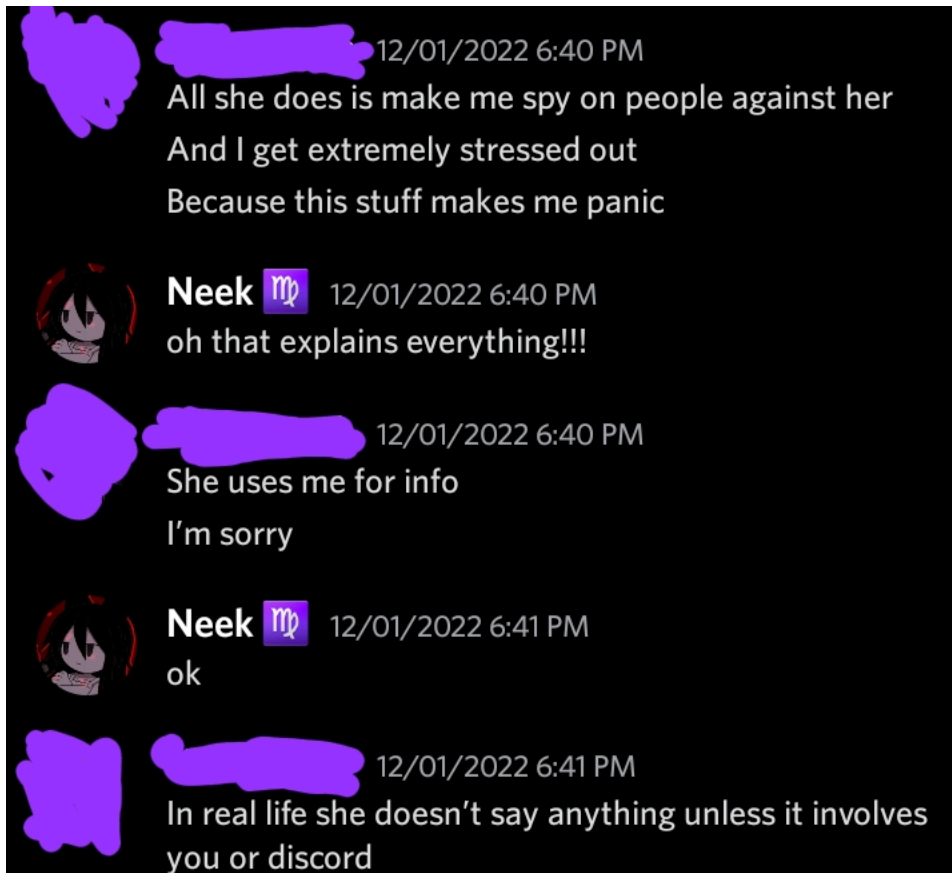

alright

Carly confesses that she manipulated her 12 year old friend to send screenshots to her. I was trying to get her school info and her grandparents information for a reason. She manipulates and grooms children for her own fun, and tries getting away with it.

The Aftermath

After three days of attempting to get in touch of Carly's school and parents, she revealed to worldcash that she manipulated y into sending screenshots to her. Y even said it herself and said Carly maker her spy on people against her.

So this is obvious evidence that Carly manipulated someone who's **twelve years old**, which is 100% bad. She has also gotten her sister, who's also **twelve** involved with some dramas.

Chapter 4: Doxxing & Harassment

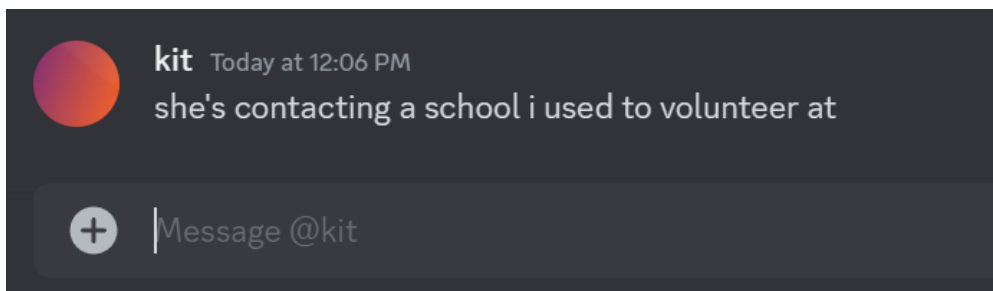

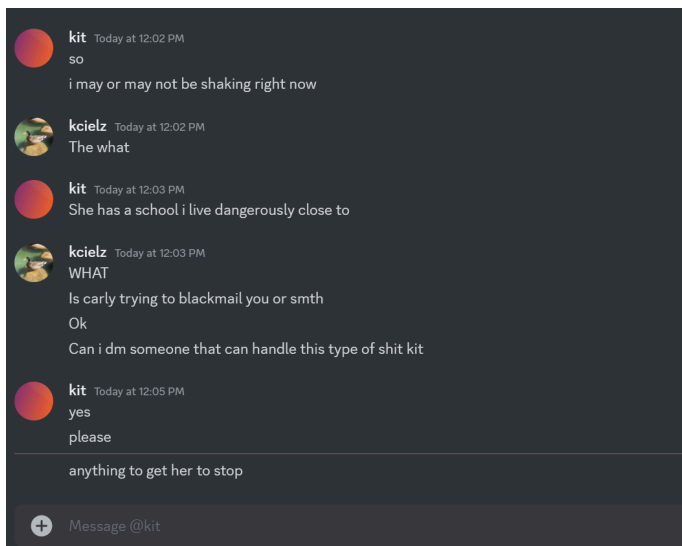

Chapter 4: Doxxing & Harassment

Attempting to call or e-mail a school that kit was volunteering at

WARNING: THIS IS FROM KCIELZ'S POINT OF VIEW!

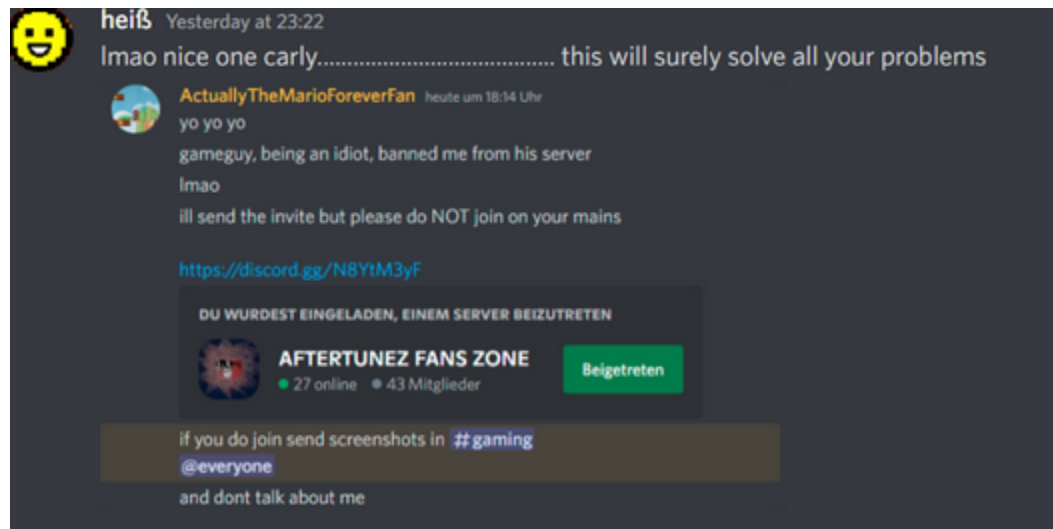

I got added back to a GC I played Jackbox with Carly and a few others in, and I wasn't able to export the DMs because Carly was deleting messages out of the blue. Carly then told kit to off himself on stream. Then, I got a message from kit saying he was shaking. This is an example of Carly's terrible behavior towards people who have cut ties with her, knowing her actions from the past.

Look below for more vvvv

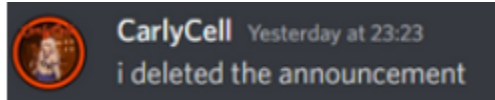

608's attempted server attack

If you read the “608's Removal from OTGC” part, you may have noticed the first 2 images showing something very interesting.

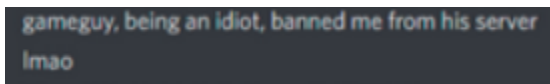

ActuallyTheMarioForever fan is 608.

gameguy banned her from his server, so she posted that announcement to tell people to raid it. It happened on 14/10/2022.

608 says she deleted the announcement, but that does not excuse her behavior. She clearly shows no signs of remorse here.

"Being an idiot". Right. Are you sure about that, 608? I'm shocked that you even thought of saying this and still expect people to forgive you.

Gameguy note: I banned her because I didn't feel I could trust her anymore.

Do you think someone not sending your counter argument is worth raiding their server for? You could have simply asked gameguy to post your counter argument, but instead you decided to tell people to raid his server.

Good job, 608. You made something into a bigger issue than it had to be again.

The Bullying

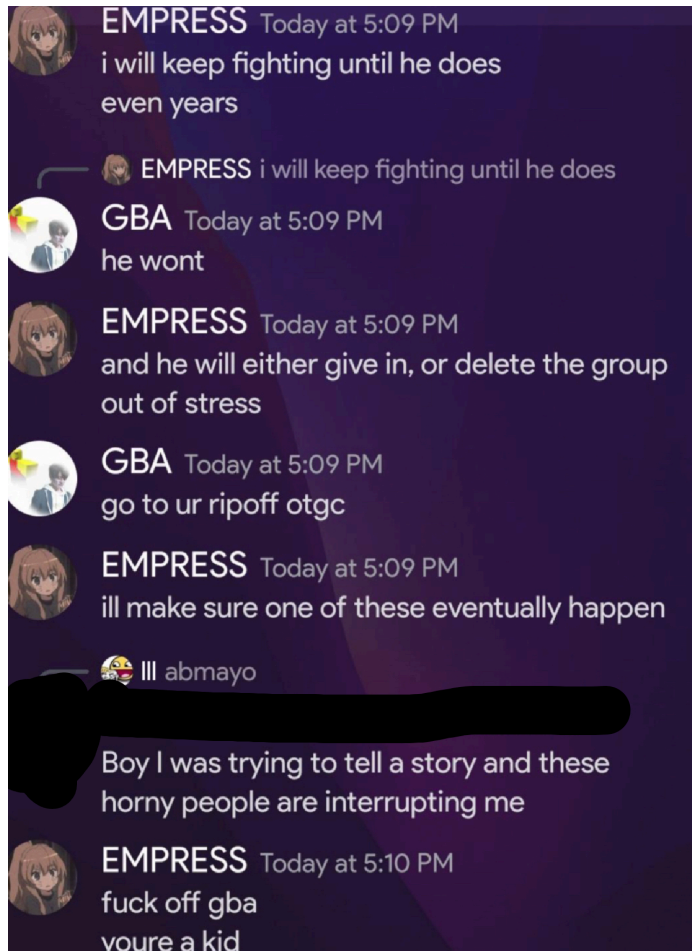

Carly has been recently bullying me (GBA) and OTGC members alot, with calling us nazis, calling me a kid and saying that i do drugs.

Here's all of the screenshots with Carly and others bullying

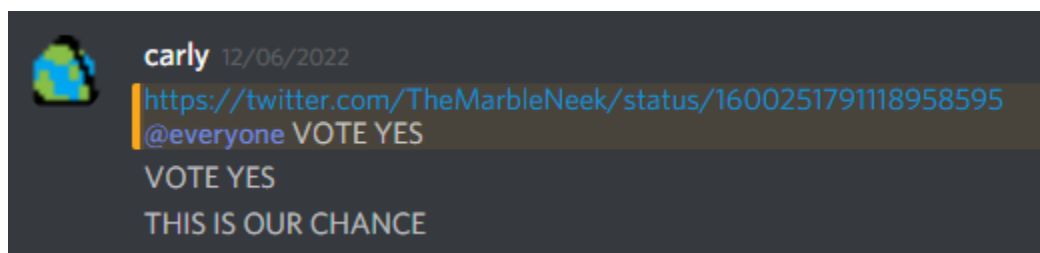

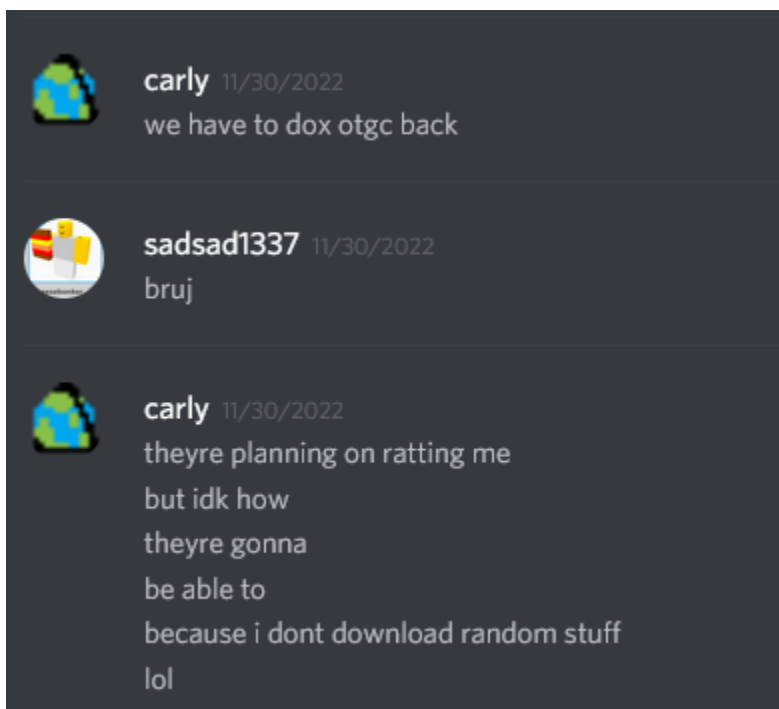

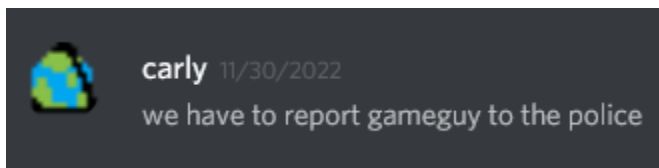

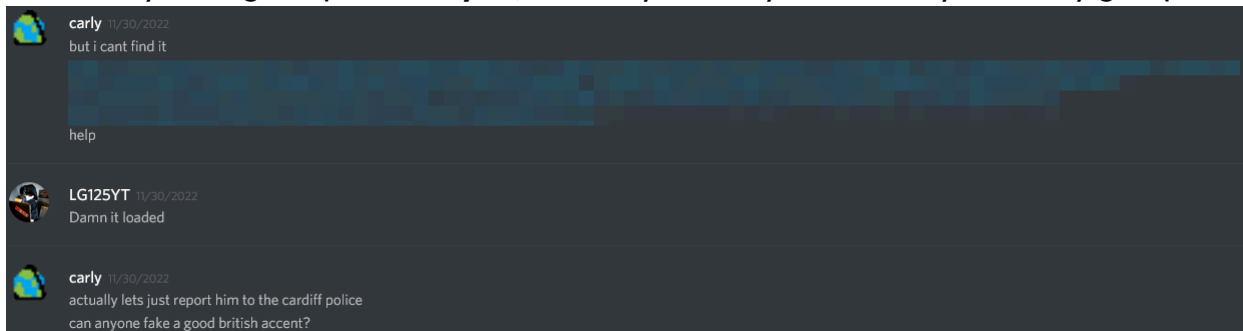

Carly has also attempted to make me suicide, after i posted a vent tweet. When people saw that Carly and her troops were voting yes, people were trying to mass reply to the poll with no.

Attempted Doxxing

Carly and her troops attempted to reverse search my phone number illegally, after I called Carly's grandmother. Her grandmother didn't seem to care about Carly grooming a 13 year old, according to Y and X, and either Carly or her grandmother blocked my Google Voice number.

Let's not forget that I used a Google Voice number to call her grandmother. Carly, if you're reading this, if you or your troops EVER attempt to find my school AGAIN, I will be actually calling the police on **you**, and maybe everyone else in your shitty group.

^ This isn't true. I'm not in OTGC but i just know it's a crappy lie.

Carly STILL doxxing people

As of right now (8/19/2024), it has been discovered that Carly will hire anonymous people to dox anyone that wrongs her, or anyone that speaks out about her behavior.

She has now relied on doxxing, and because of that, we are going to send evidence **everytime** Carly threatens to dox people. Not only she does it in DMs and group chats, she also openly threatens people on Twitter using different choice of words to avoid suspension.

ALSO, she has made a doxxing group dedicated to harassing her “haters”. This happened on June 15 2023.

However, there was later a “deal” made and she deleted the server and renamed her alt account to “abandoned due to deal”.

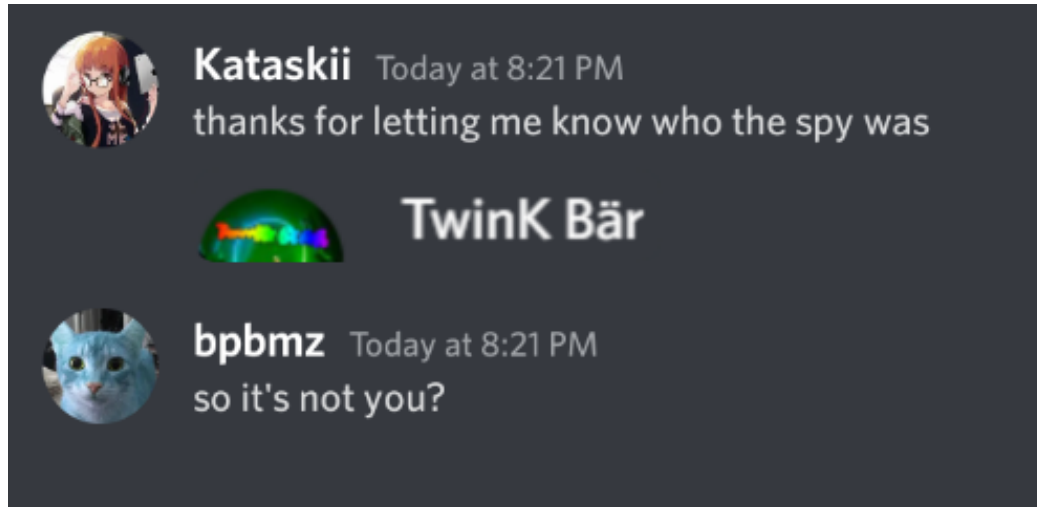

People Finder

WARNING: THIS IS FROM FLOWERZ’ POINT OF VIEW!

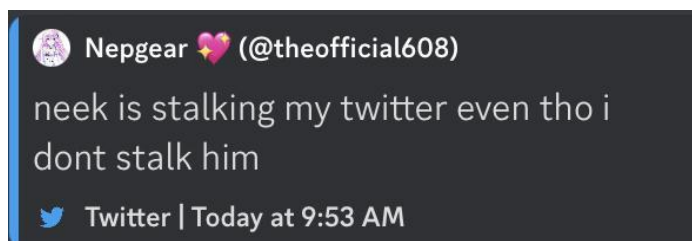

“People Finder” is a collection of information about people Carly dislikes, she accidentally told me about it in July when we were arguing. The only screenshot I have of it is from 2/11/2024, and it has information about RyzenAiko and Qzip, there is probably more, but that has not been confirmed.

Creepily Spying

Carly won't leave me (Marble) alone, and always manipulates people into spying on me. Here are a few examples.

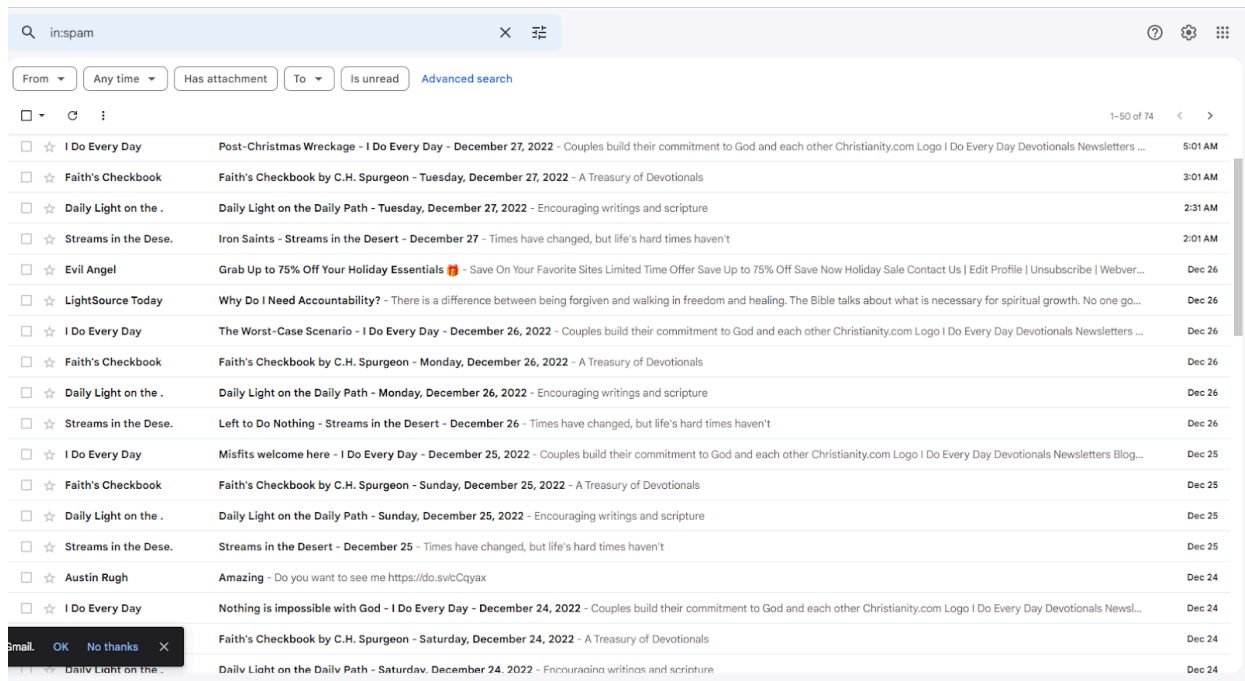

Your Twitter is currently under surveillance, to make sure nothing stupid happens.

Email Spamming

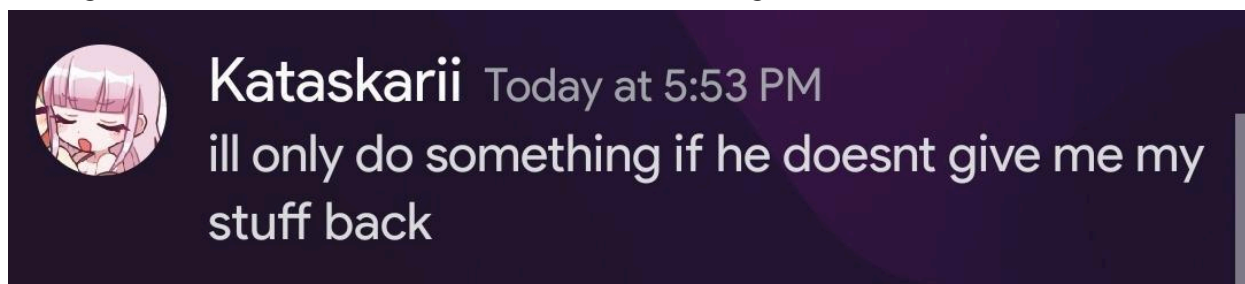

Carly and sadsad are constantly spamming my emails with either random newsletters, porn newsletters, registering me on sites with my email, etc. No, i am not registering for random sites. They also put the blame on Tale3339 and speakerpro2 for this, even though, Tale actually spams gore in peoples emails manually, and speaker is too braindead to do something like this. (WARNING: CROPPED NSFW)

Revolution Hill Lockdown

Nexo finally acknowledged that Carly is a manipulative person, and he locked Carly out of the OffTopicGC Control Panel. Luckily enough, I (Marble) still own the revhill.com domains, meaning I can manage the nameservers and other stuff.

During that, here are some leftover screenshots along with that

Statement from Nexo

carly, first of all the fact you say i went fucking corrupt? like are you mad, you calling me all theese things and now theres definently no chance i can give you back the website. the fact you also said i put something in the fucking backend, i would never do that and you are the person most likely to do it to benefit from it. the fact you are making me sound like a criminal but in fact its ur fault ur website is gone from ur own hands.

Carly, if you want the website back confess to all ur fucking crimes TO EVERYONE so they know who you really are and the person you have grown to be. stop ever mentioning otgc, delete ur fucking shitty knockoff of it "OnTopicGC" and please never talk to us ever fucking again and also to bring it up delete all the bad messages you have sent about me as they are in fact incorrect, i might be a bad person but not infact like that

02.01.2023, statement from n2b/nexo | hello carly, you can keep dreaming but you wont get ur site back, also calling my site stolen from yours? first of all ive removed all your fixes and replaced them with my own fixes, i have also fixed some parts of the render you couldnt even fix on rev hill i also provide a better community with a safer establishment and also about the "stolen" site thing, first of all ive decided to make 2022 frontend but now you went rogue, well you wont get the source. anyways to provide more info you can just ask any member or friend of mine (close friend) about the situation and they will agree carly cannot be fucking trusted anyways to conclude thats all now please join brick-hill.me the people that dont fuck around and that actually want to provide a safe environment.

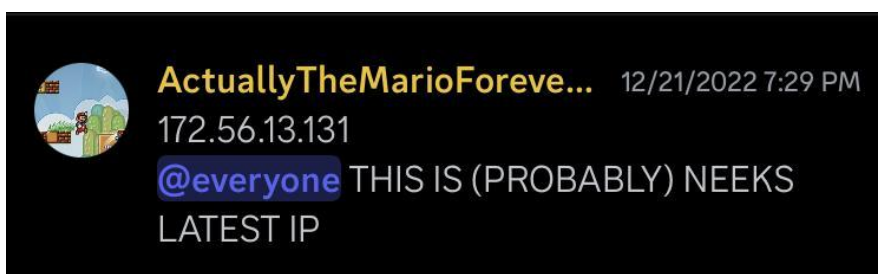

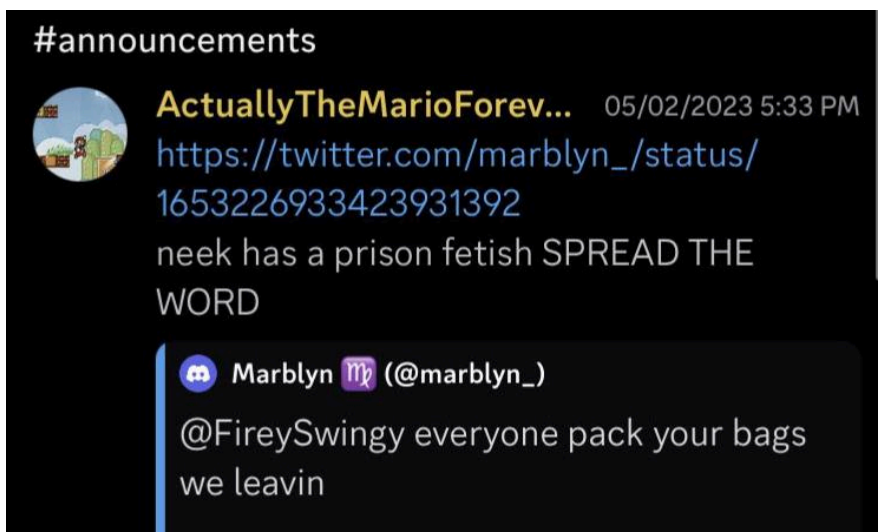

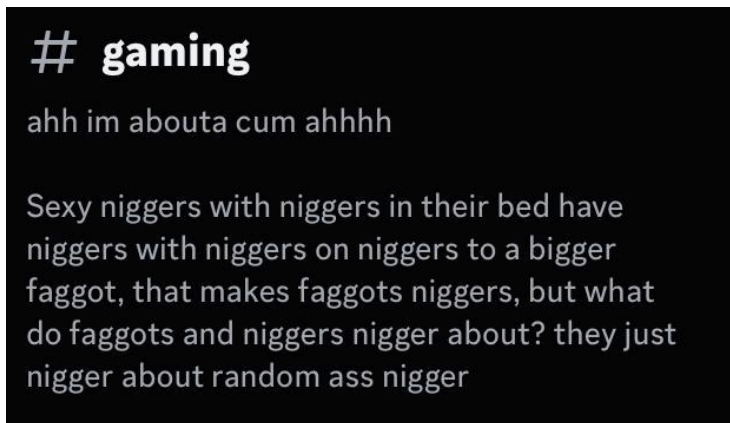

Carly, you do not own **any** rights to OffTopicGC. You have been removed from the group, so face it. You are a manipulative person, and you groomed gameguy. You're fucking disgusting.

“Gaming Republic” Gate

Some of you guys may know that “Gaming Republic” is a disguised server to harass specifically Marble. She’s been doing this since she got doxxed, and has been actively using this server to stalk and harass Marble.

The server was nuked on March 16, 2023, along with some other servers Carly owned.

Raiding Marblyn's Server

Recently, Carly and her goons had raided Marblyn's server (Karzani/kz). In this server, Marblyn would not mention her whatsoever, not even after calling Carly out on Twitter. The only times Carly would get mentioned is if someone from one of her Discord servers or her goons join the server to harass Marblyn for the drama. Marble did NOT want Carly mentioned in there, and Marble would delete messages where she's mentioned and additionally warn/ban the person that brings her up.

Does it end there? No, it doesn't. Carly sent an invite of Marblyn's server to her goons, and whenever questioned, they would say they came from Marblyn's website, which is obviously a lie as one of them provided a screenshot of Carly saying "maybe". One of the raiders' messages were deleted upon ban.

Screenshot evidence below.

Making a Gummibär parody harassing Vershion

After Vershion has made a public statement after cutting ties with the poly ring, Carly decided that she would make a Gummibär parody insulting her body weight, and her being a jew. She also stated that I chose "this path" for her. I only broke the poly ring up because they were ALL minors, not even adults.

She also knew that I saw the video right after it was uploaded to VidLii, and still kept it up.

The description of the Gummibär parody video on VidLii. This is towards Vershion.

Carly knew that I found the video, and still kept it up.

I have downloaded the video and posted it as an archive to my website, just in case she wanted to take back everything she said because of the insults said in it. I don't want to link the video itself because the VidLii website has gore on the frontpage. It's an unmoderated mess.

Download: <http://archive.marblyn.net/images/3b60b.mp4>

Making terrible excuses

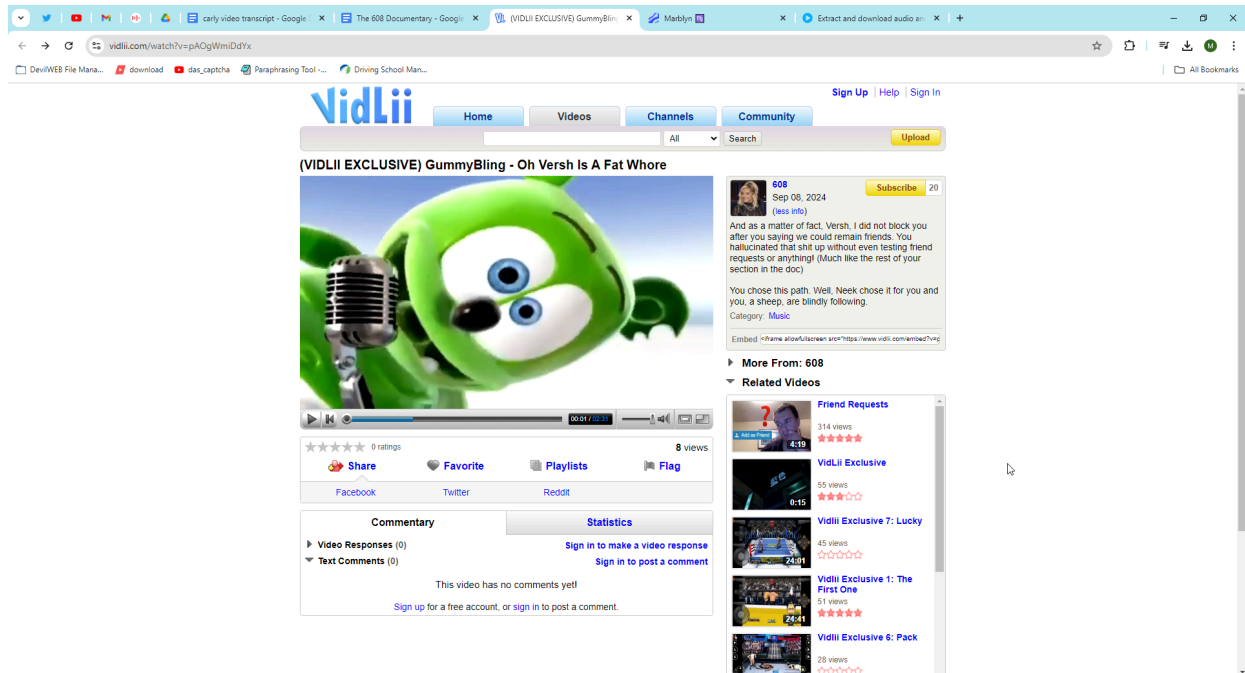

After the video has gone public in the document, Carly has made excuses about the video on Twitter, and we are going to prove her wrong.

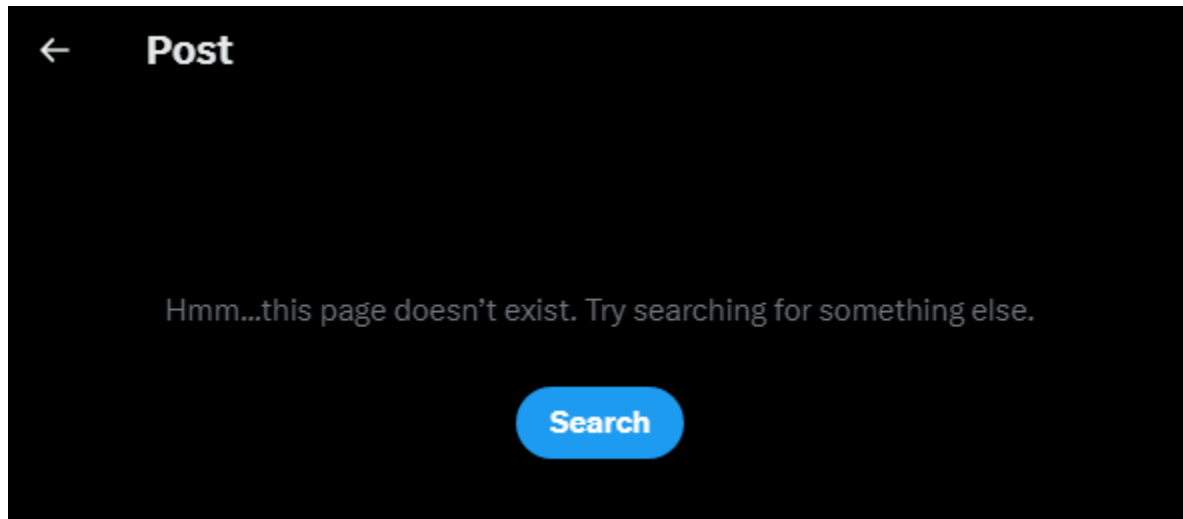

Screenshots of Carly's tweets, responding to the document update.

Proof that she made the video

So first of all, I still have the tab open from when she made the video. It's not on web.archive.org sadly, but next time I catch something like this, there will be a web.archive.org screenshot of it.

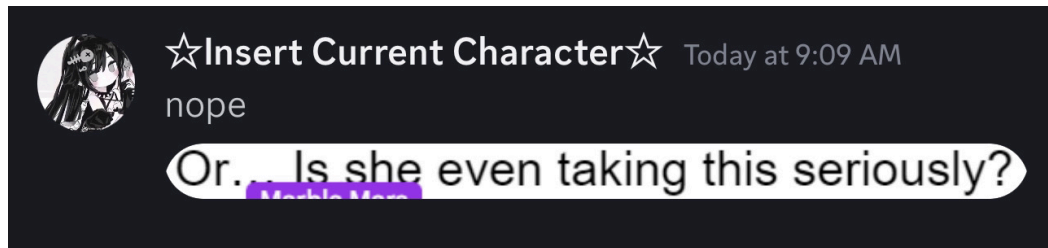

You also deleted the tweet that you posted about me finding out.

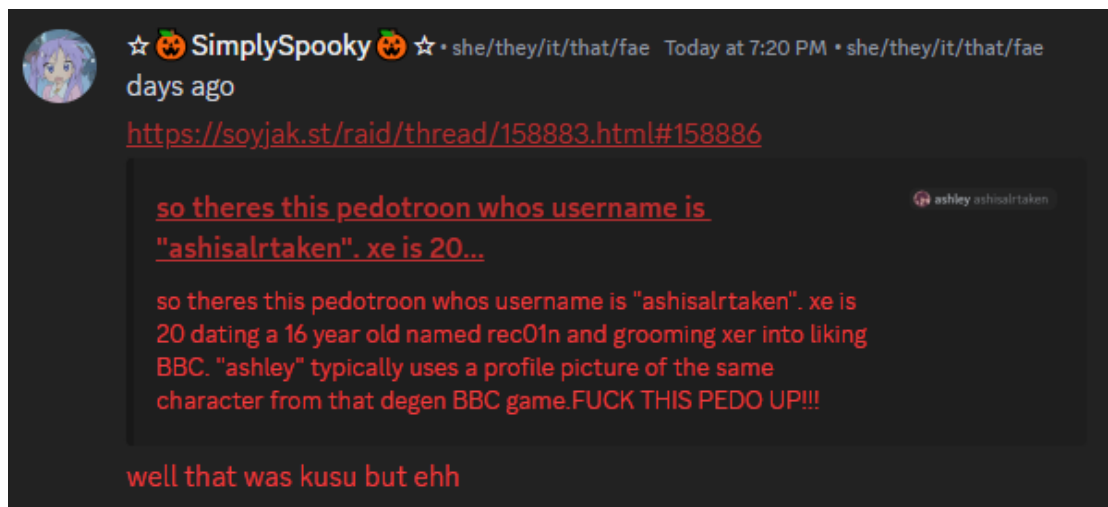

Oh, that's not all? **Here's the archive of**
the video that is still on
my website. Alright, that's all, I guess.

Or... Is she even taking this seriously?

<http://archive.marblyn.net/images/8wupu.mp4>

4chan/soyjak.party attacks

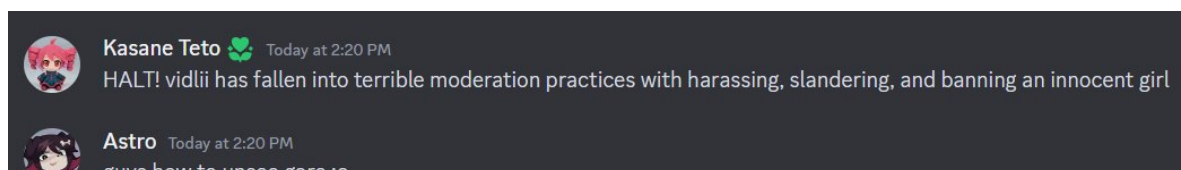

To clarify, Ashley is not 20 years old. However, the "16 year old" is Uyko. They are only a year apart. Ashley is 17 as of this is being written.

Her VidLii ban

After finding out that VidLii has gotten a new owner two years after allowing shocking gore, Marblyn has contacted that new owner about Carly having an account on the site. The owner had then banned Carly from the site, and this is what she did afterward.

Glitchygum/GummyGlitch had recently turned against Carly and she got her goons to dox him. Her and Kusu is spreading his personal information around. Reminder, GummyGlitch is twelve years old.

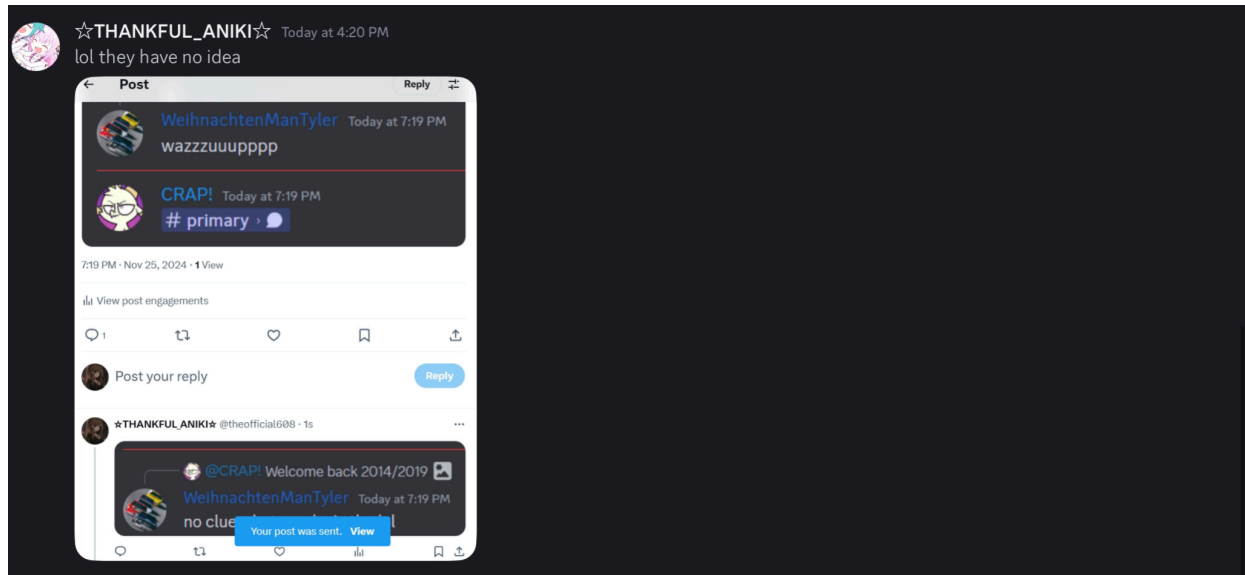

"Remoralii" will be a failure.

Carly and Kusu framing VidLii and BitView for having pedophiles on the site. More screenshots below.

Stalking the Bittoco Discord server and tweeting about it

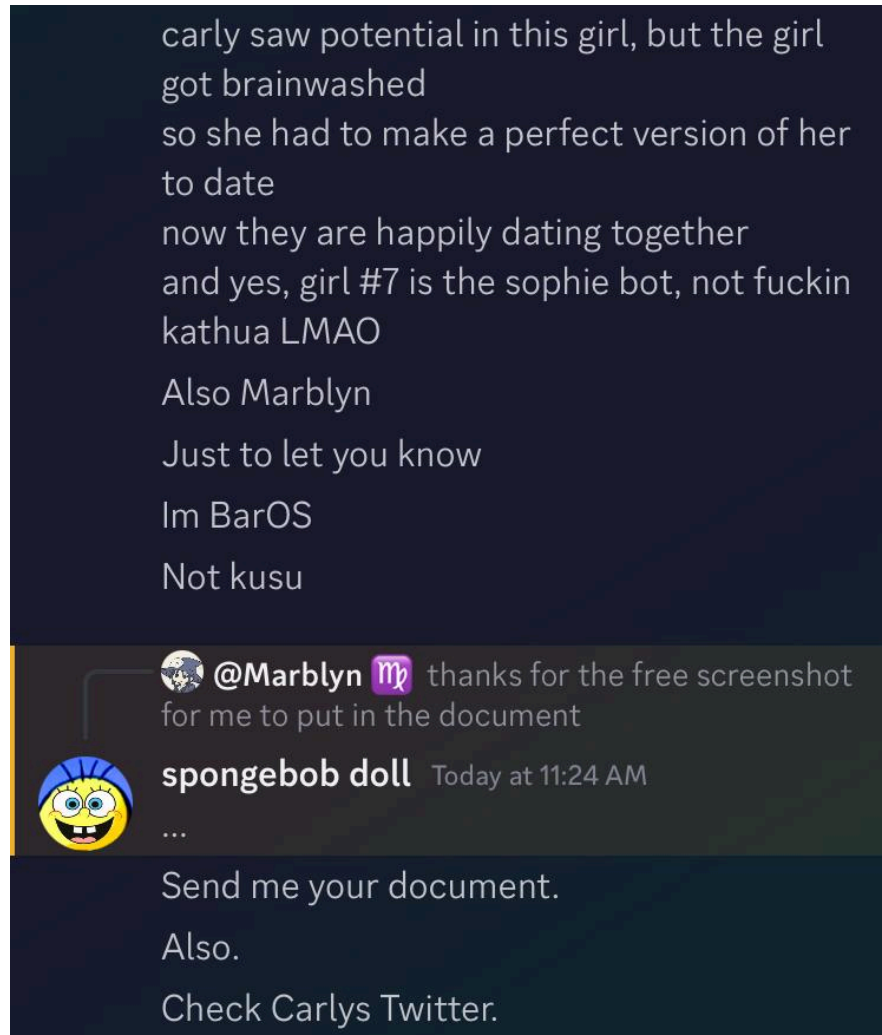

Harassing and stalking a random person from the Bittoco Discord server

The person in question had no idea who Carly even was and was just an innocent person from the Discord server. Carly chose to harass her by stalking, stealing her pfp, and also attempting to get into her private Twitter.

Update 11/26/24: It was revealed that Carly has been doing these things to Sophie because, as usual, she's a female. Carly is known to have an unhealthy attraction to

women and whenever she sees one on Discord, she'll do anything it takes to be in a relationship with them.

Update 2/16/25: [Oh boy.](#)

Creating a “raid bot”

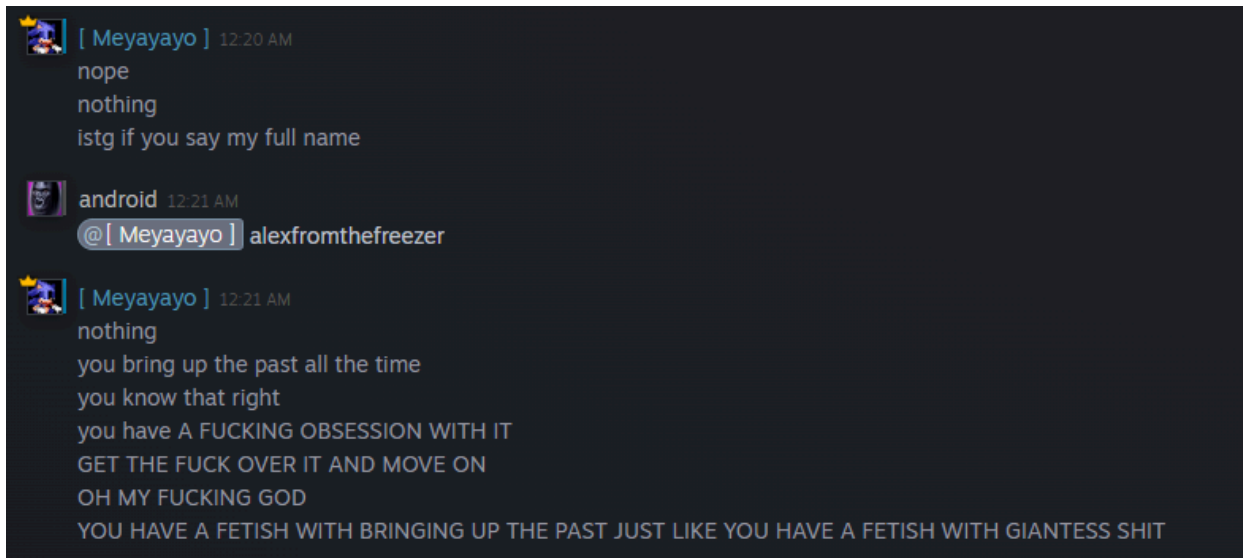

DDoSing of Casey

When I, Casey (AKA Topaz) in late 2024 began expressing my frustration and dislike toward Carly, a truly manipulative and toxic person, my internet suddenly started slowing down. It felt like more than just a coincidence, almost as if someone was trying to silence me or interfere. Carly has a way of making everything about control and retaliation, and honestly, it wouldn't surprise me if she was behind something as petty and vindictive as that. I just know it was her.

Gangstalking Kusu

Carly and her friends also started harassing Kusu by banning him from their servers over him posting memes. According to Kusu, Carly and her friends began targeting him with harassment after he posted memes in their servers. He says they responded by banning him from multiple communities and escalating the situation over time. Most seriously, Kusu claims they doxxed him, exposing personal information as a form of retaliation. While there is not much confirmation to support this, his story has remained

consistent, and there is a noticeable pattern of exclusion and hostility from Carly's group that gives his claims weight. BarOS has brought up his past a lot of times and still needs to stop.

[Meyayayo] is Kusu.

Chapter 5: Getting away with it

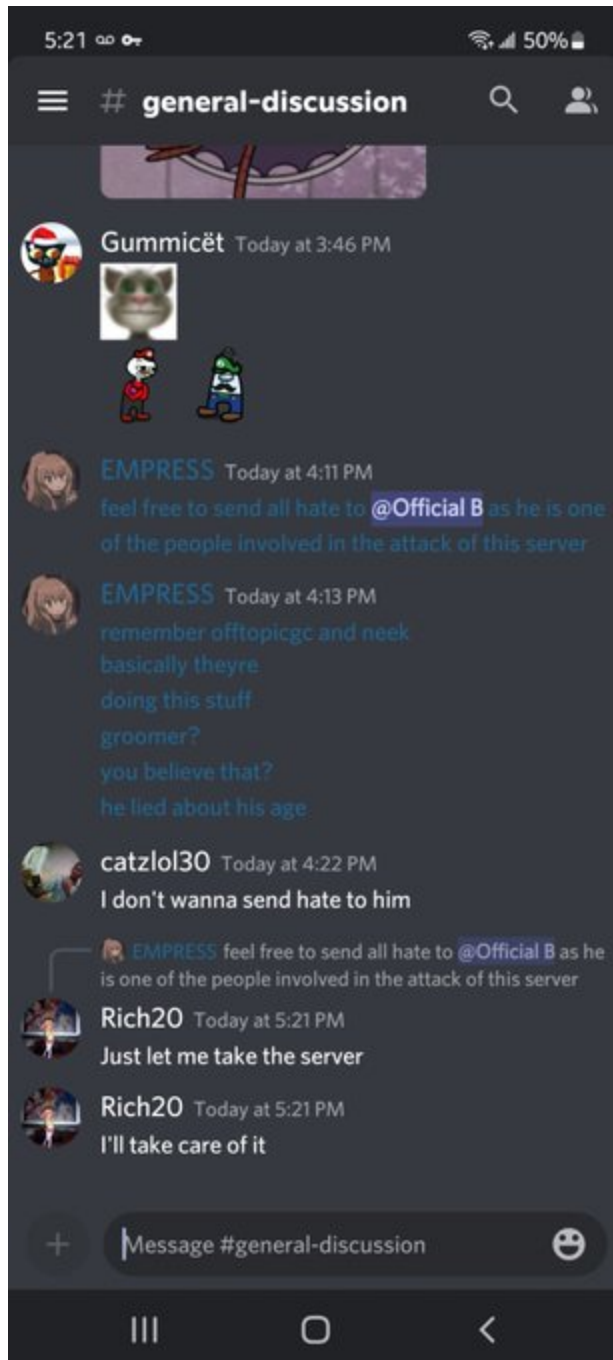

Chapter 5: Getting away with it

Carly has been trying to protect her reputation by giving her friends a bunch of lies. This is why the drama is still going, because she won't leave me alone and won't stop trying to attack OffTopicGC.

She basically tried to hypnotize Victor (a former friend of hers) into believing that she didn't groom anyone, and Victor hated her for that. He knew she did something wrong.

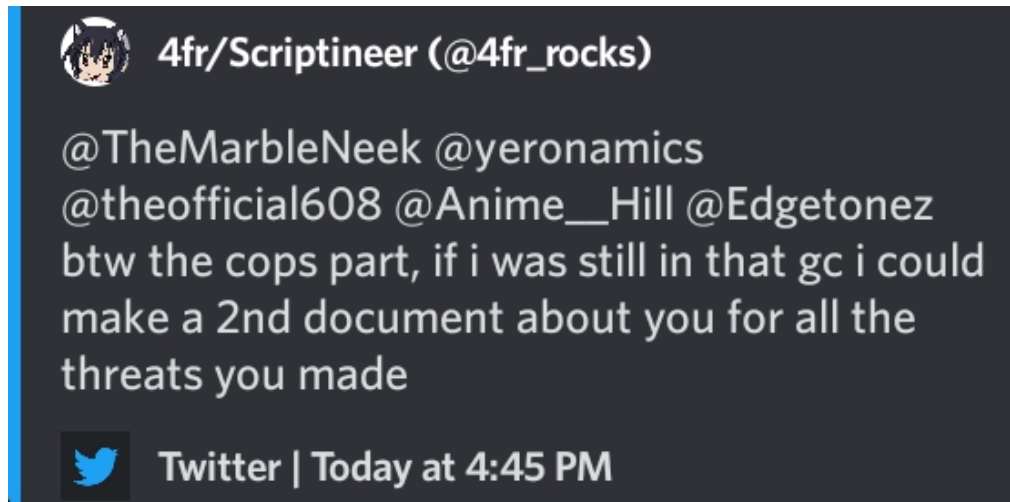

That's it? Told only him? No. Someone on Twitter (who i will not tell obviously) sent me a screenshot of Carly telling everyone in one of her shitty Gummibär servers that she didn't groom anyone.

(kinda ironic because catzlol was probably gonna rat on us)

4fr info

4fr (carly troop) threatened to make a document about me "threatening" to call the cops on Carly, when I was doing it for a justifiable reason.

Then after i tell him that Carly groomed gameguy, and manipulated y (a 12 year old), she quote tweets saying that I'm being lied to, even though there's enough evidence of the grooming and manipulation.

(The blue torch guy is worldcash and the "guy that humps body pillows" is officialb)

Both of what Carly listed are complete lies. Uyko WAS 14 (now 15 as this is written) and the "proven pedophile" stuff I did were things I said when I was 14 years old, which was four years ago. I am nearly 18. (Update, I am 18.)

Fake Suicide Threats

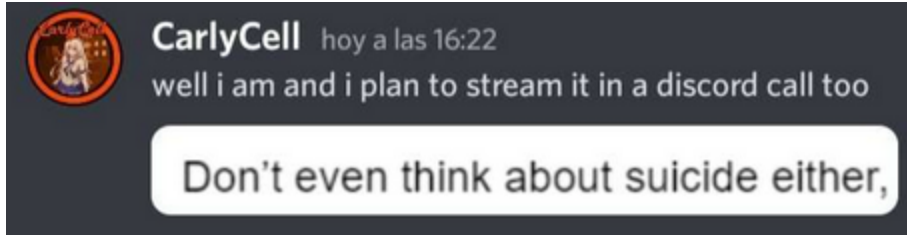

Update: A new image has shown what 608 has deleted above. Originally the bottom message (the message she deleted) was not in the above image, but it has been found within a new image, which has been put above, replacing the old one. Context: Wafkee said “if you call me a traitor i’m gonna block everyone” in OTGC after I posted my response. (Evidence in image below)

As you can see, 608 is not very happy about Wafkee's choice to tell me about her lies.

608 said this to Wafkee, and then deleted it. The image attached to her message refers to a part of my document where I told her that suicide is not the answer to her problems. (Refer to "Conclusion" to find the exact place I said it.)

Wafkee was very upset by this. He was freaking out because of it and told me about what you said, and he was genuinely worried that you were going to do this.

She then said she's sorry for the message she deleted, but I doubt that considering the fact she has attempted to threaten Wafkee to do multiple things for her by saying she will commit suicide if he doesn't in the past. That is not acceptable behaviour. That is abusive. She also deleted it, which shows she is attempting to hide the fact she said it. She deleted the other instances of suicide threatening too.

There is no "just end and everyone be friends again". Do you think people could just easily forget about this? You haven't proven anything I said wrong. If things did go back to the way they were, it would feel off. No one but you would like that.

As for the top image, Wafkee did not ruin your life, 608. You did. This entire document is the truth, told from the best of my ability. What Wafkee told me about is the truth, and you did in fact attempt to manipulate him into believing that I wanted you doxxed.

Wafkee was not happy to hear this from you. He was scared, but not anymore.

I am heavily disappointed in you, 608. Your behaviour up until now has proven everything to me. You are a bad person and need to grow up. Take responsibility for your actions.

If you do anything to Wafkee, it will be added to this document.

Chapter 9: Responding to Carly

Chapter 9: Responding to Carly

Response 1

The Carly Response (Mostly About The Gameguy Situation Currently)

I met gameguy in 2021, and his age was undisclosed. We worked on a parody of gummibar together which he owned. I eventually added him to a group of people that I met on a revival called Goodblox. (that being temporalist/dz/ga, jgg/justgoodgame, and 1 other). Nogkt from the GBC was also in there, as he had played Goodblox as well. Gameguy became interested in old roblox and befriended the people I met. After goodblox died, there was Rhodum [wasnt rhodum a rat and owned by epicummy] [yes, it was, but we didnt know it was a rat yet], but the original purpose of the group was gone. Everyone was going offtopic, and jgg was mad about that. Sometime in June, gameguy made a group chat for going offtopic. A bit after that he started to gain an attraction to me. (his age was still undisclosed at this point) eventually we did begin dating, but after meeting neek i began to like him instead. Gameguy was not happy about this, and I had even found it annoying myself. I remember at one point it got so bad that I agreed with Neek wanting Gameguy gone. And then I realized that Neek was manipulating me, right after he sent this message. This is what woke me up:

This screenshot shows my reaction to neeks message, which was in another group chat (im pretty sure it was otgc7 [aka the legendary group chat]) I didn't immediately start liking gameguy after that, but his flirts increased and I did eventually accept one of his messages. His age was still undisclosed at this point.

Scroll down for things regarding the age reveal

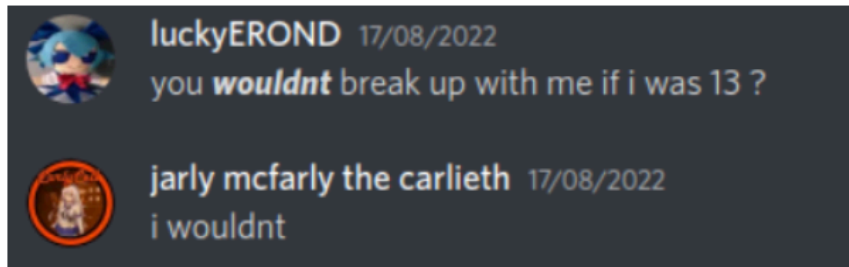

I knew about this beforehand, but the fact still remains that you manipulated Marble into thinking you still loved him, and convinced gameguy to take the blame for actions

you made yourself. You should have dropped the relationship there and then, but instead you made it into a bigger issue than it had to be.

Marble's constant attempts to gain control of OTGC are something I cannot defend, but I cannot defend your manipulation of Marble either.

What you did is wrong, and you cannot justify it by saying that Marble did bad things too. Everybody already knows what Marble did, so it's time for people to know what you did.

The age reveal

You may have seen this image here. This day started normally, and then gameguy got a bit weird talking about age stuff. He asked if I would break up with him if he was 11, 12, or 13. I said yes to the 11 and 12 things, and no to the 13 thing. That's when he revealed he was 13.

I have nothing to say here, other than the fact that what he said wasn't "weird", it was a genuine question.

Aftermath of the reveal

A few days later, he revealed to the rest of the gc that he was 13, and even showed identification in a stream. This stream was mentioned in worldcash's document.

As for the aftermath itself, nobody said anything. Nobody voiced their opinion. Nobody did anything.

A quick interruption to note down something:

During the duration of the relationship, i have never asked or told gameguy to do sexual things. It was all hi's, i love you's, and goodnights
Apart from casual flirting and the occasional sexual thing from gameguy

You did agree to a sexual thing with gameguy, and while knowing his age. Check "Evidence against 608's Counter Argument" for more information.

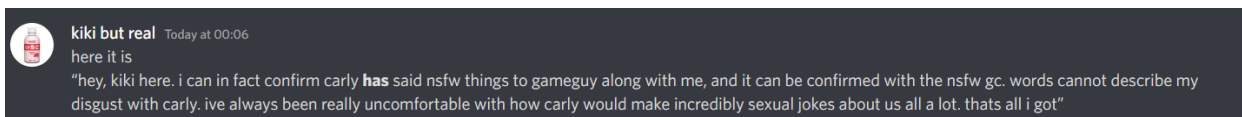

While still talking about this subject, I may as well address the yakova stuff , too. I see it was not talked about in worldcash's document either

Yes, yakova became part of the relationship too. I don't remember the exact month or date. However i do know i never asked or told yakova to do sexual things either. All from the first part of this interruption applies

Eventually she broke up with us both to focus on school more.
And i had no reaction at all

I did not add it because I did not think it was a necessary addition. You did not manipulate Yakova/scarf from my knowledge, it was gameguy that wished for her to be in the relationship.

Update, here is a statement from Yakova/scarf regarding this:

I know this interruption is getting long, but there's one more part.

I don't **seek out** people who have a large age gap. I came into the relationship with gameguy THINKING he was 17, until I found out he was 13 (see image below this sentence) and had no affection for him anymore.

This is the same thing that happened with neek.

I realized Neek was manipulating me and I had no affection for him anymore after that. And I didn't say anything to Neek because I didn't want to hurt his feelings or even make it worse. This was the same exact thing.

More below

I never said you seek out people who you have a large age gap with. There is no evidence to suggest that to my knowledge. As for the no affection anymore thing, read "Evidence against 608's Counter Argument".

Also, nothing excuses the fact you did this in the first place. You didn't want to hurt Marble's feelings or make it worse, so you manipulated him into believing that you still loved him, leading to it hurting his feelings and making it worse once he figured it out.

Marble does not wish to hear an apology from you, so I will not ask you to give one, as you have already attempted to do so. He does not have to accept any of your apologies, as you have wronged him.

As for gameguy, you also manipulated him. You never told him to stop when he was taking the blame for your actions. You were too scared to confront Marble, so you let gameguy take the blame for what you said.

After gameguy admitted he was 13, you knew he was 13, and while you say you did not like him after that, you seem to have contradicted that statement in the "Evidence against 608's Counter Argument" evidence that I showed. You manipulated gameguy into staying in the relationship, although your goals of "scared of being kicked from the GC" cannot be trusted in my eyes due to the new evidence.

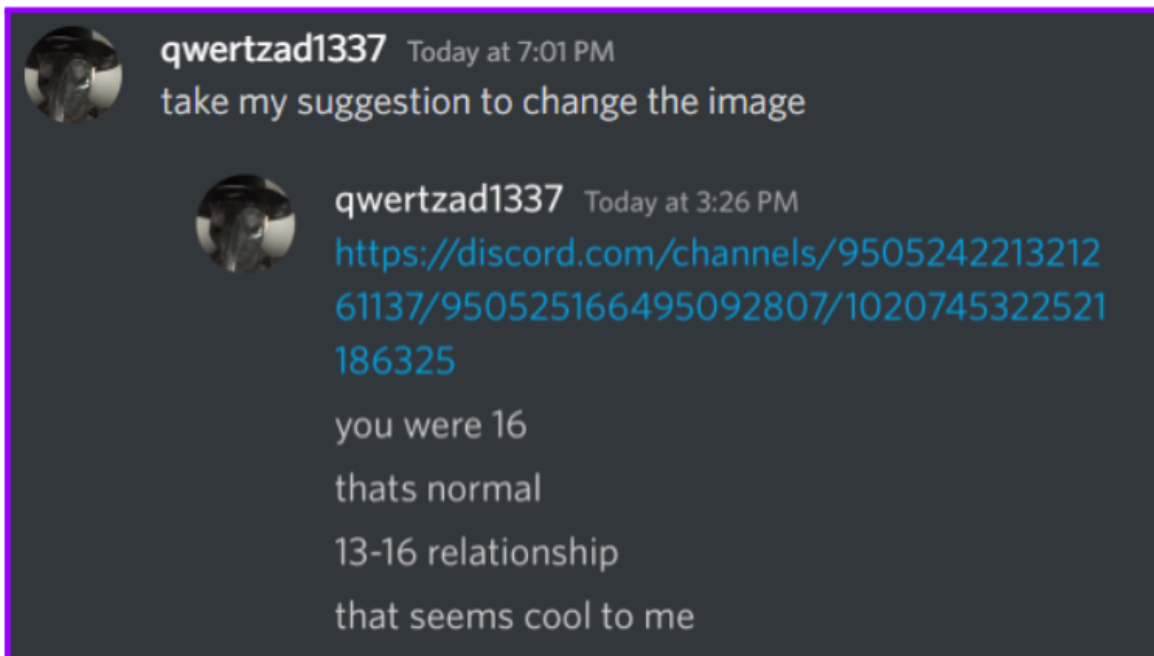

NEW UPDATE

It has been brought to my attention that myself and the opposing have overlooked something Sadsad has brought to my attention that i was 16 when i first started dating gameguy (August, my birthday is september)

you were 16

As you can see, she claimed to have read it.

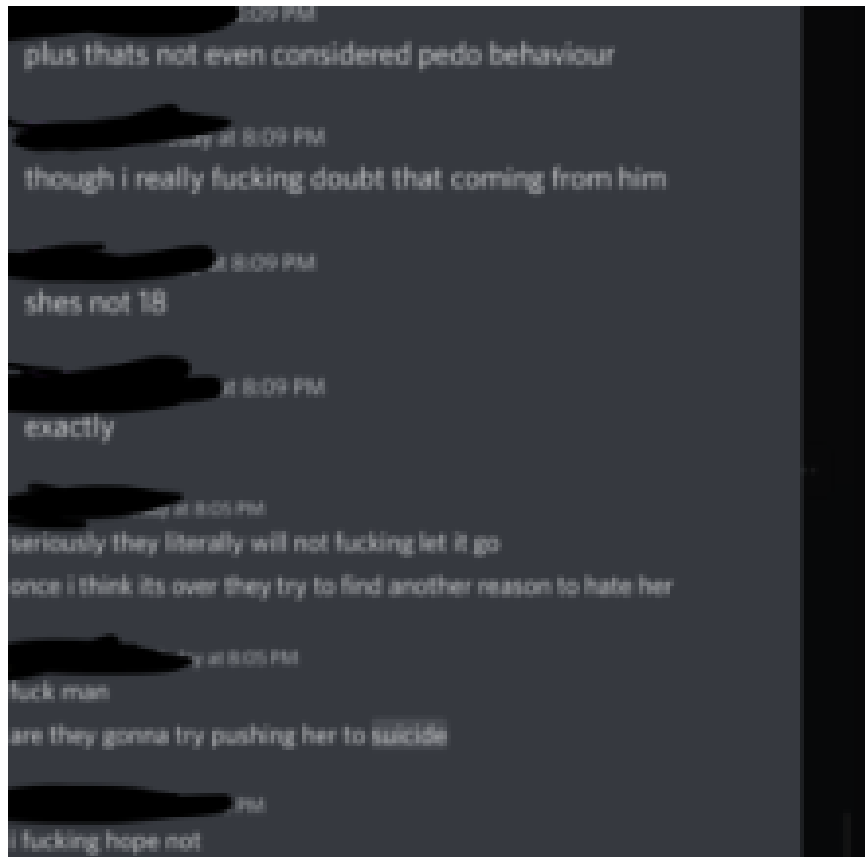

She did apologise to gameguy within his DMs. That does not excuse your behaviour all of a sudden though, 608. You clearly just wish for people to “forgive and forget”. The world does not work like that, 608. Your actions have consequences.

As for what 608 said before that I remember her saying to me directly, I do in fact remember 608 saying that “not illegal” argument in the same GC she said the “How am I 17” argument. According to a witness, it is all deleted now. I have since been kicked from that GC. (OffTopicGC 7 was the name of that GC.)

Witness account. Name removed for privacy reasons.

I also remember Croissant saying that argument as well, which I will respond to.

This is a very low quality image, but it displays the Gummibär community discussing after 608 told them about it.

I, or Marble am not trying to push her to suicide. Marble simply made a video exposing her, and also a document. All I have done is expose the truth in my own document, as I felt it was necessary once 608 started lying to everyone about this situation.

As for the “that is not considered pedo behaviour” and “shes not 18” arguments, it is a 3.5 year age gap. 13 year olds are not as developed as 17 year olds. 608 knew what she was doing as soon as gameguy admitted his age to be 13.

As she is 17, legally, yes, she cannot be considered a pedophile, but regardless of that, it is abundantly clear that she intended to groom gameguy into staying into the relationship with her. gameguy was not as mentally developed as 608 during the relationship. A 17 year old is almost a fully grown adult, while a 13 year old is still a young child. This does not make anything she did right.

The best way to get this resolved is to talk about it together and get any confusions and stuff cleared up

gameguy, me and Marble attempted to confront you in a GC, but you went straight into my DMs. I've already confronted you about it within those DMs, and your answers were not satisfactory. What I am doing is exposing the truth that you are so desperate to hide. I was angry at what you said, because I knew what you did was wrong. I was willing to listen to you, but as the conversation went on I grew more and more angry by your responses.

Originally, I was not planning on making this document. I was planning on just allowing Marble to create his video. After all, creating a video on 608's wrongdoings is not wrong. If he wishes to do so, he can. His response video was quite accurate from what I've seen of it. It didn't have the full explanation in it though, as Marble only knew so much.

When I saw your response to what I said to you when I confronted you, and how you twisted the truth in order to fit your own goals, I knew immediately that my suspicions after confronting you were correct. You are a manipulator.

Talking about it together won't solve anything. You'll just find some way to sidestep the issue, and you won't learn anything from the experience. I even posted my document to OTGC before anywhere else so we could all talk about it, but your responses were not convincing whatsoever.

It's been clear from your responses to my document that you have no intention of allowing the truth to be seen, so I will do so myself, so you may learn that your actions have consequences.

All I am doing is compiling the truth to the best of my knowledge, the rest is on you.

School

Ever since the original drama with neek began I've been stressed out at school. All i could think about was whatever neek was doing or worrying about what he had planned. Even today in school I was tired and worried about these people I've talked to and known for a year turning against me and calling me a pedo.

I can barely even maintain good grades because all I can do is worry about this drama.

I just want it over

I want it to go back to how it was right before the neek drama started. All of us being friends, working on projects together, and nobody hates each other.

Now I can't hear the house phone ring without panicking thinking it's neek here to harass me.

I just want it all to be over

I don't want this drama

I just want us all to be friends again

I can't live like this

Gameguy, I am sorry.

And neek i'm sorry for not just directly breaking up with you and explaining why.

I'm also sorry for ghosting (several times) [\[i have experience with that\]](#)

I'm sincerely sorry for involving myself with and helping the Numnuts.

I did not send your face in OTGC, but I was aware of all Numnut plans and agreed with them.

608.

You want it to go back the way it was? Where you manipulated others for your own gain? My answer to that is that you should forget about us, and focus on school. That is what I want you to do. Focus on your real life. You have an unhealthy obsession with OTGC that is unhealthy for everyone around you.

You want the drama to end? Think about how you can stop yourself from starting it. No one is obliged to forgive you, and your actions thus far have not shown any signs of remorse. You have caused more harm than good.

Your response has not shown me any other answer other than that you are a bad person. I want you to fix that, but I won't be helping you, all I will do is help you to realise that. No one in OTGC will be forced to help you either. You have to do it on your own.

I want you to leave OTGC alone of your own volition, and think about your life from there.

That is the end of my response to 608's response. Thank you for reading.

Response 2

Carly has recently (as of 5/16/2023) responded to the allegations made towards her. The focus is heavily on me. There is some things I need to **correct** her for.

Before I get to that, I would like to point out that she's using her crappy friends to help her write *her* response, and still isn't taking accountability.

Something to note is that ***NEEK HAD MADE
SOME GAMEGUY X CARLY JOKES BEFORE
HE (NEEK) AND I WERE TOGETHER.***

Yes, this is true, but he revealed his actual age to you like a moment after I was removed from the group chat.

Subchapter 2.5: Summary Of Neek's Attacks Toward Me

This will be majorly summarized due to it being a **lot** of stuff. It will be in chronological order for the most part

- Deleting works of mine
- Brainwashing people to turn against me
- Attempting to get me banned from servers (All of these not even involving him or OTGC in any way)
- Doxxing me (Several times)
- Spying on servers (Not just mine)
- Begging someone from the GBC to make an expose video about me (More on this later, as this person made a few Neek expose videos and Tweets after this)
- Stalking me and my friends (He still does this by the way)
- Making deals with us to leave us alone only to break them
- Raiding my servers
- False reporting me
- More will be added here as I take time to remember

- *Did this because you were attacking me over domains.*
- *Jesus christ you're still on this. YOU are the one brainwashing people, not even taking accountability.*
- *Because you're a groomer, abuser, and tried doxxing me?*
- *Whoops. Probably because you and Recon were trying to dox me, so I got you first.*
- *So I can report them for doing anything incriminating towards me. You also do the same.*
- *That comment I made on Croissant's video was clearly a joke, and he immediately got pissed at me for it.*
- *You do the same.*

- *I'm not breaking the deals, YOU are. I clearly try moving on from you but every month you do shitty things like trying to dox me & upload ----- episode 2 to archive.org*
- *I did do this in 2022, but this time a few people got the ideas, so I just participated. Yea I got no excuse for this part, you're a danger to people.*
- *That wasn't me*
 - *Someone did report you, I know who it was, but I will not say who it was because I know you. You're gonna attack them for doing it.*

Summary of Neek

Neek is a malicious individual who will set out to ruin your life the moment he dislikes you. He is a massive hypocrite and does most of the things he is accusing me of (e.g. manipulation). Currently he is hanging out with the aforementioned Cole (who he considers to be a pedophile).

This isn't true. If I dislike you I would just block you on social media. I've only exposed people that constantly attacked me (excluding that one youtuber and a few others in that community), you were attacking me so here we are.

Other Notable Things Neek Has Done

- Knowingly dating and hanging out with someone he considers a groomer (Cole)
- Spreading nudes of an ex of his (the aforementioned Cole)
- Only turning against Cole after it did something Neek disliked (Sounds familiar, doesn't it?)
- The racist object show (He has tried to defend this several times, but it's just not okay)
- Legitimate pedophilia (2021 if I remember correctly. I don't have the screenshots anymore)
- Made insensitive jokes (e.g. 9/11 jokes)
- More will be added here as I remember or as more is discovered by others or me

- *Yeah, I heavily regret that. Should've listened to people in the OSC Discord about not talking to her. (Update: If you knew Cole was a groomer why were you sexualizing her? That never made any sense.)*
- *Not true. She's been lying about that for a while now without visual proof.*
- *Not like the entire OSC was against her, I turned against her because she got me banned from the OSC Discord and kept telling people my personal stuff where it got to the point where the ORC eventually found out and kept attacking me & mocking me for it. Another thing to bring up the fact she called me a "ni***r slave".*
- *Why even bring this up? It's not even an object show to begin with.*
- *I do remember this, but it was actually in October(?) 2020. Mezstra shared screenshots of me jokingly flirting with one of my friends with zero context whatsoever. She said she was 14, but another 11 year old told everyone their ages.*
- *When have I EVER done this.*

Response 3

This is a draft. (update i'll write a response later i forgot that the third response existed)

The response seems to not be entirely public atm, and I was told to not publicize it yet. This subsection will be added soon.

Response 4: Responding to the Gameguy document

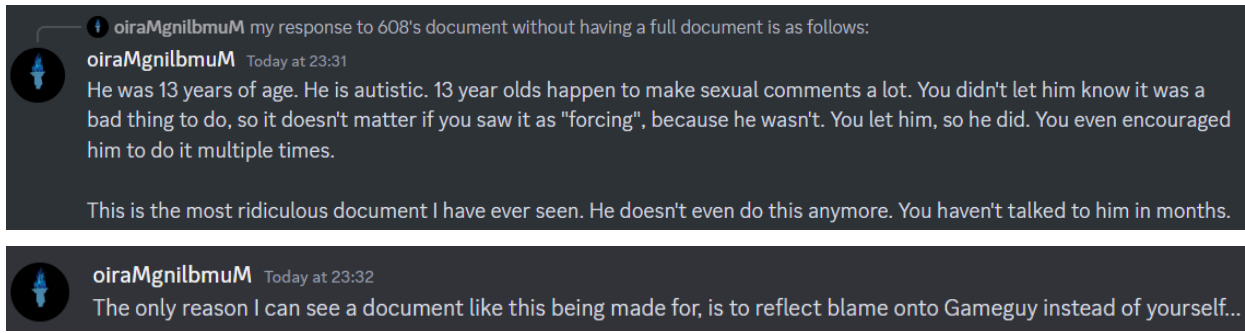

Note that this part of this chapter was made by worldcash. This was from over a year ago, and before Uyko got involved with the poly ring. There may be some grammar errors but I have fixed some of them.

(The document I'm responding to:  Gameguy: The Whole Shabang

TL;DR: He was 13... you did worse shit. Stop trying to reflect blame onto Gameguy by focusing more on the stupid shit that he (a literal child that you dated) did instead of your way worse actions.

In other words, stop trying to ruin a child's life to save your own ass, 608.

You haven't even talked to him in months.

(This turned out to be true btw, check "A Talk with 608 in a GC" for more info)

(tl;dr she's a pedophile): [Evidence Against 608/Carly](#)

Longer document I made explaining in more detail with more drama shit in it from ages ago: [Statement against 608 \(Also known as Carly\)](#)

Now, onto the response. This is a catalogue of my descent into madness as 608 makes me repeat myself over and over again, leading to nothing of value. I hope you enjoy. Or don't. I dunno.

(Note: All of this was written while I read it. If I say something that goes against something said later in the document, that's why. I likely have an explanation at that part of the document that fits better.)

The Warning

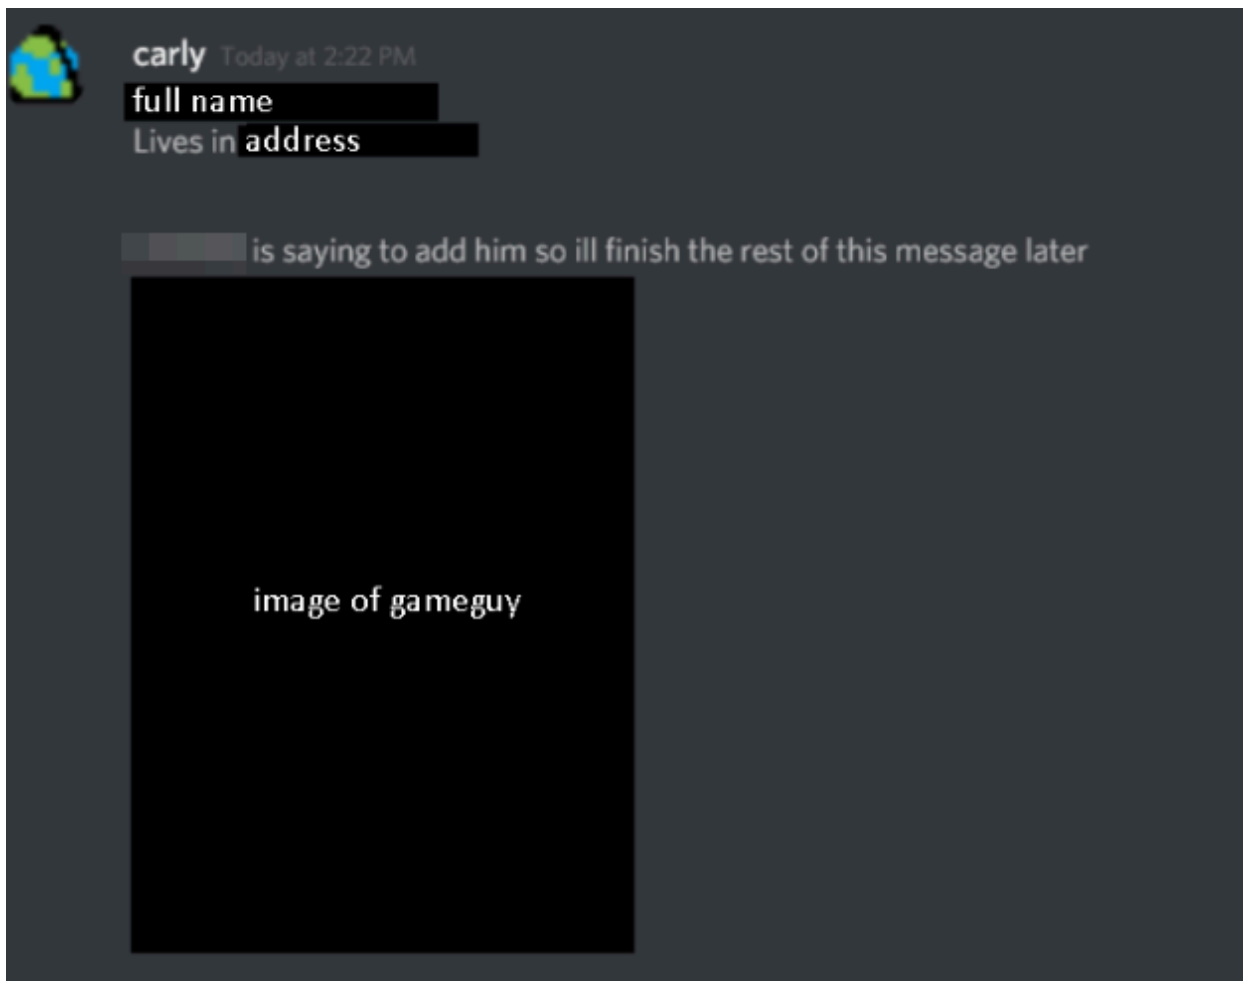

⚠ WARNING ⚠

Do not harass anybody involved with this document.
Also, this contains mentions of sensitive topics and is
not suited to those who are a part of the younger
audience.

Aliases you may see him referred to in various
screenshots:

- gameguy
- iceberg/iceberg112/iceberg122
- [random word]guy
- luckyEROND
- Will

It's good that you said not to harass him, however, you literally posted his
dox before, so I don't see you following your own example.

Her dox of gameguy on a Discord revival known as “Hummus”. Censored, obviously.

The censored image is of gameguy himself in front of his computer with Discord open. He’s posted his face multiple times in OTGC, but this isn’t in OTGC. This is in a completely unrelated chat where people gameguy barely knows can see it. Plus, posting his address and full name? Really? Of a 13 year old?? :/

I hope you’ve changed from that type of person since then at least, but it doesn’t seem likely to me considering this document’s existence.

#1 Background Information

Part #1 | Background Information

I met gameguy for the first time when a suspicious account (which was for a project/gimmick character he had just started) joined a server I had based around the Gummibar Community (GBC). I went to check who invited the account, and found him.

Shortly after, I was helping with the gimmick character. I won’t get into that but this is how we met.

Around that time, I had a group chat I made with a few people I met in GoodBlox 1. Eventually, I added him, as well as another guy who was part of the gimmick character (that guy being JaredYoshi/jarkee).

Slowly, the group started to shift from its purpose of being a GoodBlox bloopers group into a general purpose group. Due to this, gameguy made a group chat called offtopic, to which Jared added everyone from the bloopers group.

I don't have anything to say about this currently, if I ever do have something to say about it I will update the document with what I have to say.

Though, if I had to say one thing, I'm still shocked that a Gummibär community exists, and ever since I first met 608 in Whirled Club and they told me about it, I've been boggled by its existence.

Can someone please explain to me the appeal of it one day? Thanks. I don't hate you Gummibär community, I'm just confused...

#2 Shift in Personality

Part #2 | Shift In Personality

Throughout this, gameguy had started to be sexual. This wasn't to the point where it was all the time yet, but it's still noteworthy. Eventually, infamous ORC user mostly known as Cukesim was added to the group, who would constantly get annoyed by Gameguy's sexualness.

Cuke and I formed an attraction to each other, which many of the other members disliked.

Cuke's hatred of Gameguy eventually got to the point where he and I had a group planning to overthrow him. I really started to dislike him.

Then it happened.

Gameguy's sexual comments are noticeable in this document:

 Evidence Against 608/Carly , but the fact you enabled him with it rather than proclaimed that you're uncomfortable proves more that there is something seriously wrong with you...

Anyway, the sexual comments of Gameguy have since calmed down, he talks more about Skibidi Toilet now if anything. He was 12/13 at the time, on Discord and terminally online. When I was 12, I was joking around in school about sex all of the time since I just found out about it.

Your job, as someone way older than him, is to not engage with this sexual speak! Is that not hard? Make it known that it's not accepted! I don't get it... what's stopping you from doing that?

You made an excuse before that it was "oh no he's going to remove me" when I confronted you originally about your dating of Gameguy, but you clearly motivated him to do it in the first place before. So what's the reason? The only thing stopping you as far as I see was the law. You were very cautious of it, as seen in the document linked above... even looking for loopholes...

Anyway, moving on...

#2.1 Awakening

Part #2.1 | Awakening

Due to ongoing drama Cukesim had with 2 members (Diced and Nexa), he was constantly leaving OTGC every day, making callouts, threatening to fuck stuff up, and more.

One thing he said really flipped a switch in my head...

I officially lost all attraction to Cuke at that point. You may ask why I felt the need to include this, and the answer is because that's when Gameguy began pressuring me to date him.

CarlyCell = 608. Pretty self explanatory.

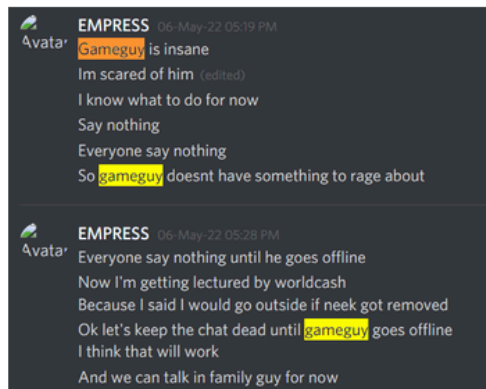

Pressure? Alright then. I don't remember anything about Gameguy pressuring you but let's see what you say in the next part.

#3 Forcing Me

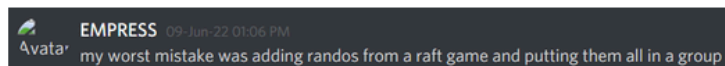

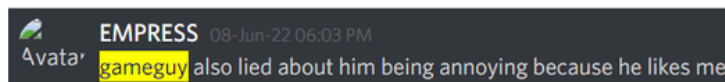

Part #3 | Forcing Me

Note: A lot of screenshots regarding this and him sexualising me during the “relationship” are currently lost, but everything I still have will be included.

During the time period after I lost attraction to Cukesim, Gameguy started getting more sexual, asking me to date him every day, as well as sexualising me. He also had said he was 17, which was not a “new” thing he had said, as he had been saying that ever since the original bloopers group from earlier in the year.

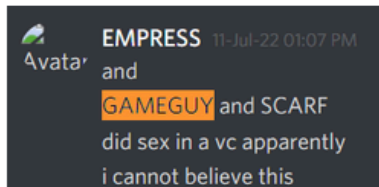

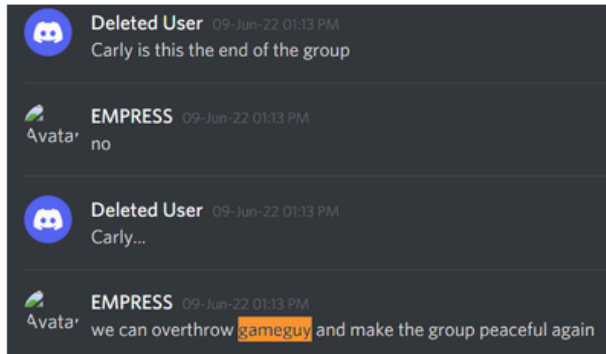

Source: Archived DMs with wafkee

It eventually got to the point where I was uncomfortable with gameguy so much that I regretted making the bloopers group. I really really didn't want to be in the relationship.

It eventually got to the point where I was uncomfortable with gameguy so much that I regretted making the bloopers group. I really really didn't want to be in the relationship.

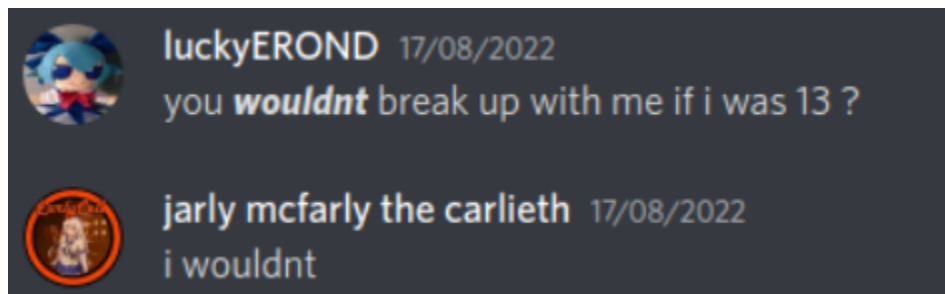

Discussing something I was deeply disgusted about

Empress = 608, Deleted User = Wafkee

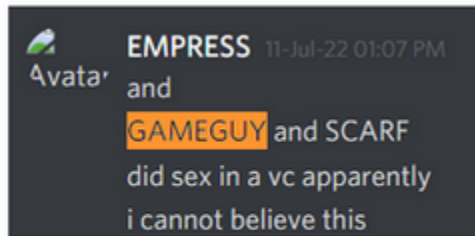

There's a lot to go over here.

First, the age. Gameguy did in fact say he was 17 at first. But he eventually told her he was 13. She did not end the relationship there.

jarly mcfarly the carlieth was gameguy's friend nickname for 608
luckyEROND is gameguy

608 was 17 for a whole month while knowing he was 13 and still dating him. She originally dated him while 16, but she kept dating him while she turned 17 and Gameguy had to be the one to end the relationship, meaning she would've done a 14 and 18 one too if she kept going.

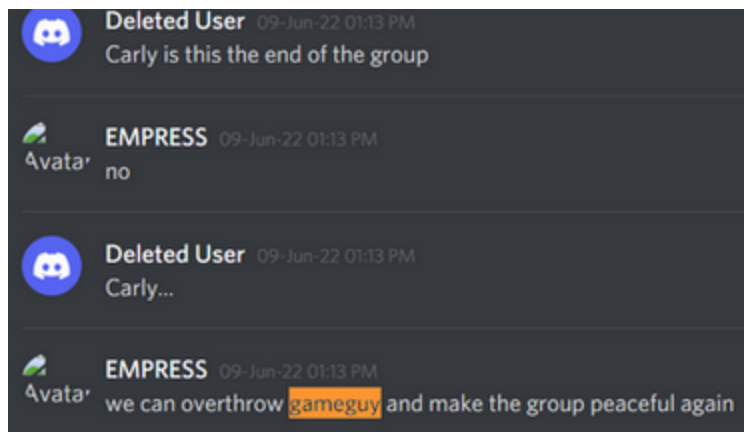

Discussing something I was deeply disgusted about

Gameguy and Scarf were both 13 and 14 respectively at the time. I know at the time you found it “oh no this is gross” because you thought Gameguy was 17, but that was the past and this is now.

You dated a 13 year old when you were 17. Clearly, even you agree that something is wrong with that. You should have known not to date him after he admitted his age.

Now, next part...

You wanted ownership of the GC, as seen here.

Maybe that's half of why you originally dated him, but apparently you liked him so much that you wanted to flirt with him and abuse what you could see as legal loopholes with him, as well as stay in an NSFW GC with him, even after you knew he was 13.

(See: [Evidence Against 608/Carly](#) for more information)

You still haven't explained this shit. At all. Why should I care about your excuses when you clearly were into him and you haven't explained anything that goes against that?

As for the "Gameguy is insane" part and the "he's making me uncomfortable" part...

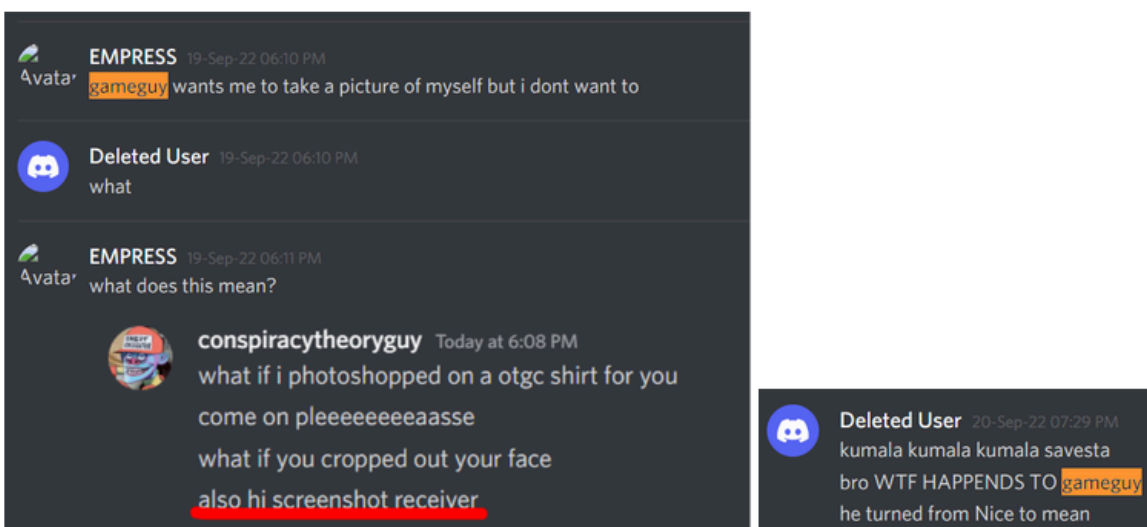

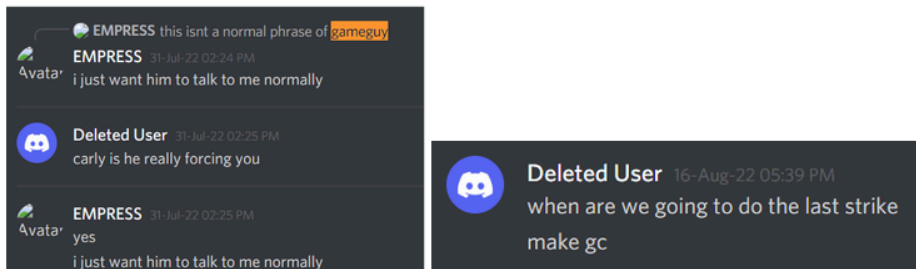

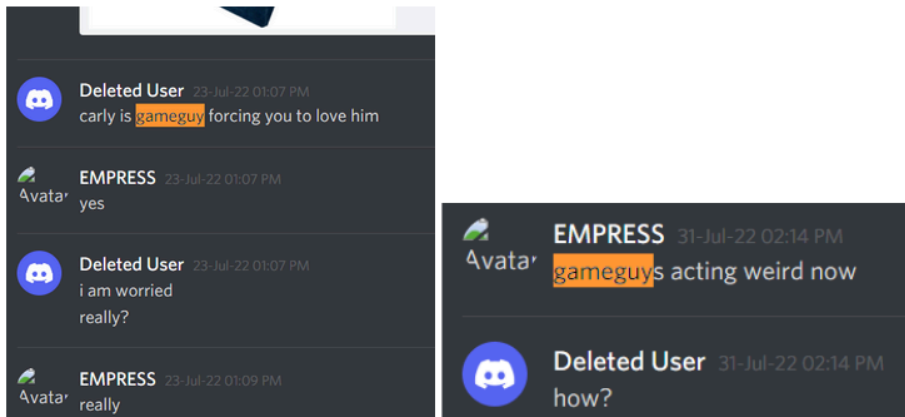

TELL HIM YOU FEEL UNCOMFORTABLE. YOU NEVER DID THAT. EVER.

Gameguy is a 13 year old and obtained a crush on you. He's also autistic, so that explains the weird way he went about it. Of course, not autistic people are like that, but as an autistic person myself I can say we can be pretty weird with the way we try to get relationships, especially while young.

You did not know his age then, but you do now and you know it's not something that makes him a bad person, so why are you blaming him and

“calling him out” for it other than to save your own skin when you’re the one who made the mistakes?

Gameguy doesn’t even act like this anymore...

Empress = 608, Deleted User = Wafkee

LOL he knew you were screenshotting it i mean sorry back to professional angry man mode

Ahem

If you don't want to, tell him. I feel like I'm repeating myself...

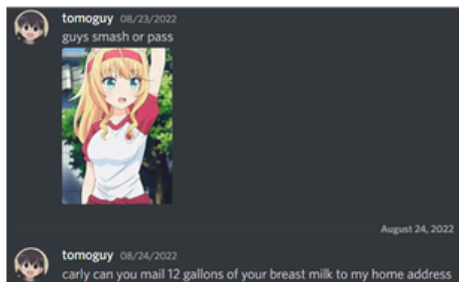

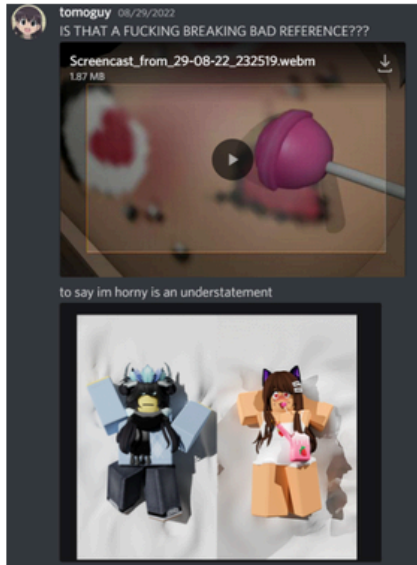

Did you tell him? I don't see anything in these screenshots indicating you did. Or in OTGC. Or anywhere.

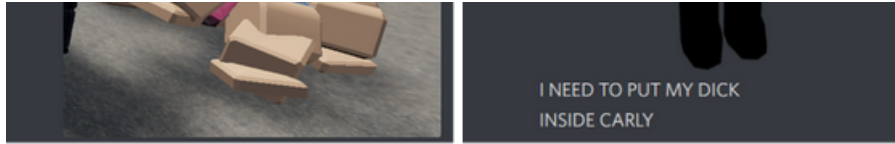

If you feel uncomfortable fucking tell him what do I even say here it's just the same shit

#4 Uncomfortable Behaviours

Part #4 | Uncomfortable Behaviors

I'll let the images speak for themselves here.

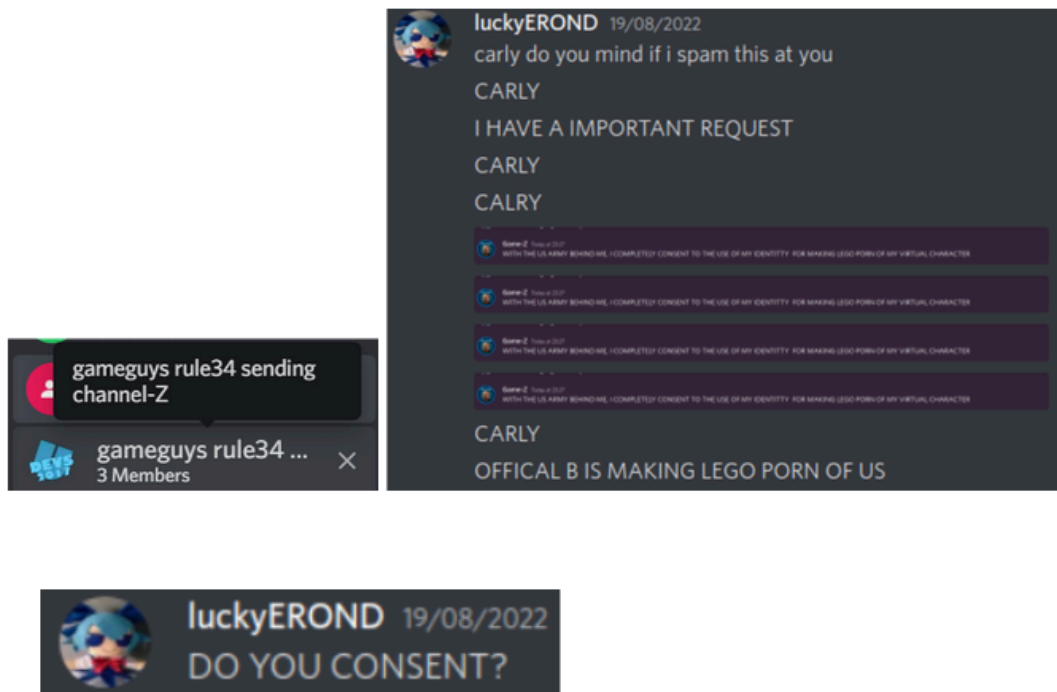

This shit is weird, but you never told him you felt uncomfortable. You never told him to stop. He's a 13 year old autistic child. Of course he's

weird. Of course he's sexual. He doesn't do this shit anymore. Jesus, what do I even...

I'm really going to have to repeat myself for all of this, aren't I? This is sad...

Some key points:

- As you can see, Gameguy continuously made these sexual jokes even when I didn't respond to them (which is a sign I didn't want him to make them)
- It's all Gameguy being sexual meanwhile I just tried to change the topic or ignored it

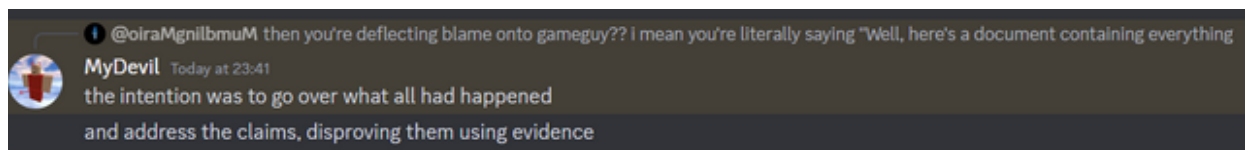

A few other things to note:

- Rendering porn of Roblox avatars of OTGC members
- Screenshotting my avatar whenever I was on the ground or crawling
- Intrusive questions

You forgot to mention that you **AGREED** to the lego porn. You cropped that shit out!

jarly mcfarly the carlieth was gameguy's friend nickname for 608
luckyEROND is gameguy

And she says she's disproving "disproving the claims"?! You're literally cropping shit out in order to make it sound better for you! My previous documents have been out for ages now, you should have access to that full screenshot since it was in there! Post the full thing!!

Anyway, the key points are dogshit.

"It's a sign I didn't want it"...

Why do you need a sign? You could have literally just said... “Sorry, but can you stop being so sexual around me? I find it uncomfortable”. He would have stopped...

“It’s all Gameguy being sexual meanwhile I just tried to change the topic or ignored it”...

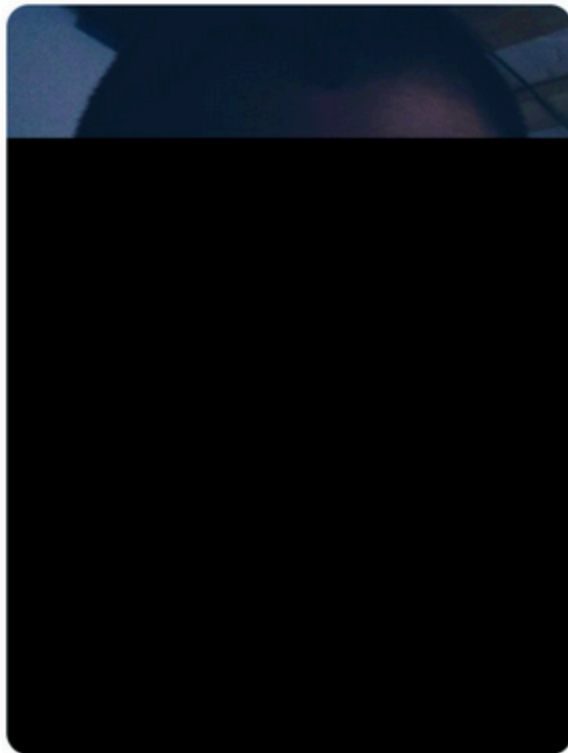

I mean yeah, you cropped out the part where you literally encouraged it...

“Rendering porn of Roblox avatars”

Very weird. He doesn’t do that shit anymore... he was 13. There’s no reason to call him out over this. It isn’t “your side of the story”. This is just you bashing a 13 year old for doing shit you allowed him to do and even encouraged.

It's just a joke... from a 13 year old...

Actually, hold on.

Gameguy being replied to by 608. You didn't find an issue with it back then, apparently. :/

Literally a Ren and Stimpy joke. A show. For children...

Also, the fingering thing was said by people who are around the same age as Gameguy. Not by a 17 year old.

#5 Addressing Claims

Part #5 | Addressing Claims

There have been loads of bullshit spreading around. Read these before you make your opinion.

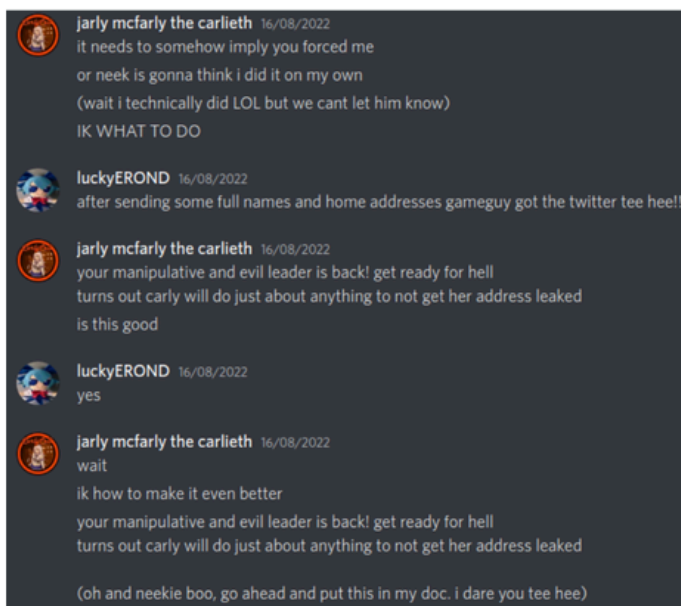

Already a red flag... calling it “bullshit”? It’s factual, no? That you’re a pedophile? I mean, I proved it in the documents linked at the start of the document. Trying to say Gameguy manipulated you and that you’re not the manipulator is the “bullshit” in my opinion. That’s why this document/other documents exist... you’re manipulative and people need to make entire documents on you to combat misinformation.

I said stuff about the truth before. Personally I believe in the truth. You don’t. It’s obvious that you don’t. It’s been made obvious in this very document. That’s why I don’t see this document being made in good faith. It’s literally of a 13 year old child, and you barely made mention of that fact in here so far. (If at all...)

#5.1 Manipulation

Part #5.1 | “Manipulation”

This subchapter is in regards to the OTGC Twitter account incident.

Cukesim, in his document, spread a statement claiming I had forced Gameguy to help make him think he forced me to give the OTGC Twitter back to us.

This will need some context. So during the time Cukesim wanted to destroy OTGC, he took our Twitter account. This image was Gameguy and I finding a way to give it back to ourselves, as we were the rightful owner. The reason it needed to “imply” I was forced is because, we all know Cukesim, he would have made our lives a living hell otherwise (which he eventually did anyway).

As you can see, there was no forcing. Gameguy himself was giving the ideas too and I was adding on.

You knew he was 13. You knew he was autistic. You knew he loved you. You got him to help you with your plan anyway.

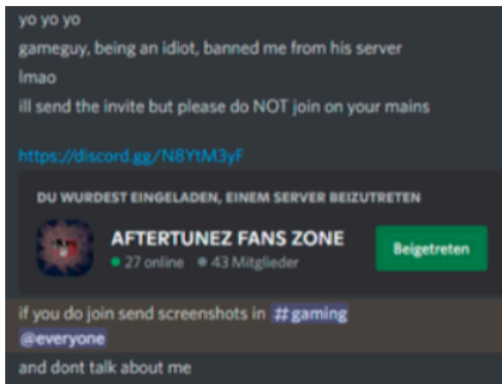

He was vulnerable, you used him in order to not have to tell Cukesim that you don’t love him. That’s literally it.

He went along with it because he loved you. He shouldn’t have done that at all.

#5.2 Attempted Server Raid

Part #5.2 | “Attempted Server Raid”

This section will be quick, as there’s not much to talk about here.

You may have seen this screenshot. As with basically everything, it was yet again twisted to make it look like I was attempting to get the server nuked.

The reality is that I was trying to make sure Gameguy wasn’t spreading any lies about me to his fanbase, which can be seen by the “if you do join send screenshots in #gaming”.

Nowhere was “nuke” or “raid” brought up here. On top of that, I shortly deleted the announcement.

You pinged everyone. Pinging everyone would, in fact, cause a lot of people to join his server. People in the server supported you.

You said “don’t talk about me”, which means you knew it was fucked up and you didn’t want to be associated with it. You also deleted it. Which also means you knew it was fucked up.

You could have asked a single spy to take screenshots. You could have done something more private.

So why did you do SPECIFICALLY an @everyone ping? One that would bring a lot of people into the server?

Also the, “DO NOT join on your mains” thing implies you want all of them to join at once with alt accounts... sounds like a raid to me...

Also the “gameguy, being an idiot” thing makes it pretty clear your intentions were not as simple as “trying to make sure Gameguy wasn’t spreading lies about me” because you showed malice... you were literally insulting him...

Something as not malicious, more paranoid as “just gotta make sure he’s not lying” wouldn’t be cause for an insult, would it?

But what do I know. Maybe you’re an innocent angel here.

#5.3 Sexual Activity Coming From 608

Part #5.3 | “Sexual” Activity Coming From Me

Basically their one piece of evidence is the image below, which can easily be disproved.

Their key point is the "Would we all be in the same bed", which they are twisting to be sexual.

Just look at the image, Gameguy was making some nonsense story. Sadly, this group chat is long gone and the only image they included of the conversation excluded much of the beginning, to purposely try and twist my question into being something sexual.

I hate this.

I fucking hate this.

He was not making up some nonsense story, 608. He edited it because he was embarrassed about the contents. It was inherently sexual, but he edited it out.

You are genuinely trying to cover this up now. You are malicious. There is no way around it. I'll post a screenshot of what gameguy thought he originally said.

Empress = 608, iceberg122 = gameguy

(Note: He can't remember the first one, so yeah. The second one makes it pretty obvious though. She even replied to it...)

Anyway, Gameguy often edits things he doesn't like people to see. This is an example of that. He is a 13 year old and I FULLY understand why he wouldn't want people to see this.

This is just more proof he's changed as a person, not proof of 608 being a good person.

Plus, the thing pointed to for evidence wasn't even the "Would we all be in the same bed" part...

I knew that it wouldn't be sufficient to just rely on edited messages.

Read this document if you want more answers on this:

 Evidence Against 608/Carly

Anyway, that was the most vile fucking shit I have ever seen and I am genuinely pissed.

Thank you, 608.

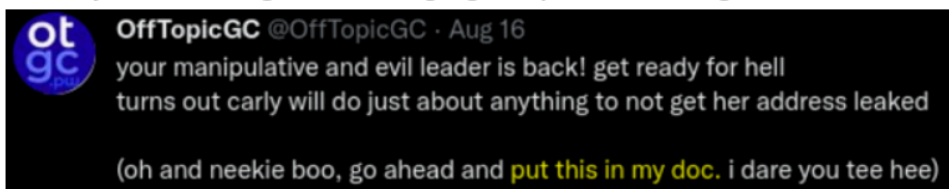

Onto the next one.

#6 What Others Have Said About Gameguy

Uh, okay? Sure... your side of the story.

Part #6 | What Others Have Said About Gameguy

You may be wondering about the highlighted part of this image:

Before this shit show started, quite a few people have made documents about Gameguy and many of his actions. It's funny how once Cukesim got a chance to make me out as a bad person, he dropped his grudge against Gameguy he had going on.

All documents provided will also be archived on 2 archiving sites (which will be linked as well) in case their owners try to remove them to hide the truth.

Note: These provide some other details and point-of-views of both things I have and have not mentioned here, and also serve as solid evidence to prove many of my statements. I highly suggest reading them all.

[About Neek And Gameguy Argue - Google Docs](#)
[WayBack Machine Archive](#) | [Archive.today Archive](#) | By GBA

That document was made by GBA ages ago, he does not support your actions. He just wanted people to stop arguing at the time.

Whats Going On?

Neek was recently got kicked from OffTopicGC because of

You can tell it's old because it says "recently got kicked". Cukesim/Neek has never been in OTGC since this incident. It happened months ago.

[Gameguy Expose Document 1: The Prologue - Google Docs](#)
[WayBack Machine Archive](#) | [Archive.today Archive](#) | By Cukesim

[Gameguy Expose Document 2: Attempting to Escape - Google Docs](#)
[WayBack Machine Archive](#) | [Archive.today Archive](#) | By Cukesim

This is ancient. Cukesim doesn't give a shit about Gameguy anymore, though you said that yourself.

I mean, you were the one who insinuated the grudge with Gameguy in the first place... you were telling Gameguy to post shit for you in order to keep an illusion that Gameguy was the big bad for Cukesim, while you were the one behind the scenes pulling the strings trying to pretend like you still love Cukesim because you were too scared to admit it.

Either way, I can't speak on behalf of Cukesim. Maybe he did it because he had a grudge on you. I don't see it as above him. (Sorry Cuke it's true!!)

Anyway, moving on.

#7 Schizophrenia

This name's a bit weird, aight...

Part #7 | Schizophrenia

Gameguy has been known to create a large amount of accounts just to start conversations with himself, and trick others.

An example can be seen in Gameguy Expose Document 2, linked above.

What is wrong with this, exactly? He's just a 13 year old having fun, no? I mean, I made an alternate account once to trick people and roleplay a bit when I was 13... it's not like I was literally summoning Satan using the account.

There's nothing wrong with this. Moving on.

#7.1 Alving and the Funkmunks

WHAT ARE THESE NAMES

Part #7.1 | Alving And The Funkmunks

Context: Alving and the Funkmunks is one of several cryptic "poorly done" projects by Gameguy. This one is rather concerning due to 2 things:

1. Joking about pedophilia and/or normalizing it (in several videos/songs).
2. The schizophrenia, which is what we are going to dive into here.

What? I mean... once again, he's 13... he's literally joking...

At the time that I was making my first document on you, 608, Gameguy had to be literally convinced that you were a pedophile. It sucked, and I was worried he was going to choose you over me and I would get kicked over it.

First of all, solid proof that it is ran by him:

He failed to realize how unhealthy and creepy it is, but he confirmed it was him.

Here are the kinds of conversation Gameguy used the account(s) for. Note that Terry Martini is also him.

Dont fucking talk like that!

Note that the GBA account is a fake one, also operated by Gameguy. He has done this atleast one other time, by impersonating Wafkee on YouTube.

Every person in this image is Gameguy.

Well, impersonating sucks. I'll give you that. He doesn't do that anymore though...

I don't get what the point of pointing this out is...

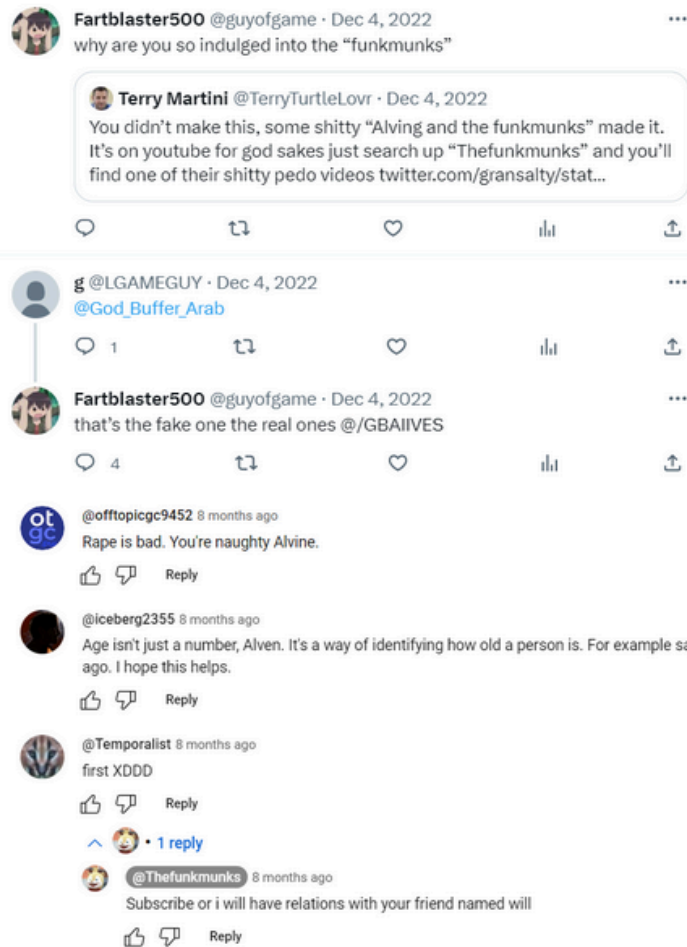

LGAMEGUY was an account by Gameguy dedicated to “exposing him” with fake information.

Other than being used in several Funkmunks conversations, this account is unrelated to the subchapter, and will not be further discussed in this subchapter.

LOL this is literally just a fucking joke account what do I even say

Once again, 13 year old. He doesn't do this shit anymore. Self explanatory.

#8 Gameguy's Stance on the Drama

Part #8 | Gameguy's Stance On The Drama

This is right there in front of you but nobody bothered to actually have common sense. Gameguy himself admitted that I am not a pedophile, several times, as well as even defending me a few times.

Replying to @neekcc

not trying to get on any sides but i only see you doing things, i'm not on carly's or yours side

whyopticgc is cool

Gameguy here; Carly isn't a pedophile

Perhaps 608 is right in her defense in which she says she is not a pedophile

Of course, legally, she is in fact not a pedophile

she cannot be considered a pedophile

Okay so the first image where he says he's not on anyone's side... this was while he was trying to figure this whole situation out.

It was when I presented the idea to him that 608 is a pedophile. He obviously took it hard, and wasn't sure what to do.

Eventually, he realised the seriousness of it all, but until then he was saying stuff like that.

As for the second image... that was after he accepted it. But, that was before we realised that you were actually genuinely a pedophile by law, so we couldn't say you were a pedophile at the time. We can now though.

(This document has more information on how she is a pedophile by law:  Evidence Against 608/Carly)

#9 TL;DR

Part #9 | TL;DR

This entire drama has been massively exaggerated without people doing research.

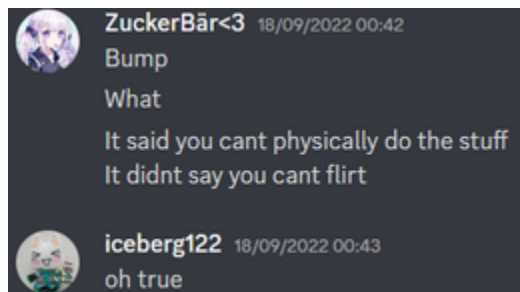

To put it short, Gameguy was a creep who forced me to “date” him. The true story was told in several documents by many people (which were saved in here by me for you to read), before this drama started. Once Cukesim got the chance to slander me, he quickly changed the story and that’s what it has been ever since.

This document may be updated at any time. Especially when more evidence is found again. I will notify of any new updates to the document.

Thanks for summing up your feelings. I can take a go at them now.

Gameguy was a 13 year old who did not force you to date him. Gameguy was clearly in love with you and you felt uncomfortable. You didn’t say anything.

When you learned Gameguy was 13, you kept dating him, and you kept encouraging him to “flirt” with you and to do more of it. I hardly think you said that you felt uncomfortable out of genuine discomfort, I think you said what you said just so you can get ownership of OTGC by playing the victim card.

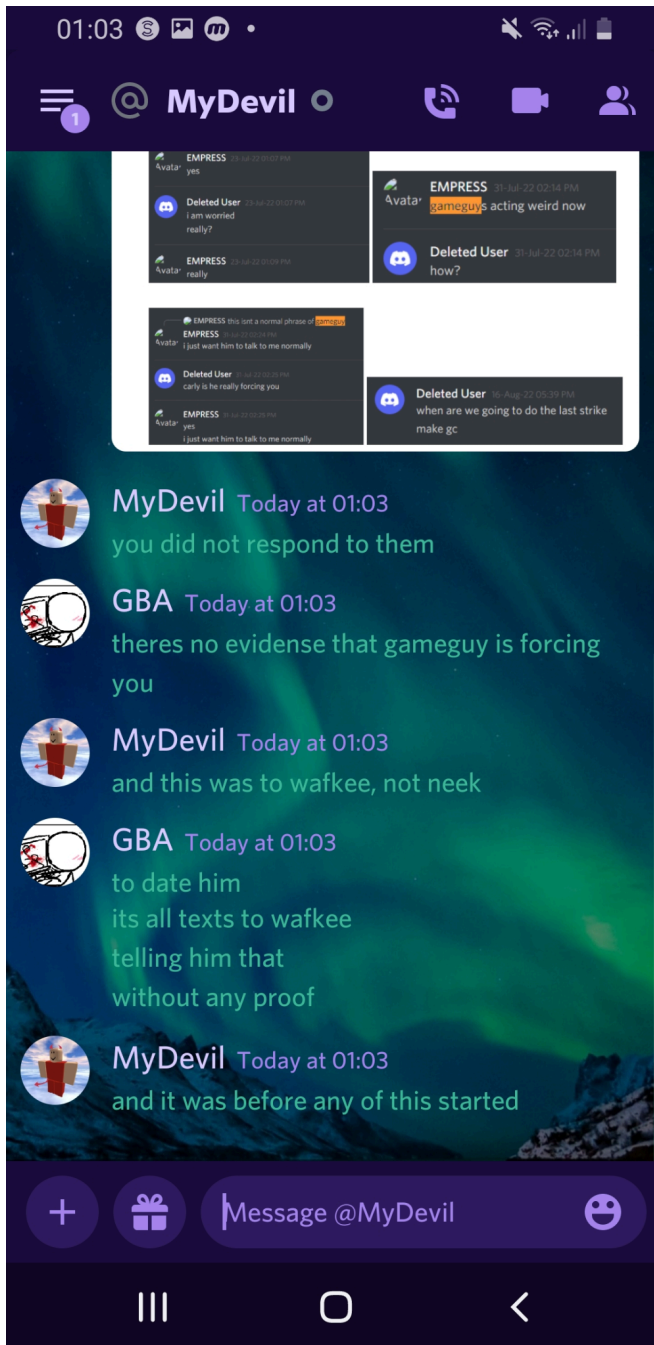

ZuckerBar is 608, iceberg122 is Gameguy

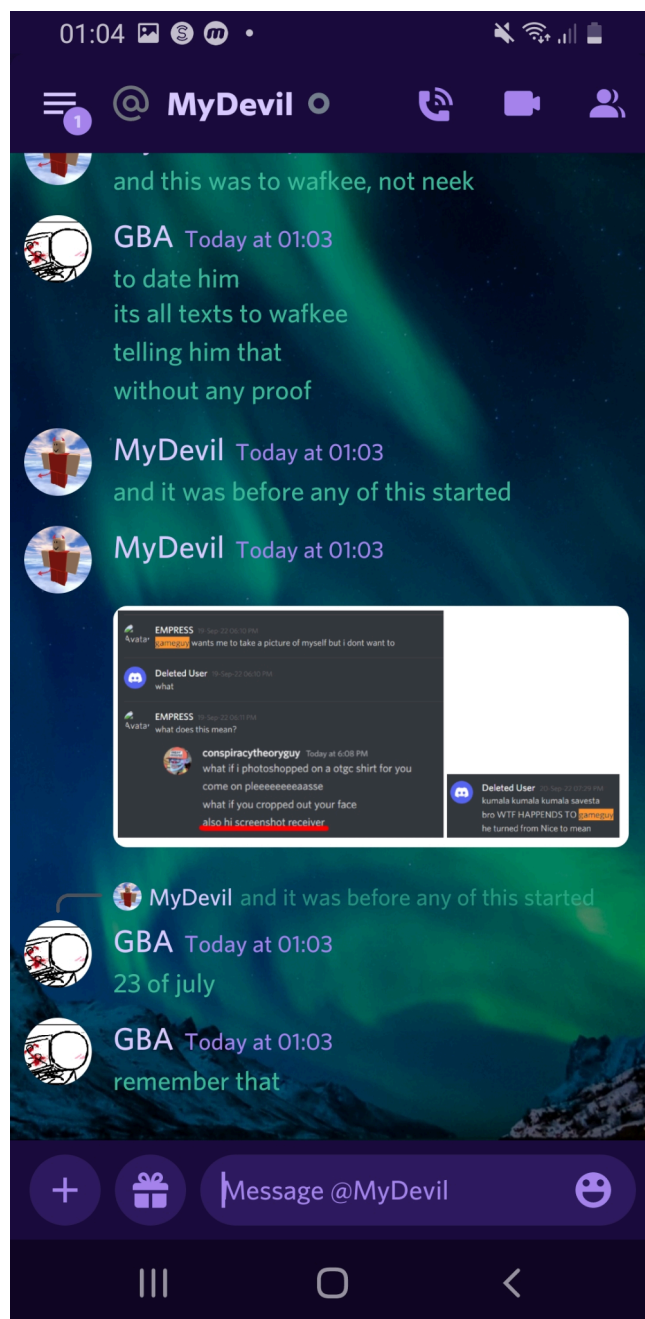

Cukesim did not make the first document on you. You know this. I made the first document on you. You keep spreading the story of “Cukesim is bad and he made documents to slander me because he could”.

No. This is a story of people realising you are a pedophile and a manipulator and coming together to stop you, using the documents to combat your misinformation. This is not a story about “poor 608 being beaten up by bullshitters 24/7 oh no!!”.

work for you. He's not going to get it to stop, is he? If you want it to stop, tell the guy who's making you uncomfortable...

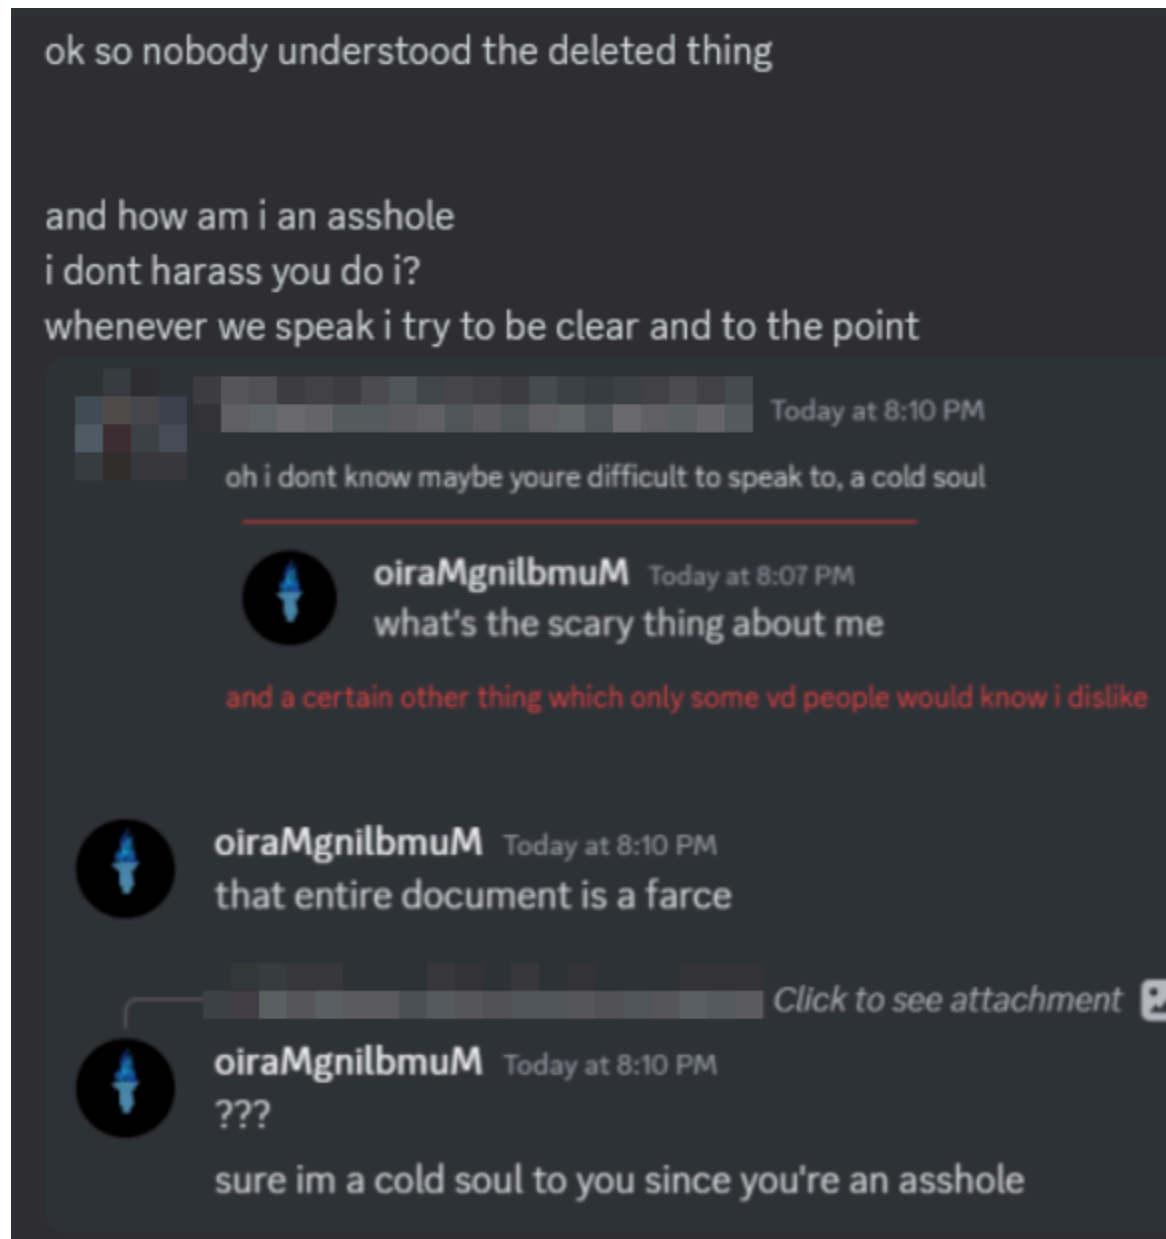

MyDevil = 608

This doesn't excuse your actions.

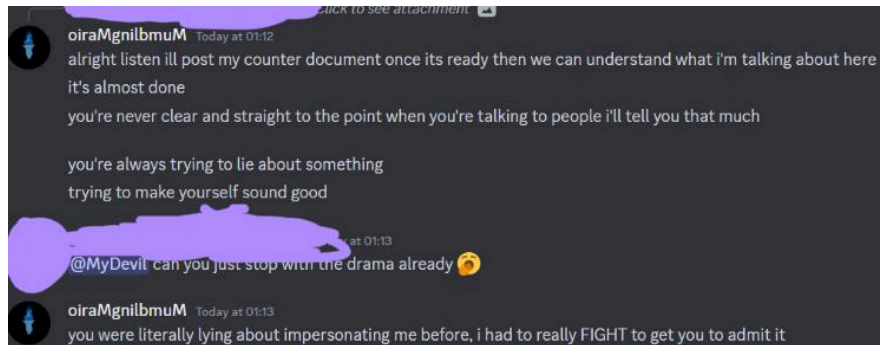

I'm sure GBA's arguments are enough to know she's bullshitting though. Her document is a farce. It is the "bullshit" that she calls Marblyn's document (which is actually way more credible than her own).

Other interesting stuff she said

I hope this document made it clear how you're an asshole.

Plus...

This isn't 608. This was basically being sent 608's responses from inside a server 608 was talking into his messages in a GC where 608 could see his messages and could respond to them anyway.

Don't ask. I don't know why 608 didn't just straight up start a conversation in the GC either. Maybe it's related to what she told GBA, I don't know.

Conclusion/TL;DR #2

IF YOU FEEL UNCOMFORTABLE, TELL THE PERSON ABOUT IT.

GAMEGUY WAS A 13 YEAR OLD AUTISTIC CHILD, WHAT DO I EVEN SAY?

THIS ISN'T EVEN A CASE OF "I'M NEURODIVERGENT SO UMMM I CAN'T BE LIABLE" IT IS LITERALLY A CASE OF AUTISM AND CHILD BEHAVIOR THAT WASN'T BEING FOUGHT AGAINST BEING CALLED OUT LIKE 90549509 YEARS AFTER IT HAPPENED??

AS SOMEONE WITH AUTISM, I CAN SAY, IT IS HARD FOR US TO GET SOCIAL CUES. IF YOU IGNORE HIM, HE WON'T KNOW, SO YOU SHOULD HAVE TOLD HIM ABOUT IT AND HE DEFINITELY WASN'T FORCING YOU!!

I'm going to be honest here... after reading the entire document I'm pissed.

Never in my life have I seen something so fucking carefully planned to mislead people. Not everyone in the ORC knows about my document, and if they saw 608's document first they would probably believe her...

And plus, she knows the ORC, and she knows Gameguy would be hit in the crossfire if it went her way, and also knowing that the warning at the start was just for fluff, considering she's said she doesn't care about Gameguy being doxxed before and literally doxxed him herself...

608. You are one of the worst people I have met.

I've known it for a while, but I can say it once again with absolute certainty.

You are literally one of the most shitty people I have met. Congratulations. You've hit the top of the charts. Maybe not in the way you'd want though.

Anyway, that was all. I hope you read through all of this stupidity. If not, the conclusion is a good TL;DR on my thoughts. (Well, other than the TL;DR at the start...)

I don't hate anyone listed in this document.

Chapter 10: Sexual Harassment

Chapter 10: Sexual Harassment

ColtonGulliver/Spitzly

The targeted user goes by it/its so if I misgender it, my apologies. I'm not used to those pronouns.

Before reading this part, I ask for you to [read the document made on Cole](#) as well. It's also a groomer.

12/23/2024: Just a quick clarification that this person and 'ViktorColeHTF' are not the same person. Both are very terrible people but they are not the same person. This has gotten into confusion as I've had wars with both of them. Carly has accidentally called Viktor 'Colton', being confused with this person.

Context

Carly didn't groom anyone on this part (Cole is the same age as Carly), but just recently as I am writing this, someone sent her a face of Marble's recently ex partner (Cole) to her, and she immediately started sexualizing it's face, making a lot of dirty jokes about it with zero consent whatsoever.

Carly would then make Cole a mascot of NiceYomi's GoodBlox revival, and would continue on sexualizing Cole.

Carly is lying about the mascot being a "noob". It is not a noob. She started lying about that when I added screenshots into the document, and would then continue on making sexual comments at Cole.

I asked sadsad to ask Carly to stop making sexual comments at Cole (i hate both Cole and Carly alot) and this was the result;

QUICK STATEMENT

If you haven't noticed, Carly will delete messages once there's evidence added in this document, hence why some screenshots has red text (because the people that sends screenshots use client mods, which has message loggers).

So because of that, if there's specific evidence we're looking for, it won't immediately be put in this document. It will be put in a private document for further investigation.

Interviewing Carly

Hi there, my name is brycethefunny, a normal internet user, just like you, my goal on the internet is to make games, play them, make jokes, have fun, and make it a **safe** and **better** place.

What does this mean?

This means I am a ‘semi-vigilante’, I like to get facts for myself to conclude things, I always take both sides into account, and I try to get in contact with the original people to then form my conclusion.

Recently, I’ve been made aware of a case by a friend group. I got interested and instantly horrified by [what I saw](#).

Of course, right under it stated:

gameguy (13) (MIOFAN in the photo) since edited his messages, but as you can see, 608 (17) (Nepgear in the photo) is seen messaging gameguy "Would we all be in the same bed".

I won't say what was originally said before gameguy edited the messages, since he wanted it to be private, but it was something sexual.

However, in my personal beliefs, if you, a 17 year old, (LEGAL IN YOUR STATE), talk to a 13 year old (ILLEGAL ALMOST EVERYWHERE) saying "Would we all be in the same bed", I think you are a genuine CREEP.

Of course, it'd be different if say, gameguy was 16 in this instance, and carly was 17, and they both where in South Carolina (Carly stated to me that she was in SC), that it'd be fine as both of them were above the age of consent in SC, as it is 16.

However, that is not the case, which is genuinely disgusting, for my beliefs that is.

My beliefs are as stated:

"If it's legal in that state/country, then it is ONLY legal in that state/country, NOWHERE ELSE."

That is why I treat lolicons as pedophiles as well, as lolicons are usually always under the ages of 14-15. And almost everywhere in the world, that is ILLEGAL.

The age of consent is the age at which someone is legally able to consent to sexual activity. The age of consent varies by jurisdiction, but most jurisdictions set it between 14 and 18 years old. Some countries have lower ages of consent, including:

- Nigeria: 11 years old
- Philippines and Angola: 12 years old
- Niger, Comoros, and Burkina Faso: 13 years old
- Argentina and Western Sahara: 13 years old
- Mexico: 12–18 years old

In the United States, the age of consent varies by state, with some states setting it at 16, 17, or 18 years old. For example, over 30 states have an age of consent of 16, including Alabama, Colorado, Georgia, Louisiana, and Nevada. Some states may also have laws that apply to close-in-age relationships, such as Romeo and Juliet laws, which provide legal protections for minors who have consensual sex with a partner who is close in age.

There are only a FEW exceptions, and even then, the populations that have a lower age of consent are LESS populated, meaning that they most likely NEED a higher birth rate.

However, I **do not** and will **NEVER** condone CP.

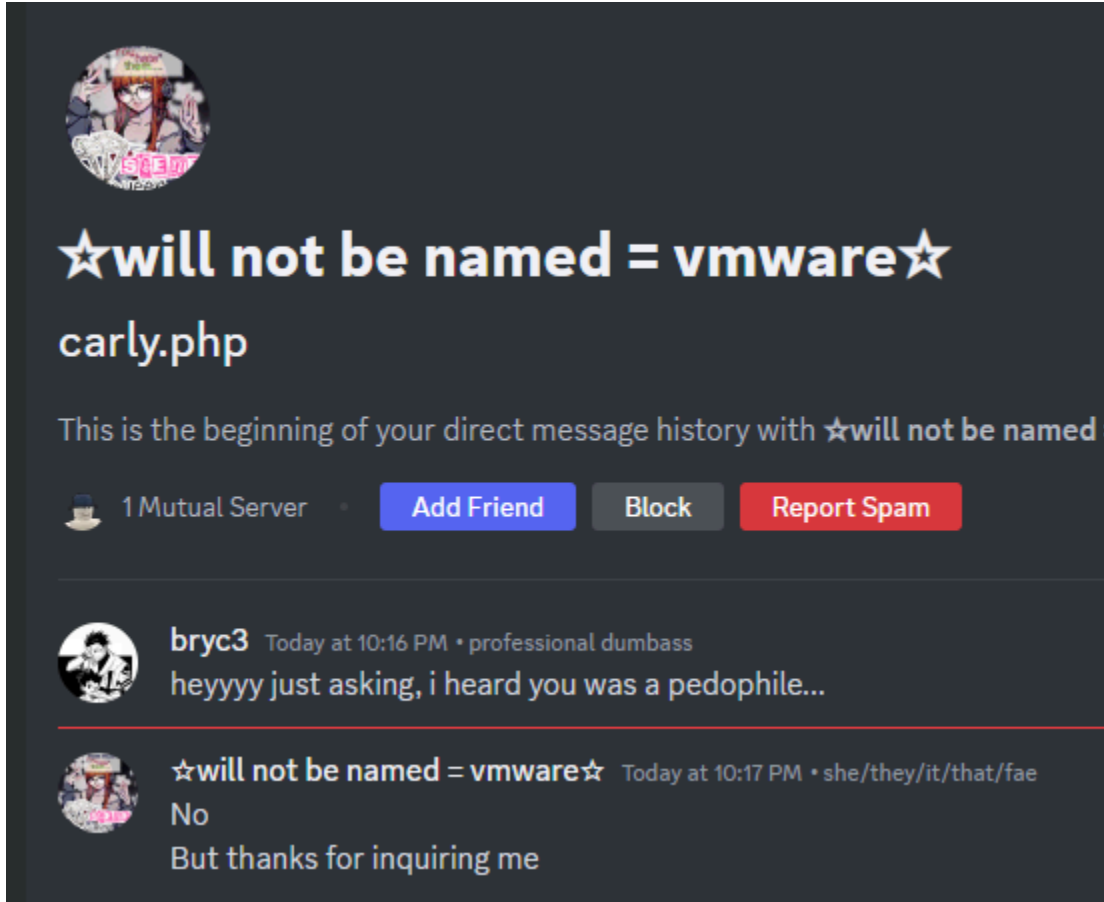

I believe that, if **said country/state** is in need (for example, Japan, Shinzo Abe Era) then if somebody is **above/is** the age of consent **IN THAT COUNTRY/STATE** and **DOES CONSENT** then it is fine to reproduce **ETHICALLY ONLY IN THAT COUNTRY/STATE**.

I do **NOT** condone the sexual fetish or sexual desires of using somebody younger as a mere “sex partner/buddy”.

This interview was mostly screenshotted and shared with kitproj, shortly before i tried to download the entire chats, but my pc crashed as I opened applications too fast, however, I quickly grabbed my phone and screen recorded the conversation (and how carly.php was LIVELY deleting messages). Below are the screenshots and screen recording:

you have literally NOTHING to back you up 🤔

bryc3 on the doc i sent

☆will not be named = vmware☆ Today at 10:20 PM • she/they/it/that/fae

Most of it is fluffed out with stuff unrelated

Like a username list

Or random drama neek had with others

This clears up everything that's actually related to the claim

And provides proof/sources

bryc3 Today at 10:21 PM • professional dumbass

ah yes username lists that point to a pedophile are "unrelated"

ah yes, telling people to be safe is

"unrelated"

is that what you're saying?

☆will not be named = vmware☆ Today at 10:21 PM • she/they/it/that/fae
I assume you haven't even properly read his document

bryc3 Today at 10:21 PM • professional dumbass
and i assume you are quite insane

☆will not be named = vmware☆ Today at 10:21 PM • she/they/it/that/fae

bryc3 Today at 10:22 PM • professional dumbass
are you going to answer my previous question?

And then message me again

nah nah nah why you dodging the question?

☆will not be named = vmware☆ Today at 10:22 PM • she/they/it/that/fae

☆will not be named = vmware☆ Today at 10:24 PM • she/they/it/that/fae

bryc3 Today at 10:27 PM • professional dumbass

It was purposefully stripped of context to make it seem sexual
This was already explained in the doc

bryc3 Today at 10:50 PM • professional dumbass
either way, it can be getting too close
and can be sexual
why would YOU
a 17 year old
at the time
want to be
with a 13 year old
in a bed

 bryc3 in a bed

☆will not be named = vmware☆ Today at 10:51 PM • she/they/it/that/fae

That is in no way what was being implied

Please read through the resource I have given you

bryc3 Today at 10:51 PM • professional dumbass

are you

fucking kidding me

that's in no way being implied!

☆will not be named = vmware☆ Today at 10:51 PM • she/they/it/that/fae

And you would see such

bryc3 Today at 10:51 PM • professional dumbass

YOU SAID RIGHT THERE

"WOULD WE ALL BE"

"IN THE SAME BED"

☆will not be named = vmware☆ Today at 10:51 PM • she/they/it/that/fae

Do I have to copy and paste

bryc3 Today at 10:52 PM • professional dumbass

me neither

yet you are too retarded

to understand

that you said

WE

as in

YOU INCLUDED

a SEVENTEEN YEAR OLD

talking to a

THIRTEEN YEAR OLD

☆will not be named = vmware☆ Today at 10:52 PM • she/they/it/that/fae
Their key point is the "Would we all be in the same bed", which they are twisting to be sexual.

Just look at the image, Gameguy was making some nonsense story. Sadly, this group chat is long gone and the only image they included of the conversation excluded much of the beginning, to purposely try and twist my question into being something sexual.
The phrase did not even have relation to sleeping together or other such sexual stuff

bryc3 Today at 10:53 PM • professional dumbass
yet, you still said you wanted to be in the same bed.
does that not sound
strange?
creepy?
weird?
pedophillic?

☆will not be named = vmware☆ Today at 10:53 PM • she/they/it/that/fae
If it was said literally
And not taken out of what truly occurred

bryc3 Today at 10:54 PM • professional dumbass
even if it was not "literally" (🤔) you still should have a moral obligation not to say that to a fucking child

☆will not be named = vmware☆ Today at 10:54 PM • she/they/it/that/fae
In addition, such also occurred before their age had been publicized

bryc3 Today at 10:54 PM • professional dumbass
so since they're age wasn't publicized
you still had the audacity
to 1:
date the dude
2:
say messages like
the bed one

bryc3 date the dude

☆will not be named = vmware☆ Today at 10:55 PM • she/they/it/that/fae
Do remember I had been lied to regarding their age
That is how it even began

bryc3 Today at 10:55 PM • professional dumbass
do remember: that you should always double check with somebody YOUR FUCKING DATING

Below is the screen recording I took, **PLEASE SLOW DOWN OR PAUSE TO READ.**

I would also love to argue how I would have “faked” it on the screen recording! So, Carly, please do reach out to me again to argue how this was faked even though I recorded it using the Discord **app** on the phone!

This is a Drive Link, please dm me on discord (brycethefunny) if it does not work!

Final Screenshot

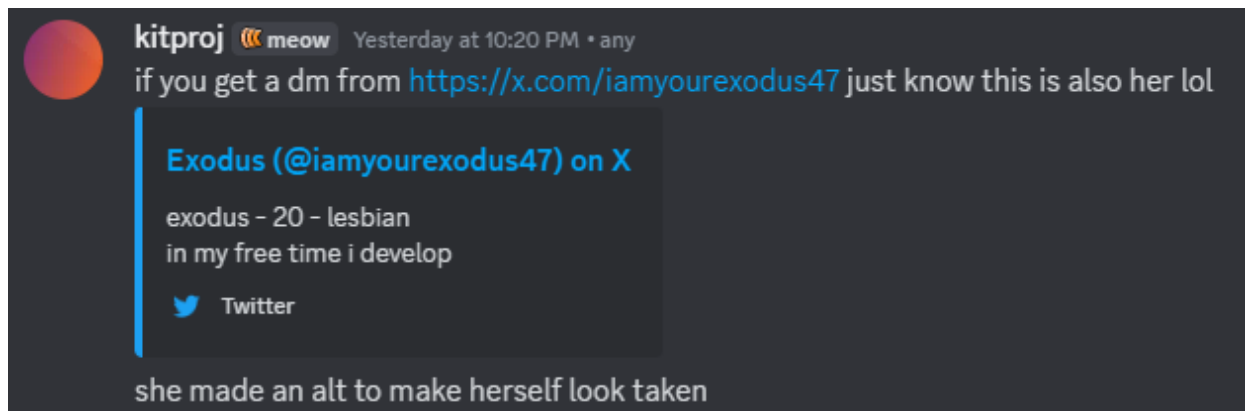

I was shortly blocked after **satirely** saying that the reason I thought she was a pedophile was because she was trans.

This is not the reason.

The reason is because there are HEAPING piles of evidence against her, stating that she is a pedophile, and over all a bad person.

Misc

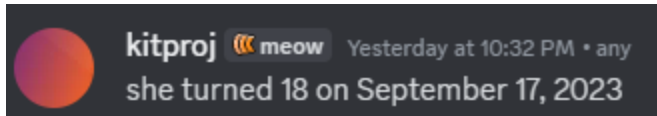

Below are **MISC** options, and should be taken as either evidence or comments.

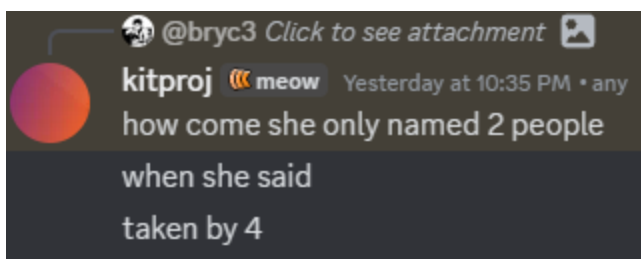

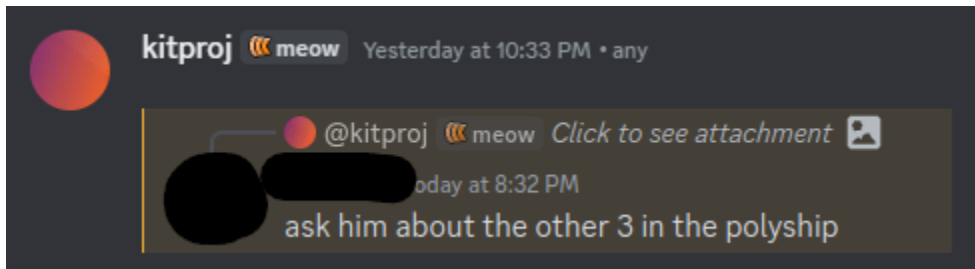

Kitproj giving me one of Carly's alt accounts

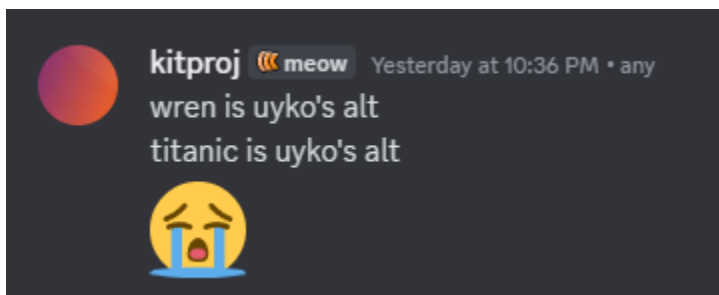

Both Kitproj and I agree that she may be insane for thinking common sense is “weird logic”.

The date Carly turned 18

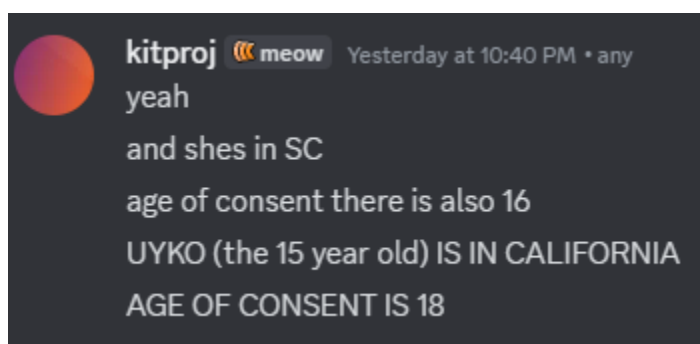

Carly appears to be poly

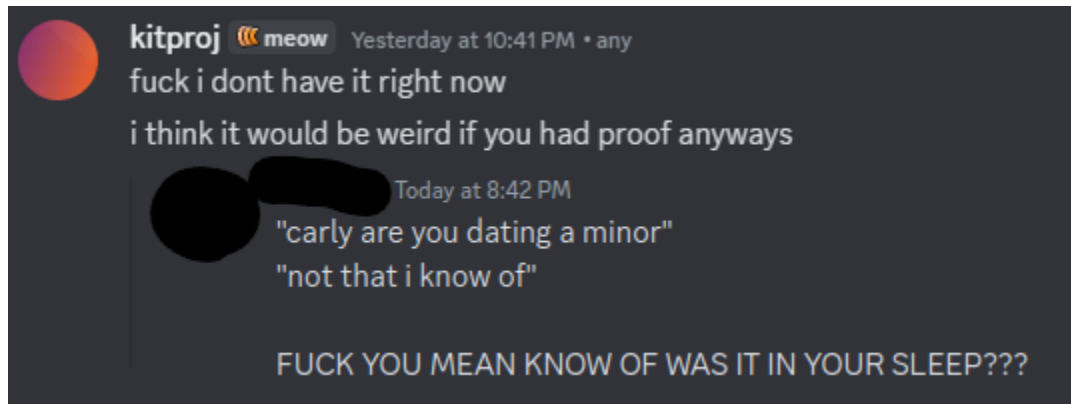

Uyko's alt accounts

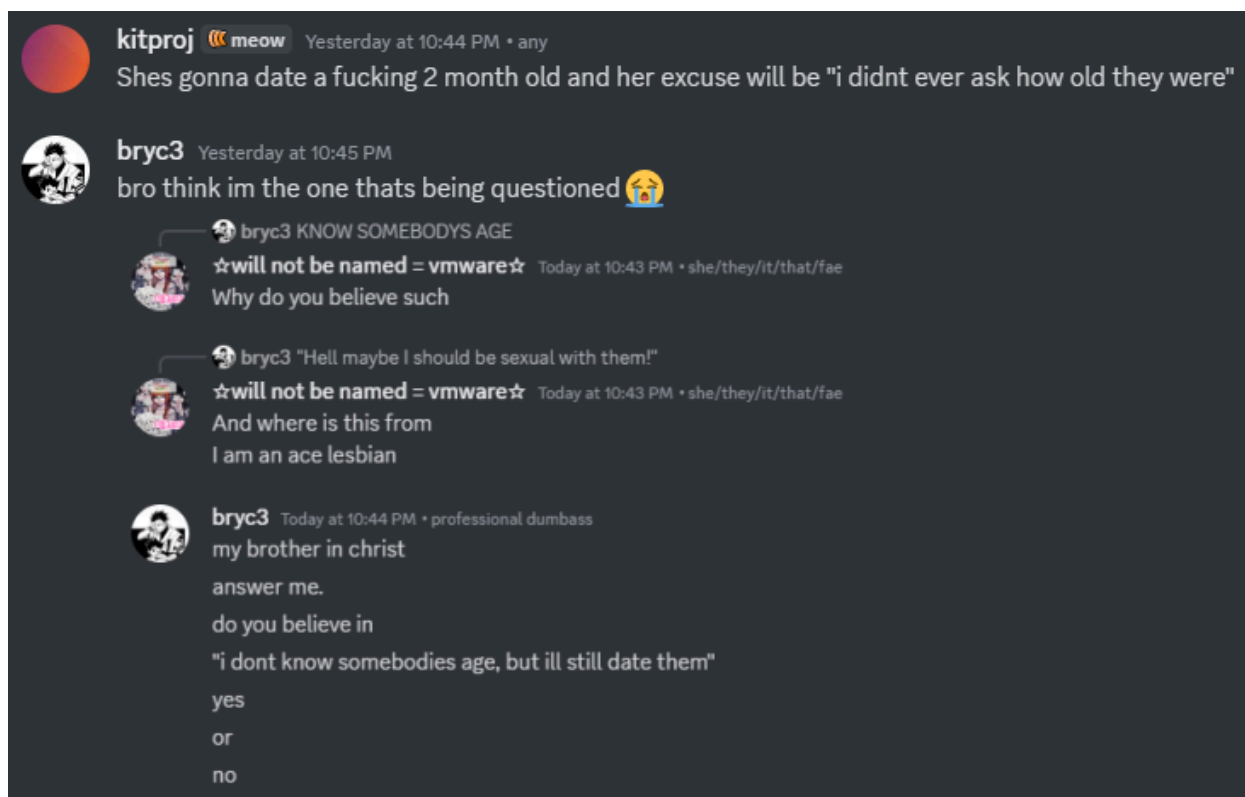

Kitproj and I bring up how she can not give a number. (At the time of questioning)

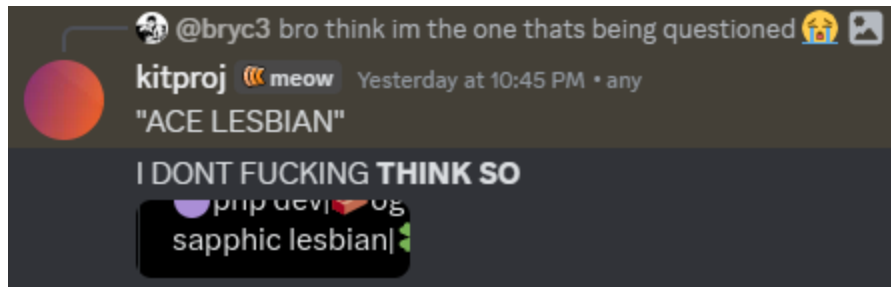

AOC for both Uyko and Carly are different.

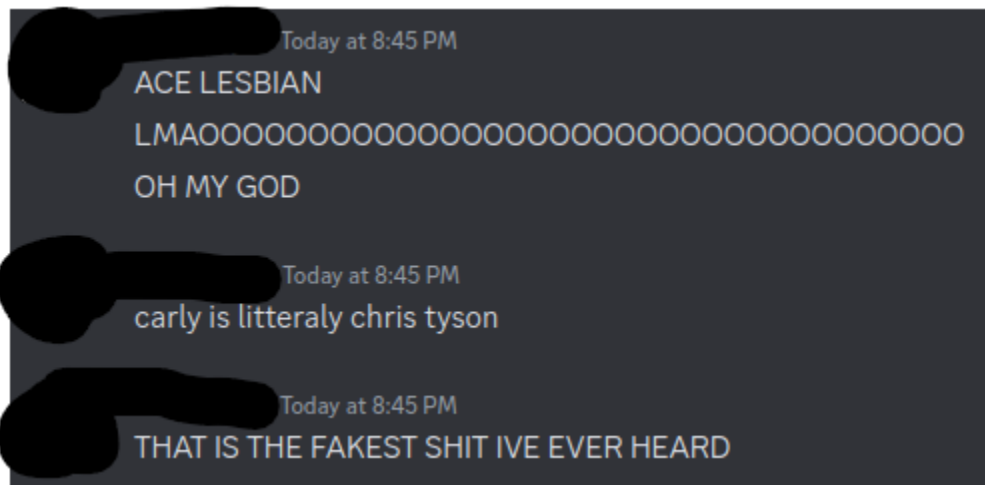

Carly seems to be slightly careless about ages.

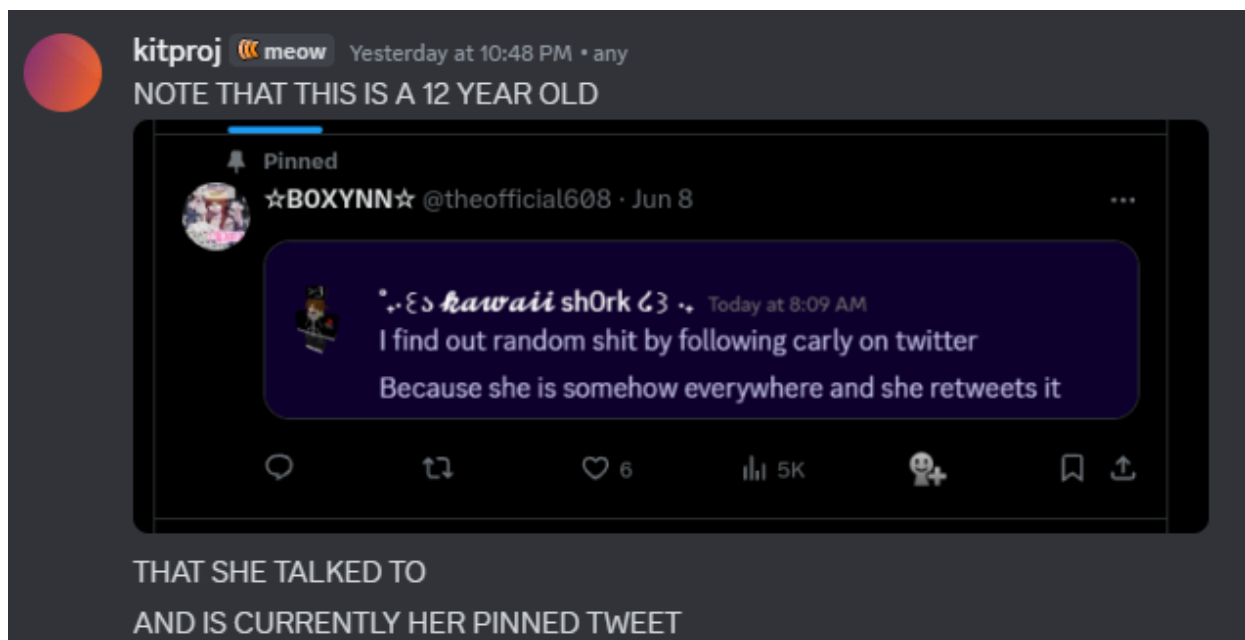

Carly likes to dodge questions a lot, even though she is the one being questioned.

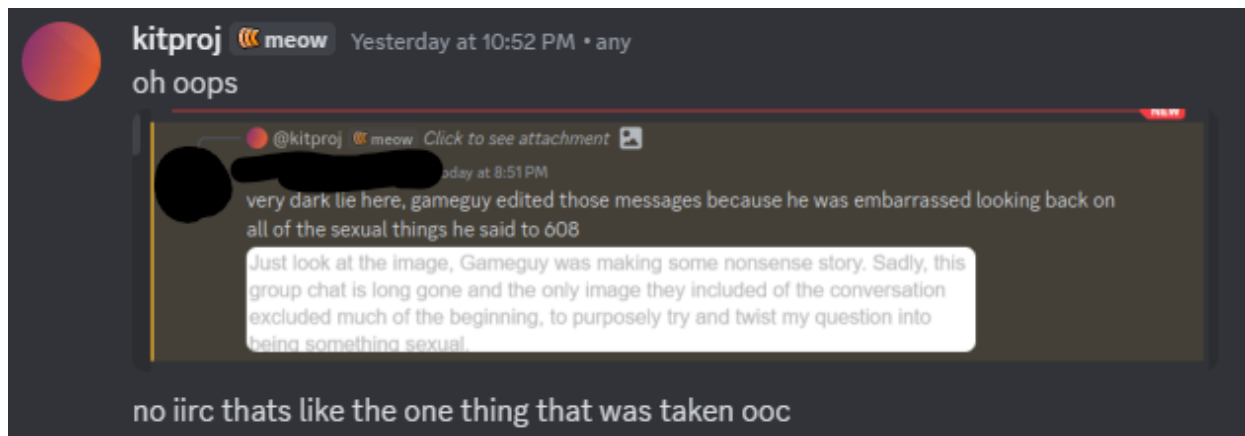

Poking fun at the fact Carly is lying and doesn't even hide it.

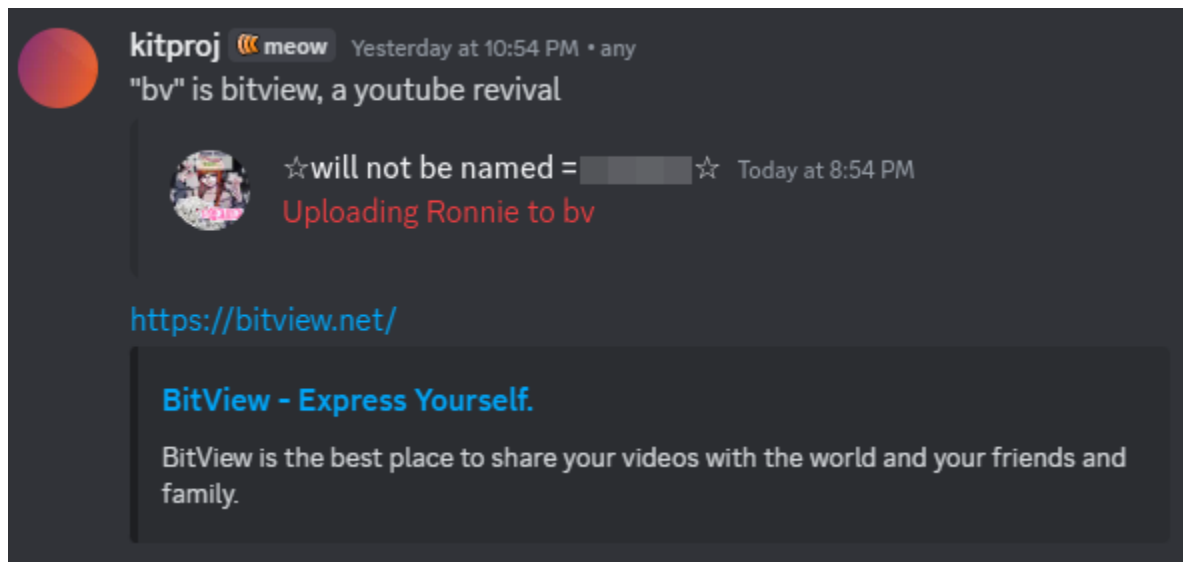

Comments

Carly seems to love getting cupcakes.

While I agree it's fine to edit messages **as a victim** to feel less embarrassed, that does **not give permission to Carly** to say "Would we all be in bed" as it is still extremely weird to say to a child.

Carly seems to be careless about loss of people who actually suffered

Chapter 12: Leaking Confidential Information

Chapter 12: Leaking Confidential Information

This chapter has been broken down into subchapters. If you would like, please go to the following subchapters below:

- 12.1: Data Leaks
- 12.2: Other Private Leaks

Chapter 12.1: Data Leaks

Chapter 12.1: Data Leaking

This subchapter is made because Carly is now notable for being involved with data leaks and breaching personal information, also threatening to leak other people's personal information for wronging her. This is why you shouldn't trust Carly with any sort of information. Though she states that your personal information won't be leaked when joining her projects, **this pretty much proves that it's not the case at all.**

Bitview

This chapter was made because on 12/14/2024, Carly got her hands on the Bitview database and started threatening people with their personal information.

If you have registered for Bitview before May 14, 2024, you have possibly been affected by this data leak.

However, passwords on Bitview are hashed and salted. We still recommend changing your passwords on Bitview to stay extra secure, just in case.

How this leak happened

Note that this story has changed several times, so I'm instead going to document this based on what I've heard from the Bittoco owners and Flowerz.

After Evie was fired in May 2024, the database was shared to Chaziz and someone else. And the database would be spread around several other people. Flowerz then states that he also had the database since June.

On December 15, 2024, Carly would get her hands onto the database, and DM some people threatening with their information. She then DMed Sergio about it (Sergio has **zero** involvement in this and Carly likes to involve him in these crazy situations).

Carly threatening people with their data

After she got her hands on the entire database, she has been boasting about having famous people's information and that she is willing to spread the leak to more people.

To troy@troyhunt.com

14:33

Troy,

Yesterday on the 14th of December 2024 the website BitView.net suffered a data breach. An export of its database taken on 14 May 2024 was leaked to the public containing all passwords, ip addresses, emails, private messages, user data, video data, comments, interactions, etc. made prior to 14 May 2024. The passwords are hashed and salted per industry standard for passwords. The leak was not the result of a hack but rather a disgruntled former administrator.

Chapter 12.2: Other Private Leaks

Chapter 12.2: Other Leaks

Carly has been known for leaking (or threatening to leak) other sorts of information, for example, the Gummibär leaks. Speaking of which,

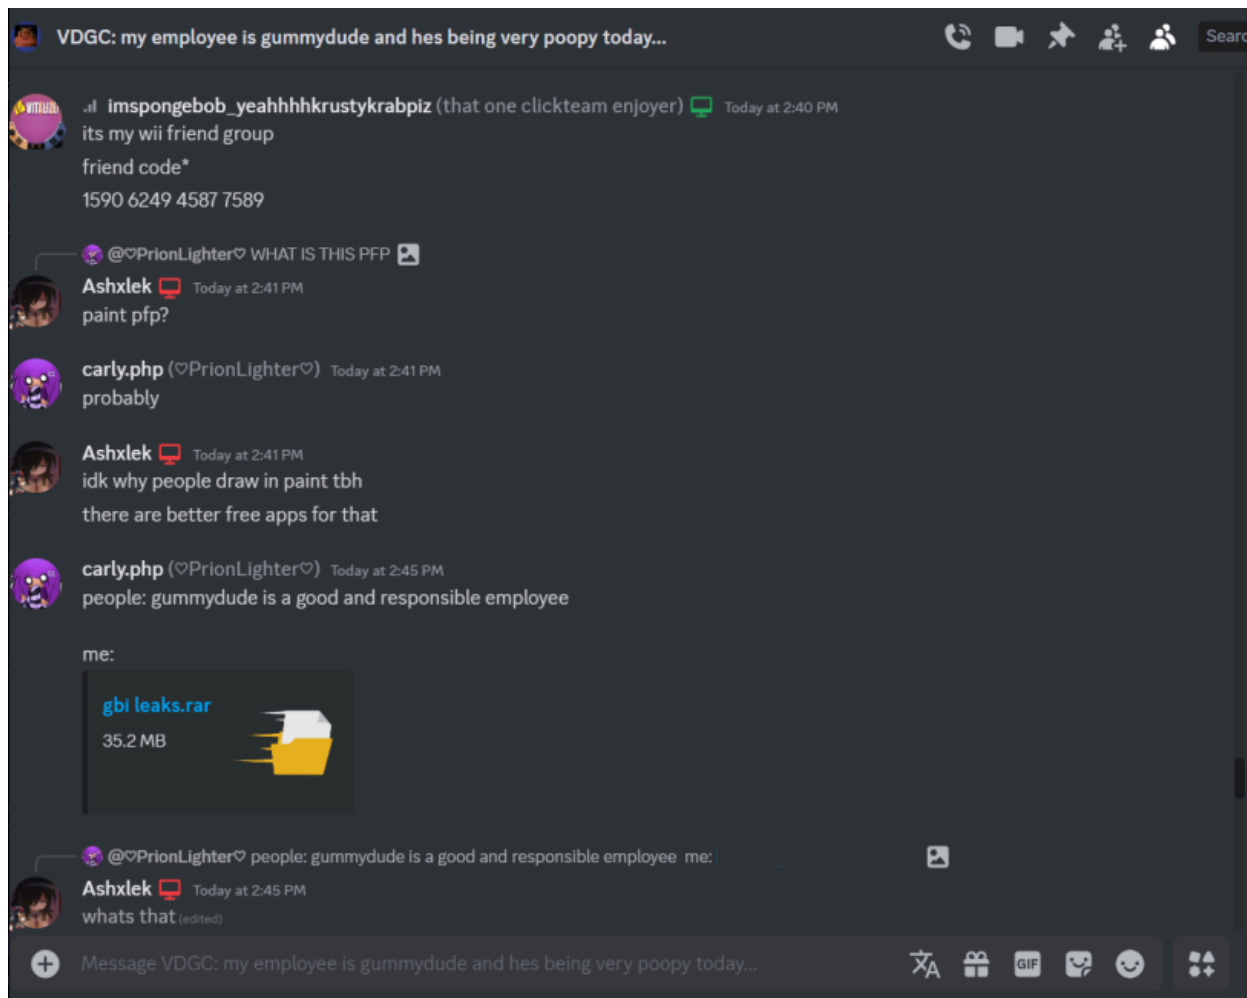

Gummibär Leaks

Carly has (not yet) leaked anything regarding Gummibar, but I have gotten an anonymous tip about Carly creating a gofile link that leads to some unreleased Gummibär MP3s and probably some other stuff.

What's inside of the “GBI Leaks” folder?

Conclusion + End of Document

Conclusion + End of Document

MARBLE'S CONCLUSION

Carly would do anything to get her friends back. She's a huge liar and got away with many of her actions. Everytime she apologizes, she will continue doing the same actions she's done for the past year, and doesn't plan on stopping.

Everytime i update this document, she sends her troops after me to mentally harass me, and it just continues drama.

DO NOT. AND I MEAN. DO NOT attempt to protect Carly. She has damaged my mental health with this drama, and she has also mentally attacked me with her friends. Considering that this entire doc has literally 150+ pages sickens me. She has caused trouble to so many people on the internet. Do not trust Carly, and do not protect Carly. Any troops or goons are on the bottom of this document.

WORLDCASH'S CONCLUSION

I am gravely disappointed in 608's response to the accusations brought up against her. She should have realized the mistake she made and worked to correct the wrong she has done, but the only thing she did was spread lies about me and everyone else accusing her.

The reason I have made this document is to clear up any and all misconceptions on the matter. If I have gotten anything wrong or left out anything in this post, let me know.

I do not hate 608, but I cannot support her actions. As an individual she has caused harm that she has not shown remorse for, and I cannot accept that.

And 608, if you're reading this, hiding the truth won't help you at all. You are who you are, and you make mistakes. It's time to own up to them, and spread a proper counter argument instead of spreading lies and misinformation.

If people think you are a pedophile even after you tell them your counter argument, then you cannot convince them. You have made a grave mistake, and a grave mistake does not come without punishment. Accept that, or you will never move on.

If you did actually feel remorse I would expect you to say "I understand why you think I'm a pedophile, what I did was wrong and I don't expect you to forgive me" if someone doesn't believe in you, not post false information.

Don't even think about suicide either, that's just another form of escape. Realize how you were wrong and grow up. Do not harm other people for the sake of your own goals. What you did was wrong and you have to properly deal with that.

This document was made to avoid the confusion she has spread everywhere, to tell 608 that what she did was wrong and nothing I have seen has changed that, to tell her that she has not dealt with the situation properly, and to tell her that none of the actions she has made throughout this have shown me any remorse for her actions whatsoever.

Remember, no one is forced to forgive you for what you did, 608. Tell the truth while defending yourself, as you know you did something wrong.

That is all. I will update this document if any new information comes to light.

GBA'S CONCLUSION

I believe there's still a chance for peace, both sides did wrong things. I tried to not be on the bad things. I don't think that Carly shouldn't have a chance for forgiveness, because everyone makes mistakes, and mistakes are the key to success, Tho still, if she attacks us one more time, I'm ready to call a lawyer.

NICEYOMI'S CONCLUSION

Carly is a horrible person, manipulator, doxxer, and groomer, my experience with Carly was horrible, he always made drama, even if we all asked him to stop doing some annoying useless dramas, he still continued. And he harasses me, and dated a 13 years old, almost a 12 years old while he was 17. Don't get fooled by how he talks to you, he may seem nice, but a horrible person is hiding behind that screen.

ANONYMOUS USER'S CONCLUSION

Carly is annoying, continuously causes conflict with many people, and lied about screenshots in this document being faked. Do not trust Carly, she is a horrible person. She's always going to get her troops to spy or cause any conflict or work for her. Please ban her from any servers you administrate that she's in. If you decide to turn your back on her, she'll freak out on you and get you into conflict.

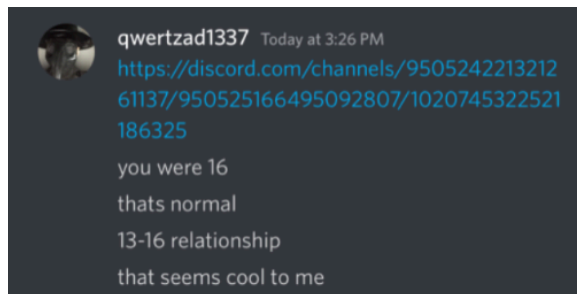

MEZSTRA'S CONCLUSION

Carly is very toxic and annoying, she uses people for her own gain and manipulation, and constantly has started numerous fights. She has started this neek drama since

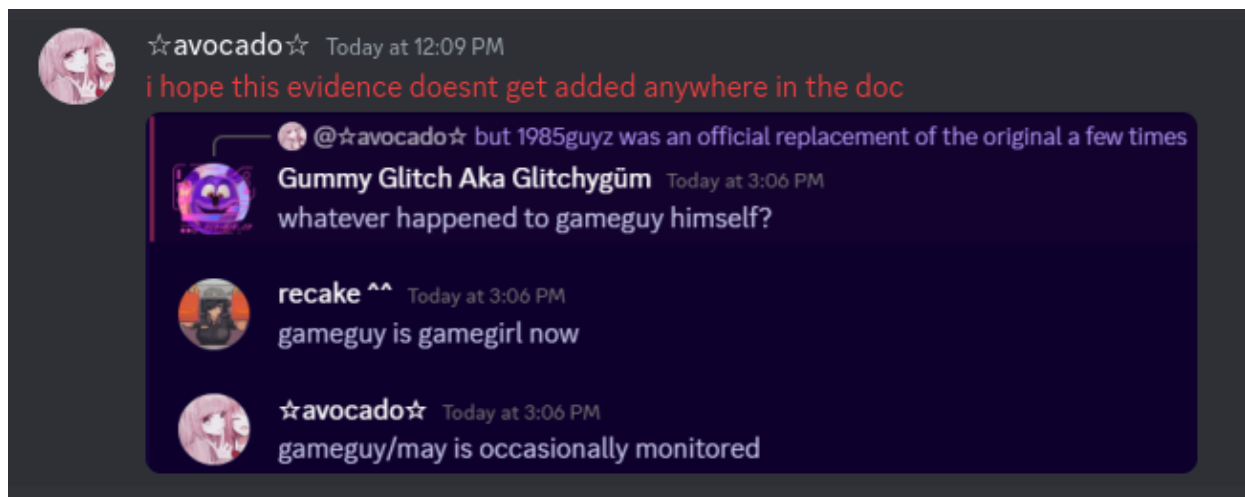

August 2022. She betrayed Marblyn for her own gain. Marblyn didn't do anything for Carly to do this to him.

KIT'S CONCLUSION

Carly made me think for the longest time that she was the good guy here, that Marblyn was some giant evil supervillain. Looking back, this was very immature for me. I do not condone any of her actions.

(image from 2022 when i was still with Carly, i was HELPING her??)

Ooh shocker she stalks her ex that's way younger than her

She's caused unchangeable harm to my mental health and has no sense of empathy for people outside of her close circle. It's sickening and I wish I never got involved with this stuff in the first place. I'm sorry to everyone I constantly complain to about this, and I'm sorry for involving more people. This should have ended so much sooner.

BRYC3'S CONCLUSION

This is my first case, so I didn't really know what I was doing, I was just gathering the facts, placing them together, and creating my conclusion.

I have heard far more than enough to realize that Carly is **most likely** a child predator. In my belief, the things she did to a child are unacceptable, especially the age difference, and the fact that one of them was NOT of legal consent.

Carly in general is also **most likely** not a good person to hang around/be with, as she is quite ruthless and doesn't seem to show remorse, she is quite careless when it comes to legal matters as well.

TL;DR

This was my first case, I came to the conclusion Carly is **most likely** a child predator and not a good person to be with.

As always,

Stay safe.

bryc3 out.

Oh yeah and Carly, stop changing your computer screen to Google you half assed fuck.
